The Great Wall of Change of the Change of th

Aristocratic Divorce Case.

London, Oct. 30.—A petition for divorce brought by the Countess Cowley against her husband, Henry Arthur Mornington Wellesley, third Earl Cowley, was called for hearing in the divorce division of the High Court of Justice to-day, the Countess alleging marital misconduct and extreme cruelty on the part of the Earl. Sir Edward Clarke, Q. C., for the defence, asked a postponement of the case, as the Earl was not ready to go on with his defence. Counsel for Countess Cowley opposed the motion for postponement, but the trial of the case was deferred until January.

Discount Rate Up Higher. London, Oct. 30.—The Westminster Gazette this afternoon, discussing the financial situation, says: "That the Bank of England will make every effort to make the rate effective is shown by the large amounts it has withdrawn from the market, in conjunction with its refusal to lend below 4.1-2 per cent. which action ampears 4 1-2 per cent, which action appears to show that further and considerable demands for bullion are expected. The market will be well advised in seconding the efforts of the bank to raise the value of money."

No clue has yet been obtained of the whereabouts of W. Dobson and Mrs. Chas. Godwin, who eloped from the village last Tuesday. Godwin took the matter greatly to heart. He says that he will stay in his present house for some days longer in the hope that his erring wife will return, but after that will break up house and board out with friends. He expressed the opinion that the pair have made for Sudbury, as Dobson had stated only a few days before that he thought of going there some day to work in the mines.

McIntyre & Wardwell received the following despatch to-day from New York:

The money market, of course, governed the stock market to-day. Rates ranged ali the way from 6 per cent. to 75 per cent., most transactions being made between 50 per cent. and 96 per cent for the three days, the latter rate being equivalent of the ½ per cent. commission and interest at which the bank syndicate money came in. It was its evident purpose not to lead any more money than was necessary to prevent a depressing stringency, and it is expected that its operations will continue until after election. Owing to the feeling of confidence in the syndicate's control of the money an arget, stocks were tenthracens strong all the session and closed at the highest level. Foreign exchange was firm, a leading bank here took some \$1,000,000 gold from its deposit at the clearing house vault to meet interest on gold bonds maturing on Monday. One of the incidents of the time is the large withdrawal of gold from the Treasury by individuals and in small amounts.
