RDERED TO PAY A MAXIMUM FINE

Twenty-Four Thousand Dollars Penalty to Toronto Railway Company.

FAILURE TO GET CARS

Ontario Railway and Municipal Board Upholds the City's Case.

The Ontario Railway and Municipal Board disposed of the "100-car case" yesterday by imposing a fine of \$1,-000 a day for 24 days, dating from March 27, or \$24,000, upon the Toronto Railway Company, for failure to provide 100 new street cars by dan. 1, 1918, as ordered by the board. This action was taken under the powers vested in the board by legisation passed at the last session, and by which there is right for one appeal only and that to the Ontario supreme

Seven days are allowed by which the company may enter an appeal if it so desires, and if the judgment is paid the fine. It remains for the city o draw up the order which when refified by the board, may be realized

Should Have Placed Order. he had hoped an investigation, such investigate the progress being pany. made by the company. Mr. McIntyre reviewed the evidence and said the terday afternoon's session of conclusion had been reached that the company should have ordered the

J. W. Bain, K.C., acting for the company, urged that he be allowed to produce more evidence, but this was refused, the chairman observing that he did not propose that the orders

I. S. Fairty, assistant city solicitor, appeared for the city and asked the board to order the company to reopen its factory here. It was shown however, that the factory was running and employing every available on reconstruction and other In all, 160 had been reconstructed and about 50 new cars built since the order of the board was is-

Lady Collectors Needed GET ENOUGH COAL By 50,000 Club

Give a Few Hours of Your Spare Time Each Month to Assist in the Collection of These Funds for Soldiers' Dependents.

Since the big patriotic and Red Cross campaign in January the 50,000 Club has been busy getting the membership cards in shape for collection. Now that everything is in readiness the assistance of a number of ladies who will voluntarily offer their services for a few hours each month to help with this work is urgently needed, and the club herewith sends forth this appeal to the ladies of Toronto to give every assistance possible in this most patriotic work.

Every lady offering her services will be allocated to a district in the vicinity of

Every lady offering her services will be allocated to a district in the vicinity of her own home, and in this way will be able to make all collections in a very short period of time. The collections are made only once a month, therefore requiring a very small sacrifice of your time for a most worthy cause. time for a most worthy cause.

Although the Toronto and York Patriotic Association have moved their offices to the new registry office on Albert street, the 50,000 Club still remains at 53 Yonge street, and all collectors and members are requested to continue to make payments at that address.

DELIVERED PULPWOOD TAKES GREAT JUMP

The price of pulpwood delivered was about \$8 a cord in the spring of 1916. Later that year by the action of the government it sold at \$18 a cord under probably the same conditions. This was the statement made yesterday afternoon by Percy Doble, a lumber contract agent, who presented evidence in the case of Austin of the board, stated that and Nicholson vs. The Canada Steamship Co., in which the former caurged held, would have been the latter company with failure to avoided. Reliance had been placed abide by contract in the matter of in R. C. Harris, works commission. delivering wood for the plaintiff com-

Doble was the chief witness at yescourt, and the case was tried before Mr. Justice Lennox. Doble was instrumental, it was alleged, in selling the Austin Nicholson Co. 10,000 cords of pulpwood on a basis of two and a half per cent. commission. He had promised delivery of the wood over the lines of the Canada Steamship Co. of the board would be treated lightly. The company had been unable, it was When tenders had been received for alleged, to fill this delivery contract cars the company had not acted, and the witness was placed on the alleged, to fill this delivery contract, whereas had it done so, relief might stand to show, if possible, the nature of the contract.

The case will be concluded today.

AN IDEAL SUMMER OUTING. The Provincial Government of Ontario earned the gratitude of all lovers of out-of-doors when it set apart, 1893, nearly two million acres of heavily timbered land starred with caucilli lakes and winding streams, as a preserve for the wild things and recreation ground for the people. They called it Algonou up in the "Highlands of Ontario," 200 miles north of Toronto, 170 miles west of Ottawa, and two thousand feet above the level of the sea, this lovely "I nearly dropped dead when I saw region remains today unspoiled, a persaid Mayor Church last night, fect refuge for the creatures of the forest, and an ideal camping ground way board on the street car case. for the sportsman and business man. The Grand Trunk operate hotel and isfied even yet with the results ob-tained. "We want cars, not a pen-class accommodation in this wild and alty," he said. "Anyway the com- rugged playground. FOR STEAM PLANT

Will Not Be Taken From Canadian Allotment for Next Winter.

POWER FOR MUNITIONS

Sir Henry Drayton Confers Regarding Operation of Extra Generators.

With enough coal from the United States to run their steam plant, the Toronto Electric Company will be obliged to operate according to the new order-in-council giving Sir Henry Drayton, power controller, additional authority in dealing with the power situation. While he was in Washington Sir Henry was assured that enough coal would be available for the use of the Toronto Electric and that it would not be considered as part of

the Canadian allotment.
It is thought a supply which would touch 25,000 horse-power at peak load or give a steady supply 24 hours daily of about half that amount will be furnished. This will be pooled and will be for munition use,

Sir Henry Drayton was in conference with F. A. Gaby, chief engineer of the Ontario Hydro-Electric Commission, yesterday, and also talked over the situation with R. J Fleming, manager of the Toronto Railway Com-pany and head of the Toronto Power Co., as well as D. H. MacDougal, of power company, when, it is stated the immediate operation of the steam plant was under consideration.
There is to be no delay in setting

the plant at work, Sir Henry stating yesterday that the order-in-council made it possible to curtail Hydro customers as well as customers of privately-owned companies when a war industry is not affected. Mr. Fleming said the company was willing to run the plant 24 hours a

day and that the question of profit was not being considered. "Our spirit is to try to meet country," he said. meet the needs of the These negotiations will deal with the London Power Company, and its 1000 horse-power will also be pooled

HOUSING CONDITIONS IN ONTARIO ARE POOR

Conditions are said to be appalling n workingmen's homes in many towns in Ontario, according to a statement Sons, who have been carrying on investigations in thany parts of the province. The firm points out that altho appeals have been made to boards of rade, manufacturers' associations and other bodies, practically nothing is being done to alleviate the situation. As an illustration, in a factory operating in a town a short distance from Toronto it was found that only five per cent. of the men were with the firm at the end of a year because of poor living facilities.

On the other hand, England and the United States were looking into the matter, and even in the middle of pressing war activities were making provision for better housing accommodation. England has spent \$750,000 on the project of building small but complete homes. The United States has spent \$50,000 along the same line.

Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Suphur recipe at home, though, is troublesome. An easier way is to get bottle of Wyeth's Sage and Sulphur ompound at any drug store all ready for use. This is the old-time recipe improved by the addition of other in-

gredients. While wispy, gray, faded hair is not by any druggist under guarantee to dampen a sponge or soft brush with tion has been made for two battalions it and draw this through your hair, of returned soldiers.

TORONTO OFFICIALS AGREE TO HELP GET BETTER PROTECTION

Mayor and Works Commissioner Believe Toronto Well

FIRE MARSHAL DIFFERS

Says Mr. Harris Does Not Understand Meaning of Adequate Protection.

"The statements you have made show me that you do not understand what constitutes adequate fire protection," said George F. Lewis, deputy fire marshal, to R. C. Harris, works commissioner for the City of Toronto, during the fire enquiry at the city hall yesterday afternoon. This state-ment was made after Mr. Harris had contended that Toronto had fire protection second to no other city on the continent, and that, in spite of the sworn testimony of previous witness es relative to poor water supply at the Cluff Brothers' fire and at Galena Oil Co., the Harris Abattoir Co., the Thor Iron Works, and the Polson Iron Works, there was, on the contrary, adequate fire protection attorded by the water pressure at these

fires.
Mr. Harris stated that previous witnesses must have perjured themselves if they had sworn that the water pres-sure was not sufficient at the awarementioned fires, as that blue prints showing the character and location of water mains, had not been supplied to the fire department. He stated that he had personally seen such blue prints in the Lombard street fire hall

and various other fire halls. Commissioner Harris said that he was absolutely opposed to laying mains on private property, but later admit-ted that in view of the fact that the city had laid the mains on the G.T.R. property where the Thor Iron Works were located, an easement could quite readily be obtained allowing of the oiming of such dead ends, that this vould increase the fire protection, and, finally, that all dead ends should be connected and he would give his support to measures with this end in

While examining Mr. Randali, who in charge of maintenance for the waterworks department, Mr. Lewis revealed the startling fact that there The firm in question is putting up were 556 dead end mains in Toronto that Giovanni Francesco, who is now being sought by the police on a charge of murder, had once or twice tried to "get fresh" with her, but she had one talk "Canada III and up that the canada III and the control of the city been loaned by Murray-Kay, Babayan, Thomas L. Church, mayor, began III and that these weak spots were distributed through the control of the city as well as in the outlying districts. Ryrie, the Canada Electric and other his testimony similarly to Commissioner Harr's contending that To-Clinton street, to whom Francesco tached houses are also being erected. These will rent at \$16 or sell at \$2,800, and was better protected by its fire than his letters addressed, was called, other city on the North American con-But he finally thanked dinent. Deputy Marshal Lewis for what had

been revealed during the enquiry and promised his support to the following recommendations: 1. The using of older firemen for making monthly inspections and recommendations.

2. Semi-tannual clean-up of backyard and cellar rubbish. 3. Grass fires to be restricted. 4. Familiarizing district and county fficers with local conditions, thus preparing them to intelligently fight

whose relatives live in Liverpool, was recruited in Philadelphia on March 29 res in locality. 5. Efficient watchmen to be employed where enemy aliens are employed. 6. Supplying fire department with high power searchlight, smoke helmets and oxy-acetylene amportus for cutting metal window bars, etc.

Benefits of Investigations. Towards the close of the enquiry and afterwards Mr. Lewis told of the Town of Kenora, where \$50,000 fire loss monthly was experienced. the fire investigation there was less than \$5000 fire loss in ten months. Previous to the investigation three insurance companies had given up business and insurance rates were raised 50 cents. In one case the proprietor of a clothing store, the roof of which had caught neighboring hotel fire, had had his in-surance canceled. This merchant had

never previously suffered loss thru Mr. Lewis likened a city in such surance rates when once these have

been raised. GARRISON BATTERY IS POPULAR UNIT

Capt. E. O'Leary, recruiting officer for the Halifax Garrison Siege Artillery, reports the signing on in Toronto of 82 men for that unit. Forty-two of these recruits have already gone eastward. He is permitted to enrol men 18 and 19 years of age, the latter at any time up to their 20th birthday.
These can be of either A or B medical category. Those of these two ages sign on for home service in Canada for

the duration of the war. A draft of 60 engineers left Toronto last night for the training centre at St. Johns, Que., under command of Lieut R. H. Rice. This makes a total of 300 engineers sent eastward from Toronto during the present month.
