Available with hose and spray, chrome or acrylic handles and decorator finishes. EUROFALL™ kitchen and bar faucets combine European styling with Waltec reliability.

Waltec Sinkware, Canada's largest producer of stainless steel sinks, offers a selection of more than 130 models for kitchen, bathroom, laundry or bar, as well as units for commercial, industrial and institutional applications. The company is recognized on world markets for the uncompromising quality and innovative design of its products and for its dependable customer service.

Waltec sinks are manufactured from 18-8 nickel bearing stainless steel that will not chip, crack, discolour or promote bacterial growth. Every sink is undercoated to prevent condensation and to deaden sound. Waltec products feature mirror-finished ledges, satin-finished bowls and integral drains to ensure easy cleaning.

The beautiful Waltec stainless steel sinks and vanities are stylish, easy to keep clean and enhance any decor.
