Evangelical Association.

FROM *The Evangelical Messenger*, the organ of this Society, we derive the following interesting statistics:

Whole number of missions, 542; increase in four years, 115.

Whole number of missionaries, 552; increase in four years, 132.

Total membership on these missions, 46,531; net increase in four years, 10,764.

Compare these figures with our general statistics:

Itinerant preachers, 1,123; missionaries, 542. Thus nearly one-half of our preachers are missionaries.

Increase in the number of preachers in four years, 70; increase in the number of missionaries, 115. In other words, the growth of our missionary force has been about 60 per cent. greater than that of our regular pastoral force.

Total membership of the Evangelical Association, 138,668.

Total membership of our missions, 46,531.

That is to say, over one-third of the membership of our church is on mission fields. Four years ago the proportion was considerably less than one-third.

Total net increase in the membership of the church in four years, 18,437.

Total net increase in the membership of our missions, 10,764.

This means that five-ninths of our increase during the last four years has been gained in our mission fields. By so much more successful have we been in our mission work than in the regular work of the church.

But there was in hand £535 0s. 4d., contributions received for deficiency fund; so that net deficiency, 31st December, 1886, was £1,037 17s. 10d.
