PEOPLE'S POWER IS SOLELY FOR THE PEOPLE

Hon. Adam Beck Addressed Large Meeting at Chatham -- Progress Made.

CHATHAM, Oct. 14.—(Special.)—Hon. Adam Beck, the power minister of the legislature, addressed a large meeting of the board of trade in this city to-night, on the question of Niagara power.

The minister went very fully into the question from every standpoint, showing the progress which has been made by the power commission since they have been given the consideration of this important question.

He pointed out the fact that there is now being developed at Niagara more power than is required for the needs of the whole province, and intimated that the government would take immediate steps to have this power distributed to all of the cities in the province which apply for it.

In speaking of the fact that the government is not at present developing power at the Falls, he gave as a reason that there is in the agreement made by the old government and the companies now developing the power, that the government shall not develop power at the Falls. The government feels that it is in duty bound to live up to this agreement.

He, however, pointed out that the commission had asked for tenders for the development work. Mr. Beck, through his whole speech, strongly and repeatedly emphasized his opinion that the power question should be controlled solely by the people and for the people.

MERRITTON MAN HEIR TO LARGE FORTUNE

Miles Springer, Factory Hand, Inherits an Estate in Wilmington, Delaware, of \$150,000

ST. CATHARINES, Oct. 14.—(Special.)—Miles Springer, formerly a resident of Merritton, and now living with his sister, Mrs. Ferguson, Ormond-street, Thorold, and an employe of the Wilson Carbide Works, Merritton, has fallen heir to \$150,000.

Asked this morning as to the truth of the statement, he said: "Yes, it is so, and altho it seems too good to be true, I feel it is my luck this time."

"I am direct heir to a fabulous sum, based on property and cash. The property is situated in Wilmington, a city of perhaps 70,000 inhabitants, and one of the largest cities in Delaware. I have known of the property all my life, but I never thought that I should ever possess any of it."

"You see, I had been working day by day, no farther ahead to-day than I was yesterday, and then to think that wealth has suddenly been placed in my hands, and I nearly took my breath away when I heard of the lease of the property expired in July and I have known of the fact for quite a time."

"Of course we have put the case in the hands of one of the best lawyers in the United States. There are, perhaps, twenty claims for cash. I am direct heir and I feel confident that I shall in a few months know that I am what many people would call well off. "Sooner than have the case dragged thru the supreme court of the United States my lawyer has asked for a compromise. I have seen a lawyer who has been to Wilmington, and he states that the thing is all I claim it to be."

"The money is in the Bank of Sweden of the same city, but the property will be disposed of first, and then the money, which is not nearly so much as some dimensions, will be considered. My genealogy can be traced back to 1036, and that is one of the most important features of the case, and one of which I feel very proud."

PROSECUTION OF M.C.R. OUTLINED BY JUSTICE

WINDSOR, Oct. 14.—(Special.)—Justice Riddell opened the fall assizes this afternoon at Sandwich. As there were no prisoners to be tried at this court the sheriff presented his lordship with the customary pair of white gloves.

In his charge to the grand jury Justice Riddell outlined their duties with respect to the criminal prosecution of the Michigan Central for the Essex explosion, and adverted to the alarming number of so-called accidents which were becoming notorious, and were due in many cases to sheer carelessness.

The railway has been trying to have the prosecution postponed, but the authorities are determined to press the case. Crown Prosecutor Meredith of London will try to have the commission of the former on Monday. It is intimated that no indictments will be prepared against any of the railway employes.

EIGHT HUNDRED GIRLS ARE ON STRIKE AT PARIS

Employees of Penman Company Refuse Compromise Offer of the General Manager.

PARIS, Oct. 14.—(Special.)—Eight hundred girls employed by the Penman Company are on strike.

At a meeting to-night Manager Thompson offered the girls 10 minutes on the last hour to wash up and prepare for the street. Three meetings were held in all to-day, but the girls would not listen to the manager's proposition and the strike is still on.

For some time there has been an agitation among the Penman employes for Saturday afternoon off the full year around instead of the summer months only. Saturday was the day set by the management for the commencement of the longer hours, and notices were posted to that effect.

Fully three-fourths of the employes remained away, and practically no work was done on Saturday afternoon. The employes' intentions were to return to work to-day, but notices were tacked up to the effect that all who remained away would have to report at the general office and be re-engaged before being allowed to return to work.

At a meeting held Saturday night the employes passed a resolution in which they all agreed not to return to work until Saturday afternoon holidays were granted.

This morning the employes gathered in front of the general office to the number of five or six hundred. Mr. Thompson, general manager, addressed the crowd, and as an outcome the strikers sent a delegation to interview Mr. Thompson.

The magnitude of the interests involved, and the contract term are considered to more than justify the delay has occurred.

One Crab Two Crabs More Crabs

Crustaceans Scuttled Hole in Paper Bag and Created Panic in Car.

NEW YORK, Oct. 14.—A man carrying a big paper bag last night plumped down in a corner by the rear door of a Lexington-avenue car and at once fell asleep. As the car approached 65th-street a scratching noise was heard and the mouth of the bag tilted forward. Suddenly out dropped an excited crab, which scuttled along the aisle. Then two of his fellow-prisoners followed.

Seated next to the sleeping man was a large woman. As the first crab appeared she shrieked and gathered up her skirts. The man awakened, lurched forward and made a grab for the fourth crustacean which just then dropped to the floor.

"This is a riot," hiccoughed the passenger; "nothing but crabs—seems to be devil crabs."

Just then four more crabs dropped out. Several women on the opposite side of the car-screamed and hurriedly drew up their feet. A swaying strap-hanger smashed one crab under his spatted shoe.

The sleepy passenger made ineffectual dashes at the crabs which had fallen out in front of him. As quickly as he made a grab at one another tumbled out of the paper bag until finally it was emptied.

"What's the matter with those crabs?" he exclaimed. "Wanter boll'em. Don't want gollin, eh? Aw, ri's! Stop at 81st-street, conductor. Good-by, ladies. Sorry."

At 81st-street the man lurched off the car with the empty bag.

CROP SHORTAGE SENDS WHEAT TO RECORD

On Toronto Market Cash Offerings Were \$1.12, With Barley 85c, and Oats 63c—Other Quotations.

Wheat, per bushel..... \$1.12
Barley, per bushel..... .85
Oats, per bushel..... .63

Record prices for cereals were recorded on the Toronto market yesterday, and indications are that they will go higher. The figures quoted above are the record for several years.

At the Chicago market yesterday, May wheat sold as high as \$1.12 5/8 a bushel; at Minneapolis, \$1.16 1/4, and at Duluth, \$1.17 1/4. At Winnipeg, May wheat hovered around \$1.17, and at Toronto cash wheat was \$1.12. Barley, oats and corn are all ruling at similar high prices, and Ontario farmers are not offering supplies freely because of the belief that the advances will still go further.

Crop Shortage. The extreme prices are caused by a crop shortage, which is general. In India and Australia, drought is reported to be working an injury to the crops. The European crops were marred by wet weather. The Argentine crop, upon which much depends, is said to be making satisfactory progress, but the harvest is yet two months off.

The prices of all grains are soaring in the markets to levels not touched for very many years. The advance is peculiar, in that most commodities are receding in price rather than rising. Wheat quotations, which a few months ago were between 80c and 90c a bushel are now above \$1.10; oats, which were about 40c, are now over 60c, and barley, which was thought high enough at 65c, is now 85c.

Among Toronto grain men the only reason given for the rise is a crop shortage, not only in Ontario or in the Dominion, but practically in all the grain-producing countries.

Statistics which have figured out the world's wheat crop this year place it at 5,000,000,000 bushels. This is admitting that the Argentine crop is up to the average. Using these figures as a basis, it is thought that there will be a shortage of upwards of 80,000,000 bushels in the world's needs.

In the United States the government statistics give the wheat crop at 625,000,000 bushels. It is estimated that the States will use in domestic consumption and seed requirements for next year about 500,000,000 bushels. This will leave 125,000,000 bushels for export. Of this amount about 50,000,000 bushels have already been sent out of the country. The exports of wheat and flour a week ago are now averaging over 4,000,000 bushels, so that about eighteen weeks is expected to use up the surplus and leave the country with just bare supplies for home use.

Sold at \$1.12. At the Toronto market, wheat sold at \$1.12 a bushel Monday. This is the highest price reached in several years, and several cents higher than that of the short-crop year of 1904.

Barley is another cereal that is commanding good demand. Attention. At the Toronto market Monday the price reached 85c a bushel. In the United States the price is over \$1 a bushel. The Ontario barley crop was a fair average this year, but in the States there was a shortage. Not since the Dingley Act came into effect has there been any possibility of exporting barley to the neighboring republic, but it is believed that the good sample of Ontario barley this year will be wanted for brewing purposes on the other side, and that the prices for this grain will ultimately rise much higher.

Oats are admitted to be a short crop throughout North America. This grain filled very light, and, in addition, was attacked by a blight which cut the crop in half. Oats are selling locally at 63c a bushel. At Winnipeg the quotations are nearly 10c higher, and the Chicago futures are close to 80c.

The demand for Canadian Northwest wheat is quite keen on the part of European importers, and a few of the October options are held at about \$1.14 a bushel. Northwest milling houses are strong competitors for the supply, owing to the comparatively small amount of real good milling wheat, and this competition is giving the Canadian western farmer a record price for this year's crop.

BE ON THE SAFE SIDE. When you buy a hat you want it to wear well and look well as long as its style lasts, don't you? To avoid disappointments in this regard it is safest to buy from Dineen's, where prices are reasonable and quality and style are ensured. Dineen's special hats, soft or hard felt, are fashioned from the latest English and American blocks and sell at \$2.50 and \$3. The best hat value in Toronto are at Dineen's, Yonge and Temperance-streets.
