Altho no free tickets are being issued this year for our opening day ceremonies, some 250 complimentary passes will be issued to representative citizens, whose names are being selected by the Board of Directors, and who will be invited by the association direct.

It is also true that the pass list has been very largely curtailed, and this will no doubt produce some irritation on the part of those whose privileges in this regard have been cut off. The Boardof Directors feel, however, that they were elected for the purpose of reorganizing the affairs of the Exhibition as thoroly as possible, and they are endeavoring to do so honestly, and to the best of their ability. We trust that the citizens of Toronto will bear this in mind, and accord the board their united support in endeavoring to place our Exhibition on a sound financial basis.
