SHERMAN MACHINES

Have always taken
the lead in their
line

FACE BORING MACHINE FOR JOINTED BORING

is our latest production. It does the work without extra cost, while the flooring strip is being run through the flooring machine. Get a machine and get ahead of the other fellow by putting jointed and bored flooring on the market before he does. Write for cuts and descriptions of our machines, also for list of users. We make the

SHERMAN END MATCHER
for end matching flooring strips and the
SHERMAN SIDE BORING MACHINES
for boring flooring strips.

The A. J. Burton Saw Co., Limited, Vancouver, B.C.

INCORPORATED 1904

AUTHORIZED CAPITAL, \$75,000, IN 750 SHARES OF \$100 EACH

A. J. BURTON, Managing Director.
HERBERT WILKINSON, Secretary-Treasurer.

BOARD OF DIRECTORS: ROBERT JARDINE, President; DR. E. SAWYER, Vice-President; E. W. McLEAN, HENRY PIM, A. J. BURTON.

BANKERS, Molsons Bank, Vancouver, B.C.: OFFICE AND WORKS, Corner of Powell Street and McLean Drive, Vancouver, B.C.

The company is offering stock to the public at par.

The company has purchased land, consisting of four lots, upon the corner of McLean Drive and Powell Street, Vancouver, B.C., facing Powell Street, and running back to the C.P.R. track, and with one side upon McLean Drive, (now opened up). The whole measuring 185 ft. by 132 ft.

Upon this a building has been erected, 85 ft. by 40 ft., two floors, with a tempering shop 26 ft. by 32 ft. one floor at one side.

A 50 h.p. motor and the main shafting and pulleys are already installed. A portion of the machinery has been ordered, including a milling machine for the inserted-teeth saws, a heavy parallel grinder for band saws, and the material for the tempering furnace.

The company is having its circular saw grinding machine built after the latest improved American model.

The stock already sold is more than sufficient to cover the cost of the land, buildings and the machinery and supplies now in hand and ordered.

Further stock is now offered for purchasing the further necessary plant and supplies, to complete the whole, and enable the company to execute the orders which are already promised to the company.

The inquiries already received from users of the company's manufactures ensures that the works will be fully occupied in executing orders, and sufficient land is owned by the company for extending the works when the needs demand it.

The company enjoys the advantages of cheaper fuel for the tempering furnaces, and oil for hardening, than can be obtained in Eastern Canada, and Messrs. Jessop, of Sheffield, have quoted the company the same prices for their steel delivered at Vancouver as at Toronto.

Applications for shares will be received by the Secretary, HERBERT WILKINSON at the company's offices, corner Powell Street and McLean Drive, Vancouver, British Columbia.
