

The Temple Cyclopædic Primers

Small volumes of condensed information introductory to great subjects, written by leading authorities both in England and abroad, adapted at once to the needs of the general public, and forming introductions to the special studies of scholars and students.

The aim of the publishers is to provide, in a convenient and accessible form, the information which the usual bulky and high-priced encyclopædias place beyond the easy reach of the average reader. The series will accordingly aim at the comprehensive inclusion of the chief departments of Literature, Science and Art, and it is fully hoped that ultimately the volumes will form a complete and trustworthy Primer Cyclopædia of modern knowledge.
