There is some misunderstanding regarding the program for H. M. Grenadior Guards band at the Exhibition. The hours at which they play are 3.30 to 5.30 each afternoon and 30 to 9 p.m. in the main band stand. After the evening concert they take part in the grand stan dspectacle.

Airplane Race.

The Toronto and New York air race commences shortly after noon. A communication will be brought from President Wilson to H.R.H. the Prince of Wales and a letter will also come from Mayor Hylan inviting the prince to New York and offering him the freedom of the city. Col. Barker, V.C., will fly to New York if he can get the release of one of the Gernaniurendered Fokker machines.

The program of the Grenadier Guards band between 3.30 and 5.30 is: March, "The Jefferson Guards" (A. Williams); selection. "La Traviata" (Verdi); prelude, "L'Apres midi d'un faune" (Debussey); humoresque (Dvorak); suite, "La Mascarade" (Lacome); caprice Italien (Tschaikowsky); overture, "Semiramide" (Rossini); patrol, "Rose, Shamrock and Tistle" (Sousa); Bourree and Gigue (from the music to "Much Ado About Nothing") (Ed. This was followed by a musical ride by the Royal Canadian Dragoons. The expert horsemanship shown in the various exercises won the unstinted appreciation of the gathering, and time and again cheers were elicited as the precision with which the men kept the horses in line was witnessed. Where two entertainments a day are being given, it is customary for the band to play the National Anthem on the concluding occasion. When the band had finished in the afternoon, a cry got up "The King." Capt. Williams did not hear what was desired, but one or two of the bandsmen solved his perplexity by telling him what the people were asking. The captain immediately satisfied the loyalists, the band giving "God" Save the King."

MOSSOP HOTEL HAS BEEN TRANSFORMED

Now that the Hotel Mossop at 58 Yonge street has been reopened and re-furnished one can look again to the height of comfort and homeliness which was always a pleasant feature of the hospitality handed out at this popular caravansary. The latest addition to the Mossop is a new dining hall and lunch room, and this, coupled with one of the best menus, preparation and service, ought to make the Mossop a Mecca for Exhibition visitors. Even the one of the best chefs in Canada is in charge of the cultury department yet the charge is very moderate. The food is prepared to the ground floor, immediately to the rear of the dining hall, in a kitchen which is best of the dining hall, in a kitchen which is kept in the cleanest and most no is in charge of the recon-

STELLA HERE

So lies she there, gazing at you, while your eyes drink in her beauty—reading your thoughts while you vainly try to fathom hers. A little more dreaming on her part, a little more watching on yours, and, lo! some day at evening might not Stella rise to her shapely feet, stretch out her wondrous arms, and, in a voice vibrant with long-suppressed emotion say to the spellbound spectators:
"I am the spirit of beauty in woman; On your knees, all who love me, and worship."

And who among you, to whom came these tidings, could refuse?

Everybody is glad Tom Bird is back and ready to provide the best of meals at his building opposite the grand stand. For three years his staff were engaged in war activities. Now they are back and serving a sixty-cent meal that will compete with anything in the city in the city.

C. P. R. IS ROAD TO HANDLE RUSH

Heavy Travel to Europe is Anticipated and Arrangements Made.

Realizing that next year will see one of the biggest rushes to Europe ever known to modern transportation, the Canadian Pacific Railway and Ocean Services with their usual foresight and up to the minute policy have already begun to make arrangements for these tourists. The C. P. R. have installed one of the cleverest exhibits yet seen at the Exhibition grounds in the railway building, which takes for its motto the phrase "Spans the World," referring to the great transportation service rendered by the comparison of the survival of th

world tableau is a pastoral scene in Japan with Mount Fujiyama in the ackground, of a typical Oriental lake n which moving at a fair rate of speed can be seen a model of a C. P. P. steamer, which is also propelled by electricity. A tea house in the foreground, decorated with cherry trees and wistaria, gives a quaint touch to the scene. Electrically propelled Japanese figures are seen moving across a cherry bridge and the whole effect unconsciously forms an effective foil to the scene of war-torn Flanders on the opposite side. The oriental scene is by P. A. Staynes, R. O. I.

It has already been stated, according to a C. P. R. official in charge of the exhibit, that a certain section of land in Flanders has been dedicated to Canada as a burial ground for the eroes who were buried in France.
With their excellent accommodation of steamships and trains the C. P. R. and ocean services feel confident that they will be able to handle any amount

of people who may take the trip to France next year to view the places made famous in history by the courageous work of Canada's army.

AMONG THIRTY THOUSAND ISLANDS OF GEORGIAN BAY.

The 30,000 Islands of the Georgian Bay is one of the most atractive of Canada's summer resort territories, with its shaded nooks, wave-lashed grounds, where bass, pickerel and maskinonge are plentiful, and lake trout are caught weighing from ten to fifteen pounds. Among the attractions other than fishing this district offers fine canoe routes for long and short trips among the islands and amid fascinating scenery. Excellent bathing beaches are found at all the principal points. As a health resort the region is famous, the air being pure and invigorating. The district is reached by the Grand Trunk System, the trains connecting with steamer which calls at all the important resorts. The race will be really a demonstration of the feasibility of aviation as applied to commercial transportation. The race is for \$10,000 put up by the Hotel Commodore of New York City. It is being held under the auspices of the American Flying Club, men prominent in aeronautics in Canada, and the Canadian National Exhibition. Roland Rohlfs, test pilot for the Curtiss Company, arrived here yesterday shortly after noon landing at the Ericson Airdrome, coming here from Buffalo. Rohlfs flew over Toronto before he landed at the Ericson Airdrome. He flew here in the famous Wasp, a machine in which he climbed to a height of 30,700 feet recently, but was forced to come down because his motors chilled in a temperature at that height of 25 degrees below zero. He is one of the best known test pilots in America, is a son of Anna Catherine Green, the author, and was born in Buffalo. Rohlfs will take the air at the start today, and will fly to New York and make the return trip. He, together with a number of United States army pilots, were welcomed here yesterday by Capt. J. P.
