

SPORTING NOTES.

The Hamilton races have been fixed for June 3 and 4.

The Beaver ball players of Guelph have elected James Taylor captain.

The hounds meet at Eglington, Yonge street, at 3.30 this afternoon.

The Winnipeg rowing club will rebuild a boat house. The old one was carried away.

John Forbes pays \$250 a year for a farm at Woodstock to pasture his horses.

A cricket club is being organized at Timbuctoo, and a bicycle club will also be formed there shortly.

The Wanderers' bicycle club will make a short run this afternoon, the meeting being at the club rooms at 3.15 o'clock.

Chalk football club defeated Ayr 6 to 0 on Saturday, and the return match will be played at Ayr on May 17.

The bicycle fever has struck Ayr. Two machines already and more to follow. Five promises of a club being started shortly.

Webster and McBride of Toronto bicycle club will make a run on their machines from Woodstock to Goderich next week.

A minor lacrosse club has been formed at Alliston and will tackle anything its size in the province. John Hall is secretary.

H. D. Baker undertook to trot his colt John Scott under saddle at Hamilton Thursday, but didn't do it. The best time in two heats was 3.36.

Arrangements are being made to have a tug of war between a pick team from Woodstock and Ingersoll on May 24, also between a team from Zorra and the London pick-teams.

A New York pugilist named Hughes, otherwise known as the "dangerous blacksmith," was knocked out in four rounds near Frey by Steve Williams, a negro of giant strength.

Fourteen pike, fifty-six speckled trout and four dozen sun fish were caught by a party of anglers in the Thames Thursday. So at least says a local "Titer," and it claims to be a truthful paper.

Fish are scarce in the upper reaches of the Thames river because there is an heavy draught station and sections injured last week. The mare is getting round under careful treatment.

Fish are scarce in the upper reaches of the Thames river because there is an heavy draught station and sections injured last week. The mare is getting round under careful treatment.

The Oakville Independent lamented the lack of athletic sports in that place, and to inspire the young men in the course of a half column editorial. Green, in her days of glory, was pre-eminently a nation of athletic sports, and it is noticeable that her decline in power and the falling away of such sports was coincident.

Hamilton Townsend, a member of the Wanderers' club of this city, called for England early this week. He is intended to spend some five months touring on his bicycle throughout England and France.

He will also represent Canada and the Wanderers at the annual meet of the English wheel association.

Incidents of the Week.

No trainers of several of the men were asked what they gave them to eat. All united in saying that they had whatever they wished, and at any time. There was no regular time for eating. It simply depended on the amount of work they did. If they were going fast they ate more, in order to make up for the greater waste of tissue.

A delegation from the Middlesex Scotch society called on Normans Wednesday and presented their fellow-countrymen with a handsome basket of flowers. Normans responded by making several fast laps to show that he was in good trim.

Vint drinks large quantities of liquid. He is like a steam boiler, which needs a steady flow of water but is very saving of fuel.

Herby makes six miles an hour and three miles the next hour.

The trainers of Burill, the colored man, said they believed that Burill had earned the prize money for getting fed. They had never seen a man eat so much. Yesterday he had put away several dozen oysters, custards, eggs, and other delicacies, and had no possible show, his trainers declined to simply eat as cooks, so they quarrelled with him, and he stopped out. They said they would back him to eat more than any one on the track.

Rowell's assistant, who he has a schedule laid out, but they decline to show it. They admit, however, that he has kept up to it all along. They also say that he won't day, physically, was Monday, and that he is improving daily.

Nitaweg Ebow is conspicuous by his absence. He comes forth from his seclusion, jog around a lap or two, and then retires. A glimpse into his hat showed him sitting on his couch smoking a big cigar. He said that he was going to stay in the day pile up 100 miles. He has no desire of making a record, but he desires to get an insight into walking matches for future use.

The seventy-two-hour score in the highest record race, that of March, 1882, was as follows: Rowel 353, Hazel 342, Hughes 231, Sullivan 314, Fitzgerald 313, Hart 213 and Normans 234.

Catarrah—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for catarrah. Out of 2000 patients treated during the past six months, fully ninety per cent have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of the patients presenting themselves to the regular practitioner are benefited, while the patient medicines and other advertised cures never cure a case at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the catarrah is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure catarrah in this manner, and other treatment has ever cured catarrah. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, Canada, and enclose stamp for their treatise on catarrah—Montreal Star.

Treat to Color Pickles.

From the New York Sun.

Five barrels of popular pickles analyzed by Dr. Walter, chemist of the health department, have been found to contain an injurious quantity of copper salts. The attention of the firm from whom the samples were obtained will be called to this fact. The copper is used in coloring the pickles.

THE BUSINESS WORLD.

TORONTO, Friday, May 2.

Stirling exchange in New York remains unchanged.

A cable to Cox & Co. quotes Hudson Bay at 234, and Northwest Land at 538.

New York stocks were severely raided, Western Union and Union Pacific being the chief sufferers, the former dropping from 64 1/2 to 62 1/2, and the latter from 63 1/2 (yesterday) to 60 1/2 today, closing 60 1/2. The majority of stocks sympathized, but Northern Pacific was strong as an exception, preferred selling up to 62, the highest point of this year.

Chicago was weaker all round, everything closing lower.

Remittances during the week were somewhat variable, but on the whole a decided improvement was noted.

New York Stocks.

CLOSING PRICES.—Canada Southern 45 1/2, Canadian Pacific 47 1/2, Denver and Rio Grande 12 1/2, Lake Shore 9 1/2, Lake Erie 9 1/2, Erie & Niagara 10 1/2, New York Central 11 1/2, Northern Pacific 62 1/2, Union Pacific 60 1/2, Western Union 64 1/2, St. Paul & Northern Pacific 52 1/2, St. Paul & Manitoba 51 1/2, Union Pacific 50 1/2, Western Union 49 1/2, Washburn 48 1/2, Washburn 47 1/2.

Toronto Stock Exchange.

MOCKING SALES.—Merchants 104 at 110 1/2, Commercial 20 at 122 1/2, Imperial 20 at 125 1/2, Standard 16 at 114 1/2, Consumers Gas 1 at 123 1/2, 20 at 120 1/2, Consumers Gas 12 buyers, sales 10 at 122 1/2.

Montreal Stock Exchange.

CLOSING PRICES.—Montreal 167 1/2 to 171 1/2; sales 15 at 168 1/2, 10 at 171 1/2, 10 at 173 1/2, 10 at 175 1/2, 10 at 177 1/2, 10 at 179 1/2, 10 at 181 1/2, 10 at 183 1/2, 10 at 185 1/2, 10 at 187 1/2, 935 1/2, 10 at 937 1/2, 10 at 939 1/2, 10 at 941 1/2, 10 at 943 1/2, 10 at 945 1/2, 10 at 947 1/2, 10 at 949 1/2, 10 at 951 1/2, 10 at 953 1/2, 10 at 955 1/2, 10 at 957 1/2, 10 at 959 1/2, 10 at 961 1/2, 10 at 963 1/2, 10 at 965 1/2, 10 at 967 1/2, 10 at 969 1/2, 10 at 971 1/2, 10 at 973 1/2, 10 at 975 1/2, 10 at 977 1/2, 10 at 979 1/2, 10 at 981 1/2, 10 at 983 1/2, 10 at 985 1/2, 10 at 987 1/2, 10 at 989 1/2, 10 at 991 1/2, 10 at 993 1/2, 10 at 995 1/2, 10 at 997 1/2, 10 at 999 1/2.

Local Markets.

THE FARMERS' MARKET.—The receipts of live and dressed stock today were an unusually large one. A load of geese what sold at 80c, and a lot of ducks at 75c, spring at 10c to 11c. Barley nominally unchanged at 6c to 7c according to quality. A load of oats sold at 4c. Hay for summer at 12c to 13c, and for winter at 14c to 15c. Hay in fair supply and easier at about thirty loads at 8c to 9c for clover and at 10c to 11c for timothy. Straw with sales of three loads at 7c to 8c. Hops sold at 8c to 9c. Apples sold at 10c to 11c for quality. Best firm at 12c to 13c, inferior at 11c to 12c. Potatoes at 10c to 11c. Carrots at 10c to 11c. Turnips at 10c to 11c. Onions at 10c to 11c. Cabbages at 10c to 11c. Lettuce at 10c to 11c. Cucumber at 10c to 11c. Eggplant at 10c to 11c. Tomato at 10c to 11c. Peas at 10c to 11c. Beans at 10c to 11c. Corn at 10c to 11c. Wheat at 10c to 11c. Rye at 10c to 11c. Oats at 10c to 11c. Barley at 10c to 11c. Hay at 10c to 11c. Straw at 10c to 11c. Hops at 10c to 11c. Apples at 10c to 11c. Potatoes at 10c to 11c. Carrots at 10c to 11c. Turnips at 10c to 11c. Onions at 10c to 11c. Cabbages at 10c to 11c. Lettuce at 10c to 11c. Cucumber at 10c to 11c. Eggplant at 10c to 11c. Tomato at 10c to 11c. Peas at 10c to 11c.
