What Does It Mean?

Dr. Hamilton Gives a Full and
Satisfactory Explanation.
Look at your tongue!
Sometimes it's heavily coated sometimes
it's clear and red.
Study this out and you'll find some inter-
ference with the functional activity of the
body.
This means the bowels are not regular,
the liver is sluggish and the blood is contam-
inated.
Strong cathartic pills act so destructively
on the intestines as to provoke deadly sick-
ness; this often frightens people from tak-
ing medicine when they need it.
To the multitude of dangerous purgatives
now on the market, Dr. Hamilton's Pills
are a notable exception, they neither gripe,
cause sickly feeling or headache, yet they
cleanse and purify the entire system in such
mildness and certainty. Giving proper
stimulus to the liver and kidneys, strength-
ning the stomach and lending valuable aid
to digestion, it's small wonder that such
marvelous results accompany Dr. Hamil-
ton's Pills.
Mr. Geo. O'Hegarty of Amherst, N. S.,
writes: "Last winter I worked in a lumber
camp and neglected my health. I was
dreadfully constipated and had a headache
that rarely made me reel at times. I was
sick and miserable, and hadn't the slightest
ambition to work or stir around. I felt
heavy and dull and had a bad taste in my
mouth. I sent into the city for Dr. Hamil-
ton's Pills, which I knew were good for my
condition. They fixed me up very quickly
and have kept me in good condition ever
since. There are other men in the camp
that use Dr. Hamilton's Pills also. They
say they wouldn't be without the pills for
ten times the price."
Every dealer in the land sells Dr. Hamil-
ton's Pills—25c per box or five boxes for
\$1.00. By mail from N. C. Peltor & Co.,

DEAD MAN COMES TO LIFE

Regains Consciousness Just as Under-
taker Gets Busy.
Laper, Mich., June 7.—"Here, what is
all this about?" asked Patrick Gleason, as
he watched an undertaker busily engaged
in preparations to lay him out.
Patrick Gleason died on Monday, and
yesterday was pronounced dead by a phy-
sician. The authorities of the church were
consulted as to the mode of burial, and the
undertaker was preparing to embalm him
when he woke up.
An order was made today committing
him to an asylum, but his nephew arrived
from Brown City and says he will take him
to his home and look after him. Gleason
is well-to-do. He has been deranged for
some time.

LITTLE BELL BIOGRAPHIES
Schumann
ROBERT SCHUMANN, born at Zwickau, 1810, died near Bonn,
1856, was celebrated as a composer and as a critic of music.
He might have become a pianist of the highest order had he not
crippled the third finger of his right hand in an attempt to make it
stronger and more facile by some mechanical device. This accident
proves that there is no short cut to this end; it is reached only by per-
sistent finger exercises in the hard old modern way at the keyboard.
If Schumann could not become a great pianist, he did become a
great composer. Although he wrote an opera, choral and orchestral
works, he will, like Schubert, retain a high place in the musical world
by his songs, pianoforte pieces and other short compositions. His
style is very striking and original. And all his songs and pianoforte
pieces are of the highest excellence and beauty. There is not even
among Schubert's vast collection any more perfect song than Schumann's
"Ich Grolle Nicht" (I Do Not Complain). And for a pianoforte
piece, strictly such, there is not in the realm of music anything so
ravishing and haunting as his sensuous "Träumerei" (Dreaming).
Schumann's pianoforte works have this virtue also—they are
indispensable to the teacher and the student. To the young player
Schumann had said—"Make Bach your Daily Bread," to which we
add,
The Bell Piano
With this perfect instrument to study and express the thought and style
of Bach and Schumann, the young pianist is well on the way to become a
virtuoso.

W. C. T. U.

We wonder, we W. C. T. U. s, at the
slow progress of temperance sentiment, but
sometimes it is well to look in, as well as
out; down, as well as up. We are Chris-
tian women, and just in the line of our
cherished work, we have a department—
that of hygiene and heredity—that goes
right down to "rock bottom," if you will
permit the expression. Have we worked
this as we should? How many of our
women are taking hold of it with a con-
viction that it lies at the very foundation
of all the other departments; How many
mothers and grandmothers are earnestly
looking into these things for the sake of
their own and other people's children? How
many children are being brought up on
cakes and pickles, and sauces and tea, and
too much meat, so that the animal is being
stimulated at the expense of the higher
nature? Then bye and bye, we have to do
"mission work," and "rescue work," and
all sorts of reform work, because we are,
as "Don," of "Saturday Night" used to
say, chiefly interested in "suppressing
something." Instead of turning a deaf ear
to that terrible inheritance of ours, that
God has been sounding down the ages, let
us seek to know what we can do, in the
light of this twentieth century of the Chris-
tian era, that so many children may not
come into temporal and eternal loss, be-
cause of our criminal indifference.
If I may, I would like, in another issue,
to suggest some helps for young mothers.

The readers of this paper will be pleased
to learn that there is at least one dreaded
disease that science has been able to cure in
all its stages, and that is Catarrh. Hall's
Catarrh Cure is the only positive cure now
known to the medical fraternity. Catarrh
being a constitutional disease, requires a con-
stitutional treatment. Hall's Catarrh Cure
is taken internally, acting directly upon the
blood and mucous surfaces of the system,
thereby destroying the foundation of the
disease, and giving the patient strength by
building up the constitution and assisting
nature in doing its work. The proprietors
have so much faith in its curative powers
that they offer One Hundred Dollars for
any case that it fails to cure. Send for list
of testimonials.
