I do not say my College is "Better than the Best," the

## THE GREAT MODERN REMEDY

can do for them. To heal the sick we must destroy the  
cause; to do this the remedy must be an Anti-Septic, and  
destroy the living disease germs in the blood by actually  
coming in contact with them. Any other method of cure is  
a humbug. No Electricity. "Health without Medicine"  
which contains nothing but the advice to use hot water  
enemas or other remedies with no anti-septic qualities will  
do this. "The reader should do his own thinking and care-  
ful investigating and not let others do it for him, else they  
will soon profit by his ignorance."

## IMPORTANT TO MINISTERS.

JUST PUBLISHED,

FORMS OF SERVICE FOR SPECIAL OCCASIONS

In the Presbyterian Church.

BY REV. DUNCAN MORRISON, D.D.

OPINIONS OF THE PRESS.

The accomplished compiler of this most serviceable hand  
book has no intention of inducing the sturdy Presbyterians  
of Canada to become even modified ritualists. His purpose  
is to provide suggestive forms for all special occasions, so  
that hesitancy, inaccuracy and all that is inappropriate and  
unseemly may be guarded against.—The Globe.

It will be specially helpful to those of their number who  
have but recently undertaken the grave responsibilities of  
their sacred office. Dr. Morrison has done his work with  
great care, well balanced judgment, good taste and fine  
devotional feeling.—The Empire.

We have seen a number of Books of Forms—Dr. Hodge's  
among the rest—but there are none so likely to be useful to  
our young ministers as this work of Dr. Morrison's.—Pre-  
sbyterian Witness.

The book contains twenty-three forms for almost all possible  
occasions of public service and church organization. Its value  
and usefulness will be apparent to every one who examines it.

## PEARLINE

is a great

## Blessing

to the Woman,  
mistress or servant, who  
wants to keep things

clean. It washes clothes,  
dishes, glassware; cleans  
paint, varnish, carpets, oil-

cloth, floors, better than anything  
known, that is harmless to fabric or  
hands. It makes a saving of clothes

and time that pays. Think of the guar-  
antee we give you of its merits. Fifteen  
millions of packages are consumed annu-

ally. Think of your clothes and hands  
after a day of rubbing the dirt out on a  
washboard. (Pearline does away with that.) Think of

the ease of washing clothes by the modern labor-saving  
method, which you will find on every package of Pearline.

Think of the perfect cleanliness insured by the use of  
Pearline and you'll surely become a friend to Pearline.

Certainly Pearline will be a true friend to you if you'll  
let it. Beware of the many imitations sold by means of  
prizes or peddling. There is only one Pearline and that

is manufactured only by JAMES PYLE, New York. Sold

## HOUSEHOLD HINTS.

APPLE FILLING.—Two grated apples, one  
egg, one lemon (rind and juice), one cupful  
of sugar; scald all together; when cool put  
between the cake, and cover the top with  
whipped cream flavoured with lemon and  
slightly sweetened.

CELERY A LA CREME.—Cut the celery in  
pieces, and boil till tender; stir a little cream  
over the fire with the yolks of two eggs, and  
when well mixed, lay the celery in this with  
salt, white pepper, a very little mace, some  
grated lemon peel, and shake it all over the fire  
till hot; it must not boil.

ALMOND taffy is the latest "sweet." Boil  
together half a pint of water and a pound  
of brown sugar for ten minutes; blanch and  
slice through the middle one and one-half  
ounces of almonds; stir them in the syrup  
with two ounces of butter; let it boil hard for  
ten minutes; pour on a well buttered dish to  
the thickness of half an inch.

STEWED BEEF.—Two pounds of round  
steak, cut in small pieces, salt and pepper.  
Simmer slowly until tender. Add one tea-  
spoonful of curry powder, one tablespoonful  
of butter and dumplings made by the follow-  
ing recipe: One pint of flour, two tea-  
spoonfuls of baking powder, one of salt, and  
milk enough to make a stiff batter. Drop  
from the end of the spoon and boil ten min-  
utes without stirring. Arrange nicely on the  
outside of a large platter and pour the stew in  
the centre.

PUDDINGS.—The eggs used in puddings  
ought to be thoroughly whisked or beaten,  
and then mixed gradually with the milk or  
other fluid ingredients, these being cold. The  
milk should be perfectly fresh or it will be  
apt to curdle in cooking. Currants should be  
well washed and picked, and the raisins care-  
fully seeded. Rice and similar farinaceous  
substances are usually the better for being  
boiled till at least half-cooked before being  
mixed in the pudding. Almonds should be  
blanched, and in some cases reduced to a paste,  
by pounding in a mortar. Where baking  
powder or carbonate of soda is used (which  
in some puddings supply the place of eggs), it  
should be intimately mixed with the flour and  
other dry materials before adding to the fluid  
ingredients.

A GOOD TEA-MIXTURE.—Scald the tea-  
pot, put into it tea, in the proportion of one  
teaspoonful for each person. Pour on this  
about a cupful of freshly-boiled and boiling  
water. Let this stand about three minutes  
either on the back of the stove, the hearth or  
on the table under a warm "cosy." Add  
more boiling water, about a cupful for each  
spoonful of tea, let this stand for about one  
minute longer and then serve. Never boil the  
tea and never use any but boiling water to  
make it. Following these directions exactly,  
a satisfactory result will surely be obtained,  
provided one uses a good brand of tea. Cheap  
tea is an abomination. An excellent mixture  
enjoyed by all who have used it is the follow-  
ing: Half-pound Oolong, quarter pound Sou-  
chong, three ounces Young Hyson, one ounce  
Orange Pekoe. This compound, known by  
the friends of the family in which it originated  
as "the T mixture, seldom fails to please. Any  
grocer will put it up, and the "prescription"  
once used is rarely abandoned.
