The Young Men's Christian Association Convention of the Maritime Provinces at Amherst was an earnest and successful one. Among the subjects discussed was the sphere of action of Associations regarding which the following resolutions was adopted:

"Whereas, The special object for which the Y. M. C. A. has been organized, is the promotion of the physical, mental, social and spiritual welfare of young men: and

Whereas, Experience proves that a great many difficulties and objections are removed by confining ourselves to this definite work; be it

"Resolved, That mixed meetings are not the legitimate work of these organizations."

Useful as the Y. M. C. A. has been in the past there is no doubt that by concentrating their energies upon this one point they will be still more successful in the future. Young men have special temptations. Young men can sympathize with and help young men better than any others, and where the Christian young men of a community set themselves prayerfully and perseveringly to this one thing, helping and saving their fellow young men a double blessing will follow. The laborers will find it one of the richest means of blessing to themselves and many of those for whom they seek will be won.
