

- \* Make the conference over 3 days ie. Sunday. Conference is an awareness, needs to be advertized more so more women can participate. Kindly tell women how they can become members of Match International without donation. Specific topic be given for discussion within groups or strategies for moving forward.
- \* Adjust air conditioning please.
- \* Very unusual combination of presenters - good job. Lunch time entertainment was excellent.
- \* On the whole very good. The idea for having it now in the summer was good.
- \* Conference was very informative.
- \* This is the first women (sic) conference i attened (sic). So i didn't really have any expectations. I am vere (sic) happy though, to see what women can accomplish across countries together. I do hope it will grow and that big changes to the better will happend (sic) in the future.
- \* More time could be spent on addressing women's (sic) issues right here at home rather than focusing on the south.
- \* It should be done regularly every year, if that's possible. Could we have copies of the results of the conference?
- \* Could be more specific in terms of developing strategies for change - both locally & internationally; needs follow-up. Great to meet with individuals who are empathetic/active in W.I.D.
- \* Very well arranged - delicious food - and lots of it. Opportunities for networking during breaks. Maybe have a small informal-type groups - introduce ourselves so that we may feel more comfortable in presenting issues later. "Workshop atmosphere" circle group. I could have been more prepared if I had known to preread documents in handout for next days agenda.
- \* I look forward to the next one. Would be nice to have a more formal opportunity to meet fellow attendees, ie. small groups with introductions. It would help "break the ice & open the door for further meetings/introductions.
- \* Should have been more widely publicized, and media coverage should have been demanded (other than CJSR?). Networking/follow-up should be encouraged - i.e. distribute sign-up sheet for all to sign so we can keep in touch and aware of future strategies & events & activities.
- \* Thank you for providing the economically challenged access to such a conference - \$5 was a great deal considering the excellent quality of the conference, the wonderful refreshments, reception & lunch. I enjoyed the majority of the speakers and opportunity to discuss/participate/share. PS. The entertainment was excellent too (relavent (sic) & empowering).
- \* The food was great! I liked the group work, the conference was well paced - and the speakers were really good.
- \* Thanks for the opportunity to hear about 1) women, 2) International issues, local issues. Wonderful music. Would like to meet again for a longer confrence (sic) & to focus on action we can take here in Canada, Alberta, Edmonton & rural areas.
- \* Better room with good seating arrangements.
- \* Great organization, great speakers, great food! Packages used a lot of paper - could some of the booklets be optional? Could you keep participants informed about future conferences? Also offer contact names/specifics of how to get involved in organizations. Thank you!
