

HAMILTON HAPPENINGS

ENGINEER WAS KILLED TRYING TO BOARD TRAIN

Was on a Holiday—13th Regiment Holds First Parade of the Season.

HAMILTON, March 24.—(Special.)—George Crowe, an engineer on the T. H. and E., was killed about 5 o'clock this evening near the Hunter street station while trying to board a moving passenger train. He was off duty and was about to go on a week's trip. He had just left some friends and tried to jump on the Buffalo train. His foot slipped and he fell between the wheels, his body being badly mangled, almost beyond recognition. The deceased was about 45 years of age, and is survived by a widow and two children. The remains were taken to the Dodsworth morgue, where the coroner will open an inquest to-morrow.

Detective Sawyer, to-night, arrested Hilda Goodman on a charge of stealing some money and jewelry from her employer, William Grant.

W. Reid, Roslyn-avenue, Crown Point, was jolted off his wagon at the corner of Sherman-avenue and Ruth-street, to-night. He was taken to the City Hospital suffering from slight wounds on the head, and after they were dressed he was taken home.

William Dicker, a resident of this city for 37 years, died this afternoon at the residence of his son-in-law, Samuel A. Moore, 554 North John-street, aged 84 years.

Miss H. Curtis of Columbus, Ohio, delivered two addresses to-night in Knox Church schoolroom under the auspices of the Hamilton City Sunday School Association. Rev. D. H. Wing presided, and there was a large attendance.

The first parade of the season of the 13th Royal Regiment was held to-night, the strength being 504 of all ranks. Sergt. Armstrong was presented with a long service medal, and the prizes for the indoor shooting competition were distributed.

The Dental College hockey team, O. A. C. tug-of-war team, players of the Sutton West hockey team, Broadway Tabernacle Epworth League Old Folks' Concert, 1914 S. P. S. class, and a group picture of the T. Eaton Housefurnishings Department (fourteen years ago and again to-day), are a few of the illustrations in this week's Art Section of The Sunday World. Souvenir numbers can be obtained from any newsdealer.

VEGETARIANS ORGANIZE.

Quite a number of prominent local citizens of vegetarian inclination, at last night's meeting, considered the formation of a vegetarian society.

Dr. W. J. McCormack was elected temporary chairman. After a discussion upon the needs for an organization of dietetic reform, a committee was appointed to draft a scheme of organization as follows:—

Fred Wilson, Miss Eva M. Budd and Felix Belcher, with power to add to their number.

The committee will report at a general meeting to be held on Friday evening, April 7, 8 o'clock, at 351 Yonge-street.

Pimples Off In 5 Days

The New Calcium Sulphide Treatment Does Wonders to Every Kind of Skin Eruption.

Trials Package Sent Free to Prove It.

You don't want to wait forever and a day to get rid of your pimples or other skin eruptions. You want to get rid of them right now. Next time you want to go somewhere where you wouldn't like to have to take the pimples along.

You can get rid of them just in time by taking Stuart's Calcium Wafers.

These wonderful little wafers have cured bad boils in three days, and some of the worst cases of skin disease in a week.

They contain as their main ingredient the most thorough, quick and effective blood cleanser known, calcium sulphide.

Remember this, too, that most pimples treatments reek with poison. And they are miserably slow besides.

Stuart's Calcium Wafers have not a particle of poison in them. They are free from mercury, biting drugs or venomous opiates. This is absolutely guaranteed. They cannot do any harm, but they always do good—good that you can see in the mirror before your own eyes a few days after.

Don't be any longer humiliated by having a spotted face. Don't have strangers stare at you, allow your friends to be ashamed of you because of your face.

Your blood makes you what you are. The men and women who force ahead are those with pure blood and pure faces.

Stuart's Calcium Wafers will make you happy because your face will be a welcome sight not only to yourself when you look into the glass, but to everybody else who knows you and talks with you.

We want to prove to you that Stuart's Calcium Wafers are beyond doubt the best and quickest blood and skin purifier in the world—so we will send you a free sample as soon as we get your name and address. Send for it to-day, and then when you have tried the sample you will not rest contented until you have bought a 25c box at your drugist's.

Send us your name and address to-day and we will at once send you by mail a sample package, free. Address F. A. Stuart Co., 115 Stuart Bldg., Marshall, Mich.

SURELY A BULL MARKET IN LOCAL REAL ESTATE

Even the Optimistic Brokers Admit That Demand for Land and Houses Beats Expectations.

There is an unprecedented stimulus in real estate sales this spring, according to advisers gathered from prominent real estate men. The demand for houses and vacant lots has exceeded the brokers' most optimistic expectations, and the prices that people are willing to pay caused one broker to suggest that they have gone "land crazy."

Since last spring the price of vacant land in North Rosedale, York County Loan property and Standard Gardens has jumped \$10 a foot. Lots that were quoted last year for \$20 and \$25 a foot are being snapped up like hot cakes for \$30 and \$35 a foot.

A representative of one firm claims to have sold \$100,000 worth of vacant land in these sections this year. He says if he didn't do another stroke of business for the balance of the year he could not complain on the year's aggregate.

While The World was in talking to him, two residence deals were closed up for \$10,000 and \$12,000 respectively.

"There is a wonderful demand for high priced residences," he said. "There are more people looking for houses of this sort than we have houses to offer them. We have also just closed a deal whereby Mr. Glasgow of the United Editors Limited, purchased a residence at 17 Whitney-avenue for \$12,000."

After Business Sites.

The activity is not only in the residential building lots and houses already built. Business sites on North Yonge-street continue to change hands at almost fabulous prices. A lot has just been sold on Yonge-street below Ramezani Park with a frontage of 170 feet, and a depth of 110 feet for \$88,000. It contains old frame buildings of 20-foot frontage that rent for \$30 a month.

"However the purchaser is able to pay such a figure I can't make out," said the broker, who negotiated the deal. "The present rental does not pay one per cent on the price he paid."

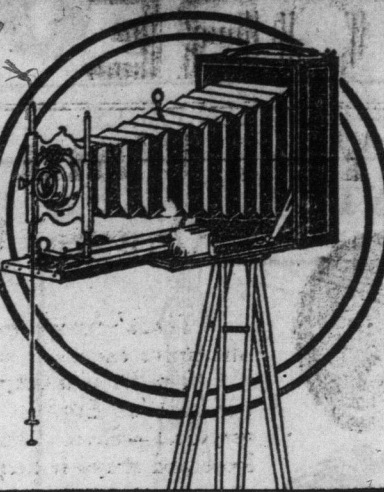

"Buy-street property" has actually doubled in price since last year ago. Parcels that were offered for \$1000 a foot a year ago are being held at \$2000.

Four new apartment houses are being planned by Architect Henry Simpson. Excavation has commenced upon a 12-roomed family apartment block on the corner of King-street and Trillier-avenue, which Mr. Simpson is building for himself at a cost of \$30,000. It is a three-story brick structure. He is preparing sketches for three stores with 18 apartments above for James Johnson, to be erected on Spadina-avenue, at a cost of \$50,000. A block is being planned a 12 family apartment with three stores underneath, to be erected on Carlton-street for the Kent estate, at a cost of \$20,000.

Mrs. R. S. Gallacher will build a small apartment house of three suites at 35 Winchester-street at a cost of \$30,000.

There is to be a new club house with a garage combined, erected on West College-street. The exact location cannot be yet learned, and the promoters do not wish their names disclosed. It will cover a space of 80 x 125 feet and will cost approximately \$20,000.

Architect Simpson is preparing plans for an extension to the Toronto Hat Manufacturing Company's factory, 257 West Adelaide-street. It will be four stories, with brick walls, and of mill construction, 45 x 65 feet. The cost is \$20,000.

Ensign Camera

When you get ready to buy that camera, examine the Ensign camera. But for the price you decide to pay, compare any other make with the Ensign, you will find that a camera as good will cost you more in the other make—and you will get that at the price of other equal to the Ensign.

After comparing other makes, you will get an Ensign purely on a basis of value.

CORNWALL HOUSE OF REFUGE

Estimated Cost is Within \$40,000 Fixed by Council.

CORNWALL, March 24.—(Special.)—The house of refuge committee of the county council has accepted the plans of A. L. Weeks, of Ottawa, subject to certain modifications, arranged for by the committee. The estimated cost is within the \$40,000 fixed by the county council. The building will be largely modelled on the lines of the Belleville House of Refuge, but will contain changes suggested by the officials of that institution, which their experience has shown them would be an improvement. It has been practically decided to build on concrete blocks, but tenders will be called for both brick and concrete. The building will be made a school.

Mrs. McCully Found Guilty.

Mrs. McCully, charged with the theft of a diamond ring from the Eaton Co. She pleaded guilty, and was given the privilege of examining witnesses and addressing the jury. Her address was 125 St. George-street.

After short deliberation, the jury found her guilty, and she was sentenced to the reformatory for six months.

"The Climate of the Dominion."

The members of the Canadian institute will hold their annual meeting at the library, 188 College-st., this Saturday evening, at eight o'clock.

R. F. Stupart will read a paper entitled "The Climate of the Dominion," with lantern illustrations. The public are cordially invited.

USING PURGATIVES INJURES HEALTH

What You Need in Spring is a Blood-Building Tonic.

A spring medicine is an actual necessity to most people. Nature demands it as an aid in carrying off the impurities that have accumulated in the blood during the long winter months of indoor life. Unfortunately thousands of people who recognize the necessity for a spring medicine do not know what is best to take and dose themselves with harsh, gripping purgatives.

This is a serious mistake. Ask any doctor and he will tell you that the use of purgative medicines weakens the system, but does not cure disease. In the spring the system needs building up—purgatives cannot do this—they weaken you still more. The blood should be made rich, red, pure, and only a tonic medicine can do this. The best blood building, nerve restoring tonic medical science has yet discovered is Dr. Williams' Pink Pills. Every dose of this medicine actually makes rich blood. This new blood purifies every organ, every nerve and every part of the body. This is why Dr. Williams' Pink Pills cure rheumatism, neuralgia, banish pimples, and give a glow of health to pale and sallow cheeks. Men, women and growing boys and girls who take Dr. Williams' Pink Pills eat well, sleep well, and feel bright, active and strong. If you need a medicine this spring—and most likely you do—try this great reviving tonic and feel the new life, new health, and new strength it will put into you.

Sold by all medicine dealers or by mail at 25 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

DAMMING OF LONG POND TO SHUT OUT BAY WATER

City Promptly Takes Steps to Act on Advice of Board of Experts.

The city's board of experts on the water situation brought in an interim report to the city council on the board of control yesterday, suggesting a scheme for gating lake water in two weirs. The plan, which is to dam the bay end of Long Pond and tap it into the lake, using it for a settling basin, was favorably received by the board, and a second session was held privately after the usual open meeting to discuss ways and means of carrying out the work.

The suggestion of Controller Ward to put every available cement mixer on the filtration plant to help out the contractor has been approved. The board by a proposal of Controller Hocken to increase the facilities for sand washing, also came under discussion in the conference with the experts. The controllers did discuss it, however, and decided to telegraph for Allen Hazen of New York, the city's expert on filtration matters. He is expected to be present before Tuesday's meeting, and the advice he gives will largely determine whether the city will take over the work at the filtration plant.

Future is Clouded.

Dealing with the problem of a temporary supply of potable water for the citizens, the experts said:

"After a careful examination of the existing conditions we realize that the period in which the former source of supply can be restored, is involved in uncertainty, owing to the fact that the progress of the work must be governed largely by weather conditions, and the difficulties to be met will be to a large extent problematical."

"We, therefore, confine this interim report entirely to this matter, and would recommend that the body of water known as Long Pond, on Long Point, Ontario, and thus converted into a sedimentation basin, that all the connections to the bay be cut, and the necessary controlling device be installed."

"The result of carrying out this project will be that only lake water will be supplied to the city, the exclusion of all bay water. We consider this advisable, as Long Pond will act as a sedimentation basin and so produce a mass of water that will be amenable to chlorination treatment than the water from a temporary intake in the bay. The water from the shore, at which point the water will be subject to severe wave action, and is most turbid, rendering it almost impossible to treat satisfactorily."

"We consider that by adopting the foregoing recommendation, the city authorities will have time and opportunity to concentrate their energies on the investigation and repairs of the present intake pipes."

The report is signed by J. G. Singh, chairman; T. A. Murray, Isham Farnham, and J. H. Chipman.

Contractors Already Engaged.

After the first private session had adjourned, Mayor Geary announced that immediate steps would be taken to act on the advice of the experts. Within 10 minutes City Engineer Rust had Peter Arnot, contractor, in his office, and he was given the details of the plan. Arnot, in communication with J. E. Russell, another contractor, with a view to securing a claim on the part of the city, and the channel to the lake, and the necessary work to be done.

It is expected that the engineer in charge of the work will be in the city to enter the lake will be behind to keep it from filling up with sand when the storms wash huge piles of sand up on the island shore. Even if this precaution, however, the engineer expects to have to do some clearing in keeping the channel clear during stormy weather. When the work is put into the hands of the contractor, the city will likely have two sources of supply for lake water, for by this time it is expected to have the temporary intake at the lake, and the completed in 10 feet of water 600 feet south of the shore.

At the second conference held by the board of control just after the public meeting the question of how the work will be carried on was discussed. Property Commissioner Harris and Engineer Rust were present with the mayor. The question of putting a number of men from the commissioner's department to the island was discussed, and the commissioner was directed to make an advance and will report to the board on the practicability of it.

Waterworks matters also came in for some discussion at the public meeting. The board was given the report of the board of control, and the mayor suggested that it would be well for the members of the board to take a trip over to the scene of the trouble. Controller Church intimated a desire to make the trip, and it was arranged for Monday forenoon at 11 o'clock. After the return from the island the members will take a trip over the proposed site of the C.P.R. freight sheds on the government house property with a view to settling some points on which they are not quite clear.

On Roads Commission.

Lionel H. Clarke and Controller J. Ward were nominated as the city's representatives on the good roads commission.

There was considerable discussion over a proposal to put a clause in city contracts whereby the contractor would be given a bonus for work completed ahead of time and enforce the penalty clause if not completed on time. The mayor and the other controllers favored the introduction of such a clause in some of the contracts. The matter was allowed to stand over for future discussion.

BELL PIANO COMPETITION

Encouragement Given Budding Amateur Musicians in Toronto.

Mr. Wimpey, the Toronto manager of the Bell Piano Company, announces that the final details for the 3100 prize piano playing competition are now fully arranged, and that he will receive applications at the warehouses, 146 Yonge-street, commencing Monday morning next, the 27th inst. The eligible list carries no restrictions other than that the contestants must be genuine pupils of recognized piano teachers in Toronto; they must be under sixteen years of age, and they must not have been taught or played for money.

There is no charge for entry or any conditions other than the last week in June, and the judges who have signified their willingness to act in that capacity will be Mr. H. Puddicombe, director of the Conservatory of Music, Ottawa; Mr. J. E. A. Aldous, director of the Hamilton Conservatory of Music, and Professor Michael Hambourg (father and teacher of the celebrated Mark Hambourg) of Toronto.

The compositions to be played will be first J. S. Bach "C Minor" Prelude and Fugue No. 2; for technics; and either one of the three following selections: Chopin, "F Minor Nocturne," No. 2; Schumann, "Romance Op. 28 No. 2;" and Joseph Hoffman's "Mazurka, Op. 14 No. 2." It is altogether likely that the finals will be played at the Massey Hall.

ABROGATE OPIUM TREATY.

At the executive meeting of the committee on Moral and Social Reform it was decided to ask the general assembly of the Presbyterian Church to petition the imperial government to abrogate the opium treaty with China. The committee was pleased with work done by the Dominion and Quebec Governments in prohibiting the traffic in opium, cocaine and similar drugs except for medical purposes.

It was decided to ask the entire church in Canada to observe the "National Day" in June as "Patriotic Sunday." Sunday school teachers, preachers and others will be requested to speak on "National Ideals." Provisions for the general assembly's consent to the name of the society will be changed to the Board of Social Service and Evangelism.

HYDRO POWER FOR SCHOOLS

New Schools Being Wired and Gas Will Be Supplanted.

Hydro-electric power will be extensively used in the city schools, for it was decided to ask the general assembly of the Presbyterian Church to petition the imperial government to abrogate the opium treaty with China. The committee was pleased with work done by the Dominion and Quebec Governments in prohibiting the traffic in opium, cocaine and similar drugs except for medical purposes.
