- Budget, 2267. Reviewing the year's operations in terms of business improvement; evidence of business recovery written incontrovertibly in recorded facts of our industry and trade; index of physical volume of business prepared by Dominion Bureau of Statistics; other indices of general business recovery in Canada, 2267: increasing activity in financial transactions, sales of electrical energy, increase in movement of railway revenue freight and increases in productive activity in individual industries; compilation of latest earnings of seventy-nine important companies showing profits; effect of expansion in private business on absorption of unemployment; increase in employment figures and movement of commodity prices, 2268; recognition by the government of importance of securing a rise in the world level of commodity prices; the world monetary and economic conference in 1933; proposal to set up a central bank; severing the chain binding us to gold standard currencies in 1931 by order in council

Rhodes, Hon. E. N.—Con.**Budget—Con.**

prohibiting export of gold from Canada; fluctuation of the Canadian dollar between the United States dollar and the English pound sterling; misunderstandings persisting in the highly technical matters of money and exchange, 2269; efforts of the government to foster a rise in commodity prices by every sound method possible; steps taken to promote a lowering of interest rates; burden of fixed charges caused by extravagant borrowing in war and post-war years; legislation designed to secure for the farmer a simplified debt structure; proportion of the direct and guaranteed debt of this country held by foreign investors in the form of bearer bonds; difficulty of even partially repudiating our external obligations, 2270; burden of our public debt not more than we can pay; splendid spirit of the Canadian people under the strains and sacrifices of the last five years; expediting the processes of business recovery and facilitating the economic trends that make for a lightening of interest charges; gradual lowering of interest rates; reduction in savings bank interest; success of flotation of London loan; improvement in the short-term money market, 2271; average rate of interest now paid on all our present direct indebtedness; strength of our investment markets shown in rise of bond prices, lowering of interest rates and new securities purchased by the public; world wide and universal character of recovery such as to suggest the automatic working of fundamental economic forces; difficulties to be overcome before a full measure of world prosperity can be restored; certain unfavourable political developments in Europe and the Far East remain a deterrent to constructive international cooperation, 2272; present economic trends in the direction of further progress; evidence of improving conditions to be found in statistics of external trade; statement of total trade of Canada for fiscal year with comparative figures; amount of excess of exports over imports and credit balance available for the settlement of international balances owing abroad; exports of non-
