THE MONEY MARKET.

Call loans in the local money market are quoted at 4 per cent. on bonds and debentures and 4½ and 5 on stocks; commercial paper, at 6 and 7 per cent., and loans on real estate at 6 and 6½ per cent.

Montreal rates are 7 and 8 per cent. on commercial paper and 3 and 5½ per cent. on call loans.

The Bank of England rate is 4 per cent.

In the London open money market rates are stiff at 3⅜ to 3⅝ for 60 to 90 bills of discount.

The demand for gold for South American account has caused a further drain on the resources of the Bank of England, and the proportion of reserves to liabilities, which last week was 42.07 per cent., is down to 41.38 per cent. During the week, however, the bank increased £234,000 in bullion.

The weekly statement of the Bank of France shows a decrease of 8,150,000 francs gold.

Call money in New York to-day is quoted at 2 and 2½ per cent.

Bradstreet's says of the New York money market:

"A firmer feeling in rates for commercial discounts in New York and a slightly increased scarcity of time loans mark the continued flow of money to the west, though the attitude of the Treasury prevents any manifestations of stringency. The rates for call loans, indeed, show greater ease, and on the New York Stock Exchange bankers' balances loaned on calls throughout the week at 1½ and 2 per cent., though institutions and banks generally succeeded in maintaining the 2 per cent. rate on call loans. The position of time loans has not materially changed, though the amounts offering in this way are quite limited and restricted to certain classes of lenders. Six months' loans are quoted at 4½ and 5 per cent. Commercial paper is firmer. The amount offering is not large, but city banks are not buying paper to any extent. Best names and indorsed bills receivable may be quoted at 4½ and 5 per cent., and single names and western paper at 5½ and 6 per cent. There is, however, a fair demand for paper from outside lenders."

A SHARP BREAK PREVENTED.

Chandler, Brown & Co., Chicago, telegraph to Robt. Cochran as follows:

CHICAGO, Oct. 1.—Hutchinson and numerous brokers supposed to represent the "big four" were heavy sellers of wheat during the greater part of the session, but their offerings were quickly absorbed by outstanding shorts, who fear a repetition of the September deal. The weakest feature in to-day's market was the heavy buying for outside account. This, and the demand from shorts, prevented a sharp break under enormous offerings of long wheat by those who have been most prominent on the long side during late advances. Curb 6¼.

ACTIVE AND UNSETTLED.

CHICAGO, Oct. 1.—The wheat market to-day was again very active and greatly unsettled, more so than during the closing days of last week, and a nervous, feverish feeling prevailed. Fluctuations in prices were unusually rapid, and small advances of ¼c between trades, and also declines of ¼ and 1½ between trades occurred during the session. Prices were advanced some ¼ and ⅛c above the closing price of Saturday, closing about 2c higher for October, 3½c for December, and 3½c higher for May than the closing figures of Saturday. The opening was unsettled and ½ to 1¼c higher, but the advance was met by very large offerings. The operator alleged to have control of the market was credited with selling two million bushels for future delivery, but this only appeared to check the advance, for the demand was very active, and when this large lot was absorbed the market started up 1c at a jump. Developments to-day would indicate, and it is quite generally believed, that some parties who have been selling short of late have come to the conclusion that it is better to cover, and the demand was largely from this source. Two failures were announced which helped to unsettle affairs. At the early advance of wheat December touched $1.08, there was a halt in the advance and a reaction set in, prices dropping off 3 to 4 between trades, and but few seconds elapsed in the decline from $1.07 to $1.05½. Later the market ruled more quiet, advancing some and closed steady. A fairly active trade was witnessed in corn, and fluctuations were within a higher range of prices. Oats were higher and provisions active.

THE WHEAT CROP OF 1888.

The area of the British wheat crop is 2,963,436 acres, and the output is estimated to be 25 bushels per acre.

Europe, according to early estimates, will have a wheat crop of 1,069,112,000, against one of 1,236,442,000 in 1887.

The London Economist estimates the deficiency in the world's wheat crop of 1888 at 168,000,000 bushels.

The French wheat crop is officially estimated at 7 per cent. deficient, but threshings indicate a deficiency of 25 per cent. The estimated requirement of foreign wheat for 1888-89 is 69,000,000 bushels.

PUBLISHING THE WICKED.

Sentences in the Cases of Thirteen of the Convicted.

Judges McDougall and Morgan occupied the bench in the Court of General Sessions yesterday morning, when prisoner after prisoner who had been convicted at this sittings was arraigned for sentence. James Doyle, who had shot a fellow resident in Brown's lane, was only sentenced to a month in jail, mainly because he had great provocation. Robert Allister growled about not getting a fair trial when given a year in the Central for assaulting a policeman on Don Flats. John McGuire, who broke a bottle over a policeman's head, got three months in the Central.

For stealing a piano Benjamin McCance, who had entered upon a systematic series of crime, got 5 years in Kingston, while his brother Thomas goes to the Central for 18 months for horse-stealing, Judge McDougall remarking that he had less brains than the other; Thomas wanted to go to the Central. Samuel Pearsall, their accomplice in the piano larceny, goes to the Central for 2 months.

Edward Cant was sent to the Central for 3 months for stealing from his employers, Strathern & Co., and Wm. H. Foley, his accomplice, got one month in jail.

The notorious Bill Orford, who, although he has considerable property, persists in drinking whiskey, and who has been convicted 27 times, 24 of which were for drunkenness, was given a 6 months' term in the Central for having maliciously smashed a $100 plate glass front in Ald. Fleming's office. Alex. Robertson goes to the Central for three months for larceny.

John Lynden, the striking plumber, convicted of "following in a disorderly manner" some of the imported plumbers, was fined $50, which Presidents Daniel Glynn of the Journeymen Plumbers' Union paid at once. John Humphrey, convicted of fraudulent appropriation of goods, was remanded for sentence.

Crown Attorney Badgerow is proud of the fact that out of 17 cases sent to the Grand Jury there were 13 convictions, and only two acquittals, while the jury disagreed in two cases.

W. Millichamp, Sons & Co., mantel manufacturers, wish to state that in order to avoid any disappointment in getting mantels in time, builders would do well to have their orders placed at once, and thereby avoid the rush that as a natural consequence must occur before the very large number of orders now on their books can be filled. VAN WORMER'S AFFAIRS.

Application to Commit the Debtor—What Became of $98,600?

Before Chancellor Boyd yesterday A. H. Creelman and H. H. Macrae made a strong argument to commit C. D. Van Wormer, of Weekly Payment stores and Grand Pacific Hotel fame, for contempt of Court for not answering certain questions. The application was made at the instance of T. G. Foster & Co., creditors to the amount of $6000, for furniture supplied to the hotel. Van Wormer was examined before John Bruce, Special Examiner, and the astonishing statement is alleged to have been proved that between the months of November and February $90,000 worth of assets disappeared. At the time of the Central Bank failure Van Wormer claimed a surplus of $48,000, but at the failure there was a deficit of over $50,000. At the examination these amounts could not be satisfactorily accounted for, and on account of the density of the defendant's answers the present motion to commit was made. Both Van Wormer and some of his creditors were in court. Walter Barwick appeared for the defendant. The Chancellor reserved judgment.

Watered Milk.

The charges against six local dairymen of adulterating their milk by watering it were disposed of by the Police Magistrate yesterday. They were all discharged except Albert Caddle, who did not answer to his name, and was fined $50 and costs or 30 days. The ground of their discharge was their assertion that they did not water the milk, but sold it as received from the farmers and wholesale dealers. It was suggested that Inspector Awde should visit the Union Station and inspect the milk as it arrives by train.

Among the military men present were Col. Allen, Col. Dawson, Capt. Mason, Chief of Police Grasett, and Adjutant McLean.

Dyspepsia or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also, being the principal cause of Headache, Parmelee's Vegetable Pills taken before going to bed, for a while, never fail to give relief and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes:—"Parmelee's Pills are taking the lead against ten other makes which I have in stock."

At the Police Court.

There were no less than 105 cases before the Police Magistrate yesterday, 31 of which were "drunks and disorderlies." Thomas Cowan, a fighting drunk, tore Policeman Loughead's tunic into tatters and was fined $10 and costs or 40 days. Joseph McEvoy was fined $4 for attempting to rescue a prisoner. William McGuire, for larceny of cigars from Messrs. Adams & Burns, was sent to prison for 10 days; James Douglass, for theft of newspapers, three days; Frank Kelly, theft of a barrow and sack of flour, 30 days. Wm. Hogan, charged with feloniously wounding William George of "G" Company, School of Infantry, was remanded till to-day.

BREAKFAST.
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
