

# The PRINTER,

---

**I**NTENDS with the support of his Friends and the Public ; to Print in the same Form as this Pamphlet, the Debates of Parliament, relative to this Province, as minuted in Mr. Woodfall's Diary ; the new Constitution as it may be enacted in the British Parliament, and all the Laws that shall hereafter be confirmed by the House of Assembly and the Council in this Province or Provinces.

This Work is meant to form useful volumes for the Rising Generation, similar to the Journals of the House of Lords and Commons, as published in England.

The Printer having Printed this for the general Satisfaction of the Public, at his own risk, hopes those friends who may be inclined to forward his future Plan, will preserve this, and give in their names, that he may estimate what number to print in future for general preservation.

Quebec, June 8th, 1791.
