Cariboo Mining Summary. We have the Cariboo Sentinel of the 30th alt. On William creek the Downie Co have cleaned up 40 oz for two weeks. The Wilson Co took out 415 oz in five days astonishing everybody. Most of the gold was taken out a few feet from an old drive. The Cornish Co took out 144 oz in a week. A Chinese Company report \$4600 for the seasons The Tyack, San Francisco and Black Jack Cos were all doing well. The Barker Co for this week took out 184 oz; the Foster-Campbell, 64 oz : the Canadian and Baldhead failed to get expenses ; the Caledonia

got out 85 oz. A couple of new "chums" washed out 62 oz from the tailings of the Raby claim. On Stout Gulch the Mucho Oro Co washed up 35 oz ; the Taffvale Co. 26216 oz; the Coombs Co, 1661 oz; and the Floyd Co, 146 oz. The Jim and Joe, the Keystone, Jenkins, and Alturas Cos are prospecting. The Jenkiss Co have run across a channel over on the right side of the gulch and expect to bottom soon. At the mouth of the gulch the High-low-Jack

co are making wages by ground aluicing On Conklin Gulchivery little is doing. The White Pine got \$243 for the week; and the Felix Co about 22 oz. " On Lowhee Creek things are slow. From Mosquito Creek and Red Gulch the reports are good. On Lightning Creek and its; tributeries times begin to brighten up' a little. The yield of gold s increasing. About \$1400 were taken out during the last week, as far as we could learn, and more claims are expected to get advanced into a paying condition at an early day. Among the best of the claims taking out pay are the Dunbar, Lightning, Wisconsin and Montgomery claims. Yesterday the Ross Co were driven out of their shaft by water. Machinery will be erected as soon possible, The reports from Canadian, Grouse Keithley, Harvey, Goose and Cunningham Creeks are very favorable.

(From the Cariboo Sentinel of 8d July) The Wilson Co, above Richfield, took out 160 oz up to Friday morning. The Barker Co washed up 85 oz on Thursday. Up to Wednesday at noon the Taffvale Co had From Canadian Creek we have encouraging information. The Miller Co, who are sinking a shaft, have come to gravel and are getting a little gold. Alter the great expense which the Miller and three other companies together combined have been put to in the construction of a tunnel, it is gratifying to learn that prospects indicate the

utility of the work. The washup of the Minnehaha Co, Mousquito Creek; for last wrek, amounted to 120 oz, instead of 65 oz. as we reported. On Lightning Oreek Flynn Satellite. & Co commenced to wash early this week. Prospects of \$31 to the pan have been obtained, and they have got the water high

enough to enable them to hydraulic and ground-sluice the extensive bench near Boyd

water 300 feet above the creek. Pay is packed away. COAL LADEN -The ship Cowper, found three feet from the surface, and ther is also a deep channel running through the with 1700 tons Nansimo coal for San Franbench. The Discovery Co continue to take oisco, was towed into the Straits yesterday out good pay-35 oz a day, it is said. The by the Isabel.

FROM THE MAINLAND,-The steamer Enterprise, Captain Swanson arrived from New Westminster yesterday afternoon with about 30 passengers, among whom were Sir James Douglas and daughter, Mr Newton, Mr J.Mc Dowell, Mr and Miss Fisher, Mr Franklin, E Tynon, Mrs Neufelder, Mr Sweeney, Fritz from Lillooet and others. She brought a mail and express and about \$130.000 in treasure. The Yale Examiner had terminated its existence : its decease must have been

looked for, for some time, as its light had begun to flicker. The rain had extended to Yale and had nearly extinguished the fires in the woods, which however, continued to smoulder and emit a large quantity of smoke. There were five miners with \$60,000 in treasure from the Taff Vale and Floyd Companies on Stout Gulch; they are on their way home to Wales. Bill Pollard, while under the influence of liquor, broke into Capt. Deighton's house at 11 o'clock last evening and attempted to cut him with a large carving knife. Deighton caught his hand and calling assistance, had Pollard arrested. MR. MUSGRAVE.-We have been shown an extract from the Toronto Globe which

strengthens our statement that Mr. Musgrave was in Newfoundland when the news of Mr. Seymour's death reached him. Per contraon excellent authority we learn that shortly before his death Mr. Seymour received a note from Mr. Musgrave, dated early in May. Mr. Musgrave was then in London. rica under the sway of the creacent than to However, there is one consolation connected with all this uncertainty : he will be here when he arrives and not before.

BLACKWOOD'S MAGAZINE FOR JUNE COMES to us more than usually interesting. The light tion, the Viceroy has designedly deferred to reading is excellent; but the chief feature is a spiritedly written article on American reasons for peace, which should be read by everyone interested in either England or Prophet. America. It shows very distinctly that there is no likelihood of any evil consequences arising from the discussion of the Alabama claims.

Snow fell at Cariboo on Dominion Day, washed up 76 oz, and the Coombs co 32 cz. and all the vegetables were destroyed by frost. The Sentinel "regards the fall as a heavenly gift to the country in token of a blessing upon the Dominion of Canada." Very good ; but we hope the Dominion will not bring its climate with it across the Rocky mountains. A blessing of that description can be very well dispensed with.

THE band of l'Astree will perform on Foster's wharf this evening, commencing at 5 o'clock. The officers of l'Astree will dine to-morrow with the officers of H. M. S.

RAFFLE.—A raffle for several articles of value for the benefit of the Sisters of St. Ann, will take place at the American Hotel this evening at eight o'clock.

DISMANTLING THE DREDGER .- The "Ele-& Heath's house. \$8,000 have been ex-pended in getting in the ditch, which is phant' is undergoing the process of dismantl-with his troops, he will receive the gratitude about three miles long and carries the ing. The machinery, we believe, will be of Christendom.

Expedition up the Nile.

5

The New York Journal of Commerce has the following exposition of the purposes of the forthcoming expedition up the Nile under the patronage of the Viceroy of Egypt : The Baker expedition up the Nile is an nounced to start about the first of July, at which date the annual rise of the river com mences. This will be the best appointed and probably, in its effects, the most beneficial enterprise ever undertaken for the civilization of savage men. About 1,300 infantry and 200 cavalry, Arabs and Nubians-good soldiers, and seasoned in the African climate -will compose the expeditionary force, all under the absolute command of Sir Samuel Baker, one of the most intrepid and success. ful African explorers, a man whose coolness skill and judgment have been tried and proved in the furnace of adventure. Iron steamers, which can be taken apart and transported on the backs of camels, fourteen mountain howitzers, ammunition and supplies unlimited, have been furnished out of the overflowing exchequer of the Viceroy of Egypt. The notive of that enlightened prince in sending out this costly expedition is one that bears the closest scrutiny, and challenges the ad-miration of the Christian world. Though a true and consistent Musselman, his object is not-like the Prophet's-to propagate his faith. There is no pretence of any procelyting purpose in the scheme-though, had the Viceroy declared that to be his motive the expedition would still have reflected bonor upon him. Morally speaking, he has as the sword as Unristing nations have have to advance their systems of religion by the same means; and it certainly would better to bring the savages of equatorial Aflet them continue in their present bondage to the most degrading forms of heathenism. The former, bad as it is in Christian eyes, is infinitely preferable to the latter. There can be but liitle doubt, that in omitting the element of a religious crusade from this evpedithe sentiments of that civilized part of the world which is Christianized : and in doing so he has shown how the Christian spirit may truly dwell in the heart of a follower of the

Next to religion as a motive-or we might say associated with it-its handmaid it is sometimes called in such enterprizes-is the extension of commerce. To open up the field of trade in products which the world wants, and so promote the comfort and haps piness of mankind in general, is itself an object most highly to be commended; and if that alone were the design of the Viceroy, the Nile expedition, if humanely and wisely con-ducted, would receive the hearty approval of every civilized nation under the sun. Of course the Viceroy expects to resp some sub-stantial advantages in return for his heavy outlay of money. He means to establish tra-ding posts in the land of gold, ivory, gum arabic, beeswax, and camphor; and he has an eye to cotton growing at any points that may be favorable for it. He would not vindicate the business capacity he displayed as a builder of railroads and telegraphs, and pro-moter of the Suez canal. if he did not also look to the enrichment of his treasury from the Nile expedition. But beyond and above

NTED, DDITIONAL FARM J D PEMBERTON, arm Cottage, Victoria District

It is for the Administrator to decide, in this very crisis, whether he will take the tide at its floud and float on to an honorable and respected career; or whether, by throwing himself into the breach between the officials on the one side and right, justice and honor on the other, he will quietly submit during the brief period of his "reign" to an act of epoilation which nothing except "The good old rule, the simple plan; That they should take who have the power And they should keep who can,"

will justify.

Some Eastern American papers do not agree with their cotemporaries on this coast as to the commercial benefits that are to flow from the completion of the railway across the Continent. While they admit that the railroad renders the rapid settlement of the country lying bilities they are prepared to incur. The west of the Mississippi an assured fact, they are not so positive that the United States is destined to monoplize the east ern trade and New York to become the commercial center of the world. The York Times, one of the most respectable authorities in the United States, thus speaks of the road and its anticipated results : "The enthusiasm in respect to

the Pacific Railroad has undoubtedly entered into the excitement in real estate on this island. Many expect lines of marble palaces in our streets, built up by the profits of new trade with the Orient, and that New York is to become a kind of Venice in connecting the products of the Indies with Europe. ral bill and allowed. Chicago has caught the enthusiasm, and is awaiting a new prosperity as the center of the carrying trade in teas, silks,

and all the most profitable products o of China and Japan, on their way to New York and London. "The way to the Indies' is said to be already posted Mr Lipsett has come down to engage hands. up as an inscription somewhere on the He thinks they can secure three whales a Pacific road. We regret to say that week.

ENGLISH LIFE INSURANCE COMPANIES .-

Thursday July 15

An interesting return has just been made to the House of Commons of all the life insurance companies which have been registered under the acts of 1844 and 1862. We find that the total number that has been so registered is no fewer than 272, but that of this

number only 74 are now in existence, while not less than 198 have succumbed, their career having terminated either by amalgamation with other companies or through the unhappy medium of the winding-up court. The widest possible divergence! is presented in the amount of actual capital of the several companies. Certain of them present to their

assured the solid guarantee of a large paidup share capital, among whom the Royal, Commercial Union, and the Queen are conspicnous for solidity in this important particular; while the larger number are contented to seek the support of the public with resources greatly disproportioned to the lia-Commercial Union has a nominal capital of £2,500,000, of which £2.500,000 are subscribed for; the Royal and Queen each show a nominal capital of £2,000,000 £1,922,300 of which are paid up. Some of the companies show a nominal capital of only £10,000, but £8000 of which are paid up; and one company [the United Brothers] with a nominal

capital of £1500, has only £230 paid up. In reply to "Cromwell's" letter of yesterday, we are told that the entire funeral expenses of the late Governor amounted to \$1800, and that there were no extra charges amounting to \$2000. This explanation is satisfactory, inasmuch as it has been hinted that certain expenses of a private character, which had not the slightest connection with the public obsequies, were charged in the gene-

SUCCESSFUL WHALING .- Mr Lipsett came down yesterday from Howe Sound, where he has been engaged in whaling. On Thursday of last week the party took a whale and on Sunday another. The two yielded upwards of 3000 gallons of oil, or about 100 barrels.

Mahrling Co have laid over their claim on McArthur Gulch, for the season, in consequence of the water in their diggings, and intend to commence by hydraulicing the ground next year.

WATCHING AND PREYING .- It is not often that the bearer of so significant a name as Nathan Wise is found so devoid of common sense as to fall within the meshes of the law -at least, not without leaving a small loophole through which on occasion he may wriggle bimself. Yet it sometimes so happens: and no longer ago than yesterday was placed in the Police dock a man bearing that cognolast from Portland, and represents himself to be an itinerant watchmaker. His plan was to accost a stranger in the street and ask him if his watch or jewelry required repairing and, strange to say, he found more than one dupe, even in this wide-awake community. One person upon whom he called complained that his watch would not go. "Give it me," said the sharper, "and I'll little finger, asked him if he did not want his name cut upon it. Victim said he did, and handed it over to the sharper, and the ring was keeping the watch company at the pawnbroker's in a twinkling. A partial examinan

further testimony. FUNERAL OF MRS. C. W. WALLACE .- The signed to the grave yesterday. The attendthe cathedral choir sang the 256th hymn, commencing: "Oh, where shall rest be found ?" The pall-bearers were Hons, Helmoken and Ring, Capt. Lewis, and Messrs.

Nicholson, Grancini and Thorne.

Creek, it was announced, would be ready for business on the 5th inst.

THE bark Delia Carlton, bound for the B. C. and V I Mills, arrived yesterday

A COUNTRY WHERE EVERYBODY STEALS .- A Vienna paper relates the following occurence which recently took place in a provincial city of Moldavia : A merchant there has received several thousand ducats in gold for goods he had sold. He brought the money to men, who is charged on very direct testi- bis house. On the the same evening two mony with being a constructive thief. He is gentlemen, with masks before their faces, came to him, and threatening to shoot him with their revolvers, ordered him to give them the gold. The merchant although he was greatly surprised had sufficient presence of mind to resolve upon the best course to be pure old chest yonder. Here is the,key ; open it, and help yourselves to all you want make it go !" And he kept his word. The to take from me." While the two vilwatch went to a pawnbroker's where it was pledged. Returning shortly afterwards the fellow, observing a seal ring on his victim's merchant hastened out of the room, lockwho was just coming home, not to allow anyone to enter or leave the house, tion of the Wise man was had yesterday before Mr Pemberton, and he was remanded for that of the Prefect, and, as he was ab.

sent, too, the house of the Police Commissioner. After informing the latter of remains of Mrs. C. W. Wallace were con- what had occurred, the merchant returned with the Commissioner and some ance was very numerous. The services were policemen, to his house, where the serconducted by the Very Rev. Dean Cridge, vant told him that, during his absence, and, in compliance with the request of the no one had entered or left the house. deceased lady, made just prior to her death, The door was opened. The two masked thieves were lying before the open chest, without giving any signs of life. Their masks were removed and the thieves were found to be the Chief of Police and the Prefect,

The Japan Gazette has the subjoined intelligence :

On the 29th of April the Keang-su, THE Government Assay Office on William Stonewall, and several other steamers belonging to the Mikado's fleet, arrived in Nambu harbour (Mivako) for the purpose of taking wood and coal. This might have been very well done in two days, but the officers and men left their ships and went ashore to amuse themselvs for a few days. Whilst thus engaged, three steamers belonging to the Northern Confedracy entered the bay and one of them the Eagle, steaned close up to the Stonewall, leaving the Ashuelot and another, name unknown, at the entrance. She fired seven shots and lodged three bombshells upon the Stonewall's deck; and then steamed past all the other ships in succession and fired into them. She then returned and joined her comrades, and steamed away again. This. occupied about forty-five minutes,

It was doubtless the intention of the commander of the Ashuelot te run alongside and take the ram by surprise with boarders, but sued under these singular circumstances owing to bad steering the vessel went stem and said to them, "The money is in the on and sustained great damage. At the moment the two vessels came into contact, four of the Ashaelot's crew dropped on the decks loaded; he aimed, and shot both of the steamed a short distance and was then run them. Without losing juther time, the on shore and set fire to. A Freach officer, merchant hastened out of the room locks who was on board the Eagle directing the fire was shot through the arm and thigh, and now ed the door, and ordered his servant, lies at Hakodate past recovery. Seventytwo of the Ashuelot's crew, with one French man, escaped on shore after the steamer was whereupon he repaired to the Chief of in flames, but were shortly afterward captured Police, and not finding him at home, to by some of Satsuma's troops who were on the march to Awamori.

That Enomoto and his misguided eempanions acted under foreign inspiration of foreigners in making the movement they at length did, there is now no reason to doubt. To Branet, that illustrious French filibuster and his companions in arms, is Japan indebt ed for the instigation of hostilities, as oriminal as they are foolish. It may well be asked what rational object the e soldiers of fortane have in allying themselves with the broken emains of the Tokugawa party ?.

The Mikado has returned to Yeddo, and the city is as full as it can be of armed men who have come up as retainers of the daimios summoned to attend upon his Majesty. The position of foreigners was precarious.
