## RENEW YOUR LIFE POLICY.

It matters not whether times are good or bad, whether you are in debt or out of debt, whether you are sick or well, you should always set the renewing of your life policy before you as a duty that must be done no matter what comes or goes, for when times are good you can pay your premiums easily, when times are bad your insurance is of great importance; when you are in debt you need your insurance to guarantee the payment of your debt, when out of debt you need it to protect those who are, or may be dependent upon you; when you are sick you are in imminent danger and could not get insurance; when you are well you need it because you have no guarantee of either health or life so that you need the protection of insurance at all times and under all circumstances.
