DAYS AFTER DATE I intend  
to the Chief Commissioner of  
works for permission to pur-  
following described lands sit-  
River, Coast District, below  
anyon, and adjoining J. T.  
property, and beginning at  
and marked S. B. Johnson's  
thence East 80 chains, thence  
thence West 80 chains, thence  
thence North 80 chains, thence  
containing 640 acres.

Janon, B. C. June 29, 1906.

S. B. JOHNSON.

is hereby given that 89 days  
intended to apply to the Com-  
missioner of Lands and Works  
licences to cut and carry away  
in the following lands situated  
River, Coast District.

Commencing at a post on the  
ena River about three quarters  
below Thornhill's bridge, thence  
thence west 80 chains, thence  
thence north to the bank  
along bank of river to  
commencement.

JOSEPH HUNTER

Aug. 8, 1906.

Commencing at a post on  
Skeena River, nearly opposite  
of the coast and a description of the  
along bank of slough, thence  
thence north to the bank  
along bank of river to  
commencement.

## Local News

Ask for Amherst solid leather foot-  
wear.

Change of Date.—The annual ex-  
hibition under the auspices of the Delta  
Agricultural Society will be held on  
September 21st and 22nd.

Storewood Higher.—It is reported  
that the wood dealers have decided to  
advance the price of cordwood and  
storewood, owing to the high price and  
scarcity of labor, and the long credit  
system in vogue in this city. Hence-  
forth all sales from this date will be  
at the advanced price.

Sentenced for Stabbing.—Provincial  
Constable Skillen of Rivers Inlet  
brought down a man named James  
a Chinaman sentenced for stabbing and  
an Indian going to serve a term for  
supplying his fellow tribesmen with  
brewster. Both were taken over to the  
Provincial jail in New Westminster.

Fined for Dumping Offal.—The im-  
perial cannery at Steveston, owned by  
the B. C. Packers' association, was  
fined on Friday \$40 for dumping fish  
offal into the river. Mr. Duncan Rowan,  
the manager of the factory, pleaded  
guilty. It is said that the offal, which  
of the kind brought before the Steves-  
ton magistrate.

Grand Trunk Pacific Surveys.—A de-  
spatch from Hazelton says: The work  
of the Grand Trunk Pacific survey is  
going ahead. Parties are working east  
and west from Lorne creek on the  
Skeena, and other parties working east  
and west from Hazelton. An Indian  
village in the Bulkley valley, forty  
miles from Hazelton. The road will  
pass close to it not through Hazelton.

Land Grangers Busy.—Bulkley val-  
ley, according to Mr. Patrick, who has  
lately returned to Ashcroft from there  
is being made use of by eastern gra-  
ngers. Chicago men are buying the un-  
suspecting to get in on the ground  
floor with them in mining propositions.  
Mr. Patrick says his son has 65 claims  
but has not found one in place on any  
of them. The whole country he says is  
covered with script. People looking for  
land are coming out bitterly disap-  
pointed. Speculators control the situa-  
tion.

Committed Suicide.—A special to the  
Colonist from Duncan Monday says:  
"Walter Travis, 50, a married man, for  
seven weeks at the Quamichan hotel,  
committed suicide this morning by hang-  
ing. A cord was passed over the top  
hinge of the bedroom door. He was  
from England. He traveled for the Van-  
couver Brewery. The body was dis-  
covered at 10:30 a. m. by the chamber-  
maid and cut down by Parry Smith.  
Life had been extinct for some hours.  
Coroner Norwood held an inquest and  
considered no inquest necessary."

For Helmsken Cup.—Vancouver  
Foresters will assemble at Nanaimo  
on Saturday next. The steamer Joan has  
been chartered for the purpose. The  
club will leave the C. P. R. wharf at 8 a.  
m. The Sixth Regiment band has been  
engaged and will give selections on the  
boat and also play in the parade at  
Nanaimo. A fine program of songs  
have been arranged by the A. O. F.  
in Nanaimo and one special feature will  
be the tug-of-war for the Helmsken  
Cup, which is the trophy of the victory  
by three different societies in Victoria.  
It is open to any fraternal society in  
British Columbia.

Gasoline Launch Trip.—A private  
communication from Nanaimo says  
that J. Dempster and A. Ash of this  
city have arrived there safely in their  
gasoline launch. On their trip they vis-  
ited Sidney, Crofton and Ladysmith,  
and spent a few hours at each place.  
The launch made good time to the Coal  
City. The launch motor with which the  
launch is fitted is attracting consid-  
erable attention at Nanaimo, and the  
two young men are making a most  
enjoyable trip. After a visit to Depart-  
ure Bay where a couple of days will  
be spent the travelers will head for  
home arriving in Victoria early next  
week.

Succumbed to Injuries.—The death  
occurred at the Jubilee Hospital on  
Sunday of Edward Hobbs under sad  
circumstances. Mr. Hobbs was suf-  
fering from wounds received on Sat-  
urday while working with a team of  
horses about his farm, which fronts on  
Cadboro Bay. The late Mr. Hobbs  
was 40 years of age, a native of  
North Cadbury, Somersetshire. He  
resided in Victoria for 15 years, during  
which time he engaged in farming on  
a property at Cadboro Bay. He leaves  
a widow, three children and one  
brother—F. V. Hobbs of Port Ren-  
frew—to mourn his loss. Mr. Hobbs  
has been informed of his brother's de-  
cease and has arrived here from the  
west coast. The funeral has been arranged  
to take place tomorrow afternoon from  
the late residence at 2 o'clock, and an  
hour later at St. Luke's Church, Cedar  
Hill. Deceased was a member of the  
Court Victoria, A. O. F. members of  
which organization will participate in  
the last sad rites of interment.

Combined Picnic.—On Thursday last  
a combined picnic of the Comox Sun-  
day schools and the Farmers' Institute  
was held at Piersy's beach on Comox  
harbor. Although the farmers were  
busy with their crops, a large number  
turned out and the children were all  
there. Sea bathing was the chief amuse-  
ment of the little folks but the older  
ones gathered beneath the trees to lis-  
ten to a most interesting paper on Co-  
operation, by H. H. Puley.

Mr. Robb said that the farmer had al-  
ways sold his produce wholesale and  
bought what he required at retail,  
whereas the Co-operative principle pre-  
sents to adopt the co-operative principle  
in buying their supplies. This might be  
done through the Farmers' Association  
or the Farmers' Institute. Mr. Puley  
told what he had seen done with  
stumping engines in Washington, and  
in this province giving a general idea  
of the cost and a description of the  
methods used. A general discussion fol-  
lowed each speaker in the course of  
which Mr. Turnbull told of the work of  
the Grangers in Ontario and advocated  
the adoption of the co-operative method  
in importing stud horses and other pur-  
bred stock. Mr. Duncan presided.

Loggers Are Busy.—Loggers from the  
logging camps adjacent to Ladysmith  
report busy times at present, and good  
wages are being made by the men em-  
ployed.

Tyee Smelter Returns.—The smelter  
ran 11 days and treated 1792 tons of  
Tyee ore, giving a return, after deduc-  
tion of freight and refining charges, of  
\$31,128.11.

Southern Cross Mines.—It is reported  
that the Southern Cross mines near Al-  
berni are closed down for the present. It  
is said that the machinery will be instal-  
led before work is resumed in the several  
properties belonging to the company.

Attend Medical Meeting.—Dr. A. T.  
Watt, superintendent of quarantine for  
British Columbia, left Tuesday morn-  
ing for the East. He will attend the  
meeting of the British Medical Associa-  
tion in Toronto and afterwards do  
some work in the hospitals there.

Made to Pay License.—At Duncan  
on Monday W. H. Kitchen, appearing  
before Magistrate Lomas to answer to  
the charge of soliciting orders for fruit  
trucks without a license. H. D. Helmcken,  
K. C., appeared for the defendant, and  
Solicitor General Lomas in charge of the  
interests of the municipality. Kitchen  
was adjudged to pay the license fee of  
\$10, a dollar for costs and \$10 fine.

Will Make Home Here.—It is prob-  
able that William Whyte, second vice  
president of the C. P. R., and J. A. M.  
Alkens of Winnipeg, who recently vis-  
ited Victoria, will make their winter  
residence in this city with their fam-  
ilies. Although it will not be possible  
for the gentlemen mentioned to spend  
the whole season here, their families  
will remain in Victoria throughout the  
winter.

A School Bursary.—Miss Thelma  
Thomson, daughter of the local manager  
of the Hudson's Bay Company, whose  
family are now residing in Scotland,  
has gained the distinction of a School  
Bursary at the Edinburgh College, at  
which she is now undergoing a course  
of instruction. She is the daughter of  
her primary education to know that  
Miss Thomson is so well representing  
the Maple Leaf in the land of the Thil-  
de.

New Library Catalogue.—A sup-  
plementary catalogue will shortly be  
issued from the public library contain-  
ing the list of about 500 new volumes  
recently added. It will comprise 350  
volumes of fiction, recently purchased,  
with a good list in history, biography  
and travel, and a few juvenile books.  
The reference department has been  
enriched by the addition of several  
very valuable works, especially the  
greatest, newest and best English  
dictionary and the monumental History  
of the English Counties.

Laid at Rest.—Tuesday afternoon  
the funeral of the late Elmer McCombs  
the young man who was injured at  
Goldstream some time ago, and who  
died at the Royal Jubilee hospital, took  
place from the parlors of W. J. Hanna  
Yates street. Rev. G. K. B. Adams of-  
ficiated. A large number of associates of  
the deceased from Goldstream district  
attended the funeral. The service was  
this morning's trait for that purpose.  
The following acted as pall bearers: Messrs.  
W. Carter, L. Smith, W. Deronise, J. I.  
Villacott, H. Wilder and F. Savary.

Oak Bay Council.—At a meeting of  
the Oak Bay council held on Monday  
evening considerable business of an im-  
portant character came up. W. E. Ol-  
iver, chairman of the council, presided.  
Those present were F. B. Pemberton,  
F. M. Rattenbury, Wm. Henderson, and  
W. E. Hayes, J. Sutherland, and W.  
Hobbs. As this was one of the first  
gatherings of the body since the organi-  
zation of the council, a great deal of time  
was taken up with routine business, but  
the members got down to the discussion  
of questions of vital interest to the dis-  
trict they represent with businesslike  
promptitude. A number of bylaws were  
advanced as far as possible at the out-  
set.

Local Grown Lemons.—A few days  
ago a story was published in Nanaimo  
to the effect that the first lemons, to be  
produced in British Columbia had been  
grown there, but evidently Victoria can  
claim the honor. The story was to the  
effect that a certain fruit grower, who  
is doing perfect fruit is at present grow-  
ing in the city. The trees on the prop-  
erty of Henry Gribble, 240 Pandora  
avenue, the species of the fruit being the  
"American Wonder." The trees a few  
weeks ago had over 50 lemons well on  
the way to ripening but while they were  
still green, however, they dropped off.  
Since dropping the fruit has changed to  
a ripe yellow and is now ready for sale  
on view at the Tourist and Development  
association.

The Labor Shortage.—Says the Ash-  
croft Journal: "There is considerable  
agitation in favor of removing the tax  
on Chinese owing to the scarcity of  
labor. It comes from agricultural, and  
railway interests and to a certain ex-  
tent from householders who want ser-  
vants. Chinese laborers in the country  
are very satisfied with things as they  
are as one can speedily find out if he  
tries to engage a Chinaman in this  
country. With such a scarcity of labor  
existing generally all over this country,  
and particularly in eastern Canada,  
this province cannot increase its force  
of white labor. It has required a show  
of considerable energy on the part  
of the C. P. R. to get labor to save the  
wheat crops in Manitoba. What is the  
solution?"

Pacific Club Enlarging.—At an extra-  
ordinary general meeting of the members  
of the Pacific club the president, Jos-  
eph Kingham, on behalf of the commit-  
tee of management, presented a report  
for ratification. This report dealt with  
a very extensive scheme for improv-  
ing and extending the present quarters  
of the club. The scheme will involve  
an outlay of from \$15,000 to \$20,000, in  
addition to an expenditure that will de-  
volve upon the club itself of from \$5,  
000 to \$10,000. The proposal submitted  
was unanimously adopted by the meet-  
ing, and members of the Pacific club  
expect that improvements and exten-  
sions proposed will make their well-  
known resort one of the finest social  
clubs on the Pacific coast.

Bank Clearings.—The total bank  
clearings for the week ending August  
14, as reported by the Victoria clearing  
house, were \$381,389.

West Coast Activity.—The many  
new enterprises springing up along the  
west coast have benefited Alberni, as  
supplies of meat, vegetables and lum-  
ber in large quantities are a steady  
shipment for points on the west coast.

Acquires Residence.—The residence on  
Michigan street built some years ago by  
the late Premier Smyth and which after-  
ward was the home of the late Governor  
McLennan has recently been sold to a gen-  
tleman from Winnipeg who will short-  
ly occupy it with his family.

On Fishing Trip.—Messrs. Bellinger,  
Spratt and Dr. Morris arrived on the  
noon train, and left for Alberni in Miss  
Watson's touring car, says Monday's  
Nanaimo Free Press. From Alberni the  
party will proceed to Galiano and back  
to enjoy a few days fishing and lake  
recreation excellent at this time.

A Smelter Project.—The recent find  
at Salsola, the west coast, is said to  
equal the Big Nickel in the value of its  
resources, and serious work on this  
property will shortly be commenced.  
Fifty men are to be given employment.  
A smelter for the ore is projected,  
but its construction will depend on  
certain development work being done.

Back From Interior.—Dr. Tolmie,  
Dominion government inspector of live  
stock, has returned after a three  
months' tour of the interior. His itin-  
erary included Salmon Arm, Okanagan  
valley and other districts. While away  
Dr. Tolmie explored the interior of  
Victoria exhibition to some extent. He  
found considerable interest being taken  
in the fair.

Welcome Rains.—The heavy rains of  
the past few days have extinguished all  
the fires along the line of the E. & N.  
railway. This year the fires were con-  
fined to an area between Shawinigan and  
Goldstream, and the stream, and the  
Summit, but the damage done this  
year was slight compared with that of  
last year. The C. P. R. company has  
had watchmen employed along the line,  
and wherever a fire was noticed it was,  
if possible, immediately extinguished.

Activity Round Quatsino.—C. P.  
Frank, the West Coast mining man, ar-  
rived in Quatsino last night. The mining  
group is looking extremely well. Good  
ore is in sight in the tunnel, which has  
been driven some 475 feet. The copper  
propositions on the Quatsino are show-  
ing up splendidly. Mr. Frank very  
much discounts the recent iron discovery.  
No ore in place has been found yet, he  
says, and the ore is more than  
surface indications of red oxide.

West Coast Summer Resort.—As a  
summer resort Alberni is coming to  
the front. During the past season  
several touring parties have  
visited the place in automobiles. All  
who have made the trip expressed  
great satisfaction with the excellent  
condition of the roads and were en-  
chanted with the vista of magnificent  
scenery along the route. There are  
a great many points of interest in the  
various directions which automobile  
can reach. Many prospectors have  
entered the country via the Great Cen-  
tral Lake, in the vicinity of the Big  
interior copper discovery.

A Northern Incident.—Some little  
interest was created in the recent  
northern voyage of the Amur by the  
fact that a Chinese, who had been  
Tom, an old resident of the Queen  
Charlotte group. The lady went north  
on the Amur and informed a number  
of the officers that she was going to  
take up her residence in the suburbs  
of Skidegate, evidently entertaining a  
very erroneous impression of the size  
of the place whither she was bound.  
She was met at the steamer by her  
intended husband and the marriage  
was performed without delay.

Important Mining Deal.—News of an  
important mining deal on the Queen  
Charlotte Islands was brought from  
the North by the steamer Amur. The  
steamer had been over to Skidegate on  
the trip, just completed, and while  
there the officers learned that a most  
valuable copper property belonging  
to Japanese had been sold to Messrs.  
Watson and Thompson. The deal was  
effected through Knapp of Seattle, and  
the financial consideration is said to  
be \$150,000. Thirty thousand dollars  
of this amount was paid over while  
the Amur lay at Skidegate. The prop-  
erty are situated on Moresby Island.

Select Judge.—A meeting of the Vic-  
toria Pet and Poultry association was  
held at the Queen's hotel Tuesday eve-  
ning when the annual winter show of the so-  
ciety was considered. The appointment  
of a judge was also discussed and it was  
decided to request Mr. Elmer Dickson to  
officially Mr. Dickson acted in this  
capacity at the last show given by the  
society and so well pleased were the  
competitors that it was unanimously  
agreed that he should again be asked  
to do the judging. This show is expected  
to take place in January, following im-  
mediately the Vancouver and Nanaimo  
shows.

Defining the "41st."—Dr. Otto J.  
Klotz, the Dominion astronomer, is now  
in Vancouver, for the purpose of de-  
termining scientifically the location of the  
41st Meridian. Longitude running  
down from the Arctic ocean and mark-  
ing by treaty the boundary line between  
Alaska and British territory. Dr.  
Klotz with a set of delicate instruments  
is working in conjunction with Mr. Ed-  
win Smith of Washington, who is at  
Bogert, Alaska, and Mr. F. A. McDiarmid,  
of Ottawa, who, with a telegraph  
operator, is somewhere between the two  
and near the 41st Meridian. Dr. Klotz  
is conducting his labors from the  
Brookton Point observatory. The three  
scientists working with identical instru-  
ments and astronomical clocks alike to  
within the fraction of a second, are trying to  
determine upon the club itself of from \$5,  
000 to \$10,000. The proposal submitted  
was unanimously adopted by the meet-  
ing, and members of the Pacific club  
expect that improvements and exten-  
sions proposed will make their well-  
known resort one of the finest social  
clubs on the Pacific coast.

The Redford Case.—A despatch from  
Nanaimo Wednesday says Mrs. Redford  
of Alberni, was presented with fine twin  
girls this morning. It will be remem-  
bered her husband was accidentally shot  
about two months ago.

Cohoe Run On.—The Cohoe salmon  
run is reported to have commenced in  
earnest. A number of Victorians made  
good catches in the Skeena Tuesday,  
while yesterday quite a number of row-  
boats are patrolling the waters off Dal-  
las road.

Pender Island Concert.—Yesterday  
morning J. G. Brown, Jesse Longfield,  
Mrs. Gregson, Mrs. Lewis Hall and  
other local musicians left for Pender Is-  
land where a concert was to be given  
last evening the programme for which  
they furnished.

Collins Denied Bail.—A San Fran-  
cisco dispatch says San Francisco Court  
Judge Hubbard today refused the ap-  
plication for bail of Attorney George D.  
Collins, convicted of perjury. Collins  
expected to be released on \$10,000 bonds  
pending his appeal to the supreme court  
of the United States.

Death of Miss Draney.—The sad in-  
teligence was received in city Wednes-  
day of the death of a young daughter of  
Miss Draney, aged 20 years, only  
daughter of Mr. R. Draney, the well  
known canneryman. Mr. D. Draney,  
brother of the deceased, is at present in  
Vancouver, having recently returned  
from the Bulkley valley.

Captured Three Deer.—The crew of  
the halibut steamer Squid, which regu-  
larly runs to Nanaimo for salmon bait,  
brought back from the north three deer,  
which were captured swimming across  
Lowe Inlet. Seven members of the crew  
put out in their dories after the deer  
and captured them after an exciting  
chase. The Squid brought down on her  
last trip sixty-five thousand pounds of  
halibut.

Emperor of China's Birthday.—On  
the occasion of the birthday of the  
Emperor of China, which occurred yes-  
terday, the members of the First Chinese  
Reform association, of Victoria, through  
their secretary, Mr. H. H. Marshall, de-  
spatched the following congratulatory cable:  
"Heartily congratulations on your majes-  
ty's birthday. We wish you long life,  
early restoration of throne and glorious  
reforms in a powerful royal China."

Nanaimo Miner Killed.—James Tun-  
stall, a shot lighter in No. 1 mine at  
Nanaimo was killed a few minutes after  
noon yesterday. A shot had been fired  
and Tunstall went to examine the de-  
formation when a fall of rock occurred,  
crushing his head in a horrible manner,  
causing instant death. He was a mid-  
dle-aged man who had been employed  
for many years in the mines.

Visiting Divine.—The Rev. Professor  
George Bryce, D. D., L. L. D., of Win-  
nipeg, will occupy the pulpit of the  
First Presbyterian church, next Sunday  
morning. Dr. Bryce is the founder of  
Manitoba University, and to him the  
West owes more than to any other man  
the present state of affairs in that great  
city of the plains. He is not only an able  
preacher, and a wise leader, but also an  
author of no mean standing both in  
Europe and America.

Sawmills in Japan.—The importation  
of fine finishing hardwoods from Japan,  
which will result in the shipment from  
Vancouver to the coast of the Pacific  
a fairly large sawmilling and logging  
equipment, has been undertaken by A.  
P. May & Co., of Vancouver. This firm  
several years ago secured the rights to  
extensive tracts of timber in Japan, but  
during the progress of the Russo-Jap-  
anese war the latter government re-  
fused to permit the exportation of the  
timber on the ground that it might be  
required in warfare.

Deputy Minister's Tour.—J. R. An-  
derson, deputy minister of agriculture,  
is at present traveling around the Ok-  
anagan district, and upper coast gen-  
erally, accompanied by Professor Shutt  
of Ottawa, who is giving a course of  
lectures and addresses. Wednesday  
communication was received by  
Mr. Anderson stating that he had been  
about Penticton, Keremeos, Vernon  
and other points had been excessively  
hot. Mr. Anderson and his companion  
intended to stay at the hotel day be-  
fore yesterday for the purpose of ex-  
amining the progress of the season's  
parts in the vicinity. The deputy min-  
ister will not return until September  
4th.

Str in Mining Properties.—There is  
a stir in mining properties along the  
Alberni canal, and the recent strike  
on the Happy John group is only one  
proof of the fact. Times in store for  
mining men in this part of the coast.  
The claim was bonded by Seattle and  
Tacoma people a year ago, who spent  
a great deal of money in developing  
the property, but they worked it for  
about twelve months and then threw  
it up. Frank Ross, the original own-  
ers, however, were not discouraged.  
They have been working again test the  
mine, and with the finding of a small  
shot revealed a magnificent vein of  
high-grade ore running 25 per cent  
in copper, besides carrying a good per-  
cent of silver. The vein is six feet  
in the ore vein is in sight.

British Visitor's Views.—Colonel La-  
yard, just returned from England, and  
now staying at the Balmoral hotel, says  
that feeling in the Old Country is be-  
ginning to turn against the present gov-  
ernment. It is felt that the Liberals al-  
ter being returned by the greatest ma-  
jority known for years have disappoint-  
ed their supporters almost ingloriously,  
considering the number of promises  
they have failed to fulfill. Nothing upon  
the subject of Mr. Chamberlain's illness,  
Colonel Layard, while considering it a  
very serious matter, firmly believes that  
the great statesman has already in-  
curred a permanent disability. The  
able followers to ensure the success-  
ful prosecution of his imperial plans. As  
for the army scheme, it appears that  
Mr. Hankey really is from one evening  
another, so that it can hardly be said  
to be achieving the triumph its promoter  
would desire for it.

A Narrow Escape.—John Murray,  
provincial timber officer, had a narrow  
escape during his recent tour of inspec-  
tion. Mr. Murray was logging a small  
cove in a small gasoline launch, and  
to an out-of-the-way sawmill near the  
mouth of the Skeena river, when he was  
caught in a heavy rainstorm, which put  
the launch in a perilous position. Mr.  
Murray at the time was traveling  
through a stretch of water called "The  
Slough." The tide was rushing fiercely  
through at the time, and suddenly round  
a bend in the slough a large col-  
lared log bearing down straight upon  
him. He took the oars and tried to pull  
but before he could get away the log  
struck the launch and stove in several  
places. The launch was in a perilous  
position and the men were in great dan-  
ger. Fortunately just at the time some Jap-  
anese were passing by, and they pulled  
the launch out of the slough.

## Hot Weather HEADACHES

Tablets, powders, drugs, of  
any kind will NOT cure  
headaches. Simply because  
they never reach the CAUSE  
of the headache.

What causes headaches? Poisoned  
blood, always.

If the bowels are constipated—

If the kidneys are weak—

If the millions of pores of the skin are  
not active—

There are bound to be headaches.

## Fruit-A-Tives

OR "FRUIT LIVER TABLETS"

cure headaches because they cure the  
cause of headaches. They do not drug  
the nerves. They go to the root of the  
trouble, invigorate and strengthen the  
liver and increase the flow of bile into  
the bowels, which cure constipation. Act  
directly on the kidneys, heat all kid
