THE JOINT TENANCY DODGE BY REAL ESTATE SPECULATORS IN GUELPH.

porality of Public Men-Trying to Hide Themselves Under Christopher Robinson's Coat-Tails.

We call the attention of the authorities o another audacious violation of the lottery laws by "The Guelph Opera House Company Trust." This lottery is the familiar old device of a few real estate speculators interesting letter from a friend in the Northpooling their property in trust "for such | west : disposed of in 100,000 shares at \$2 per to tell on my health, so I thought a summer share." The scheme is to obtain \$200,000 out here "roughing it" would build me up by the sale of tickets for property which again, and I have it rough enough for anythey generously offer to redeem from those thing. I am with Fawcett's surveying who may win it in the lottery at the price of \$104,000, thus leaving to the speculators are running the 8th base line from the 3rd of \$104,000, thus leaving to the speculators the tidy little sum of \$96,000 profit out of 100,000 ticket holders, 98,129 of whom must draw blanks and get nothing for their money. The prospectus candidly explains "tickets numbering from 1 to 100,000 to be placed in wheel No. 1; tickets representing allotments (1871 in number) to be placed in a local series of a mile west of the village, and second wheel No. 2. After such placing, quarter of a mile west of the village, and in three weeks we were in the centre of it, wheels to be revolved and a ticket to be withdraw, from each simultaneously; al lotmen, so drawn to go to the holder of but has a very deep swift current, and flows but has a very deep swift current, and flows but has a very deep swift current, and flows but has a very deep swift current, and flows but has a very deep swift current, and flows shar's number so drawn, drawing to continue uatil all the allotments are disposed of.

gamblers appeal in their prospectus (following the example of all similar swindles) to the "wealth and business and social standing" of the promoters "as a guarantee of the absolute fairness and seal and the standard of th ute fairness and equality of the diviall concerned." Just imagine joint ten-ants of property being unable to divide it amongst themselves without printing a prospectus assuring themselves of their own integrity!

We give the public the names of the accomplices in this specious fraud, as tollows:

Col. N. Higinbotham, ex - M. P. for North Wellington, and now registrar of the county, John Harris, ex mayor, G. A. Oxnard, and Ald. E. In circular, dated June 20, 1883 request. ing parties to act as agents for the sale of shares or tickets, E J McElderry, the secretary, informs the public "that in vi-w of the recent difficulties connected with the London and O tawa 1steries" the specu-'required to be convinced of its legality and seeds to say. Co, Gue'ph, Oat."
We are quite satisfied that Mr. Christopher Robinson. Q.C., will not thank these lottery sharpers for their puff, and that he never pronounced their lottery legal.

To say nothing of the absurdity of sending undivided shares in Guelph town lots by post in parcels of 10 and 25 at \$2 each" to agents to sell on commission, these verdant Guelph joint tenants imagine that

As the collapse of the Watford "joint

these Guelph mammon worshipers discretion, it only remains for the county crown

indicted before the next grand jury, in pursuance of the attorney-general's recent cirsuance of the attorney-general's recent cir-cular on the subject, and that the postoffice authorities confiscate all their mail matter.

A LETTER FROM LONDON.

THE INDIANS, THE LACROSSE PLAY ERS, AND THE BRITISHERS.

Libel Case—Canadian Lawyers in Eng-From an Occasional Correspondents

London, June 12, 1883. MY DEAR WORLD : I dare say your regular correspondent will keep you well posted on all matters in connection with the achievements of the Canadian lacrosse team, but there is one small matter to which I would like to direct your attention for a moment. It is this. I think it extremely unfortunate that a team of Indians accompanies the Canadian team. It is easy enough to understand why it was found necessary to bring the Indians along, but the fact of the matter is that English well-known principle of noscitur ex socus, and without troubling themselves they immediately jump at the conclusion that the Indians are Canadians, too! This, I say deliberately, after the many remarks made to your correspondent as to the composition of the two teams. It is to be hoped them. fore, that should any team visit England in the future it is highly essential that the redskins be left at home. All interest was centred on Big John, who in his costume was of far more importance to the majority of the spectators than the game itself. I am not in a position to judge exactly what impetus the visit has given to the game. Doubtless June 15 at Hurlingham will be a great day, as the Prince and Princess of Wales are to be present, and the match is marked in the Court Jour-

The weather on the whole has been extremely good for cricket. Most of the grounds are in run-getting order and some big scores have already been made. Special interest centres in the doings of Lancashire, which has already started on a brilliant season. After defeating Oxford it gained a brilliant victory over Kent and followed this up by inflicting a nine wicket defeat on Notts. To-day they began their annual Notts. To day they began their annual contest with the M.C.C. The match stands thus: M.C.C. 1st innings 151 and 47 for six wickets, Lancashire 1st innings 100. The M.C.C. were defeated by Norfolk by 152 runs, Yorkshire achieved a decesive vicruns. Yorkshire achieved a decesive victory over Kent by an innings and 131 runs, while Surrey easily defeated Middlesex at the Oval by ten wickets. Essex defeated Herts by an innings and 10 runs. Yorkshire and Sussex is now in progress; Sussex has made 182 in the first innings, while Yorkshire has only made 95 in its first attempt. West-minister school defeated the Lords and Commons (twelve aside) by 7 runs in the first innings. The annual inter-city match between Glasgow and Edinburgh ended in a victory for the former by an innings and 57 runs. This is the first time Glasgow has won in the history of the game. Warwick-

spell of weather was experienc d here to-day to be expected, the court announced that it would take time to consider its judgment. No case has come before the court since the Tichborne case, ten years ago, that has attracted so much public attention and been watched so eagerly. The case has already been tried, and after a trial which lasted forty-three days, during which time eighty-two witnesses were called for the plaintiff and sixty-one for the defence, the jury found a verdict for the plaintiff and awarded him £5000 damages. The particular com-plaint, as Mr. Belt alleged, was that he was fourly libelled and held up to ridicule and contumely as a statute jobber and broker of other men's sculpture. The defendant now seeks to set the verdict aside on the ground of misdirection, contending that the mind of the jury was not directed to the

real issue.

A case in which you are particularly interested is that involving the possession of the Mercer estate. The heading is At-torney-general versus O'Reilly, and the case is likely to come for argument before the privy council in the course of a fortnight or three weeks. I understand that Attorney-General Mowat has come over especially to argue the question on behalf of the province of Ontario, and I believe is to be assisted by Mr. Cattanach, who is also across here on business in connection with the Canada Southern railway and London International bridge company. Mr. Crooks, Q C., is in town, as also the Hon. A. N. Richards, exlieutenaat-governor of British Columbia.
