WEDNESDAY MORNING

and Fort William.

January the Cause-City Will Have Counter Claim.

The Toronto Railway Co. yesterday filed its statement of claim in the action against the city to recover for damages to motors and loss of fares thru water being allowed to remain on the tracks. The company claims \$3539.50 for the period covered by the winters of 1899 and 1900, and by January, 1904.

The city will reply that the system son (West Elgin), Henderson, Smith of draining was installed by Engineer | (Wentworth), Wilson.

loss of receipts from the percentage paid by the company on account of its inability to accommodate the traffic. The Toronto Railway Company has entered an appearance in the suits brought by the city to recover the \$100 daily penalty, but no particulars on which it will base its defence have as yet been filed. The penalty clause was added to the company's bill at the last legislature without any serious objection, and some curiosity has been aroused as to what defence it will make to the ac-tions.

Copper Cliff, May 31 .- (Special.)-Th Philadelphia, Pa., May \$1 .- Religion Canadian Reading Camp Association and science went hand in hand to the held its annual meeting here to-day bedsides of the patients in Samaritan in the office of A. P. Turner, presi-dent of the Canadian Copper Company, Owing to the illness of John Charlton, M.P., president of the association, Mr. Turner, who is first vice-president, Hospital last night. Services both of

bedsides of the patients in Samaritan
Hospital last night. Services both of
devotional music and of inspiring exhortation offered in Grace Baptist
Temple, at Broad and Berks-streets,
were heard by the weary of heart and
body as they were lying in their beds
in the hospital at Broad and Ontarios
streets, more than a mile away.
It was the first practical application
of the telephone for this purpose. The
apparatus in the Temple consisted of
free megaphones suspended from
facing the pulpit and the choir. The
smaller ends were closed and contained the ordinary transmitters.
The wires to which these transmitters suffering from typhoid fever were not
given telephones because of their condition.
While tests were made of the news
services it was not until evening that
the full benefit was appreciated. So
pleased were the patients and so
markediy good the results that it was
then decided to make the innovation
a permanent feature of the hospital
iffe.

When the time for evening servic was at hand the tinkle of a bell an-nounced to the hospital attendants that all was in readiness. The fifty receivers were attached to their sep-arate wires and carried to the beds. To the patients who were too ill to beld the band receivers to their cars

hold the hand receivers to their ears headpieces were given which pressed the receivers close to the ears. Lights in the wards were lowered and not a sound disturbed the serenity of the

King«ton's Dry Sunday.

Kingston, May 31.—Sunday was "dry" in Kingston. Some of the hotelkeep-ers favor the observance of the law of in the matter of the prohibition of the sale of liquor on Sunday, but others desire to enjoy their old freedom, and refused to sign a round robin for Sun-day closing. The men, however, who favored the movement entered into an agreement pledging themselves to a law-abiding course, and at the same time determined to set a watch on their recalmitarant brethren, and pun-ish them when found guilty. Practi-cal effect was given to the arrange-ment Sunday for the first time. Sen-tres were placed at the premises of the suspects, and so effectually was the blockade conducted, that none passed in to slake their thirst.

Funeral of J. C. Copp.

A battery must have vitriol to act upon the other things and produce electricity.

A Brain is made of Water, Fat, Albumen and Phosphate of Potash. It must have Phosphate of Potash to act on the other things to make thinking possible.

A normal Brain shows 6 per cent of Phosphates, while the brain of an insane person shows less, in one case only 21/4 per cent. This proves Brainpower and Nerve-Force depend upon the quantity of Phosphate of Potash the system assimilates from food.

Certain parts of Wheat and Barley contain these elements in their most effective form, but many cannot digest enough to feed a busy Brain up to its full working capacity, nor can they digest the dead Phosphate of Potash taken from the drug store. (NOTE-White Four does not contain these Phosphates, because they grow in the dark parts of wheat which the miller leaves out because of its color. This explains why white flour is useless to restore Brain and Nerves.)

In GRAPE-NUTS food these elements are presented in the most liberal proportion and in such form any one can digest and assimilate them,

Government analysis proves GRAPE-NUTS thirteen times readier for assimilation than oatmeal and three times more digestable than the average wheat food. This proves the valuable food elements of GRAPE-NUTS are ready to change into Brain-Power and Nerve-Force with least delay and least tax on Liver and other organs.

Also it explains why GRAPE-NUTS is acknowledged the most scientific Brain and Nerve food in existence, which can be proved by trial.

Copy of this great Government Food Test sent free by Postum Cereal Co., Limited, Battle Greek, Mich., largest makers of Pure Foods in the world.

GRAPE-NUTS
