

# THE FORMULA OF "FRUIT-A-TIVES"

## Is on the Outside of Every Box For All The World to See

Every user of "Fruit-a-tives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now, state clearly—that "Fruit-a-tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics.

Everyone knows that fruit juice is healthful—but perhaps some do not understand why this is true.

Fruit juice consists of about 91 per cent. water, 8 per cent. of sweet principle, and 1 per cent. of bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities.

The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet atoms are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-a-tives."

"Fruit-a-tives" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public.

"Fruit-a-tives" is nature's stimulant for the liver, bowels, kidneys and skin. In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails.

"Fruit-a-tives" is sold everywhere at 50c a box, 6 for \$2.50, or trial box, 25c, or will be sent, postpaid, on receipt of price by Fruit-a-tives, Limited, Ottawa.

## WARD'S ISLAND GALA DAY FIELD AND AQUATIC SPORTS

Many Amusing Novelties, Band  
Concert and Attractive Entertain-  
ment This Afternoon.

Ward's Island is steadily growing in popularity as a summer resort this year, well over 300 having been in camp, and the number of tents and bungalows have been made, and more are in progress, and these added to its own natural advantages, quite a number for the favor with which it is now regarded.

This (Saturday) afternoon offers special attractions in the shape of the second annual field day for land and aquatic sports. There are 54 events on the program, all interesting and several introducing novel and amusing features. During the afternoon a concert by one of the city's regiments will be rendered, and a dance will conclude the evening's entertainment.

Ward's will be the site of all the sports, and will be fully decorated and illuminated in honor of the occasion.

Between 200 and 600 entries have been entered, and 124 prizes will be awarded by the committee, the officers in charge of the arrangements being Mr. Fred Armstrong, president, Alderman Sam McBride, vice-president, and Mr. A. T. Pike, secretary.

All residents in the island and the Toronto public are invited to assist in the celebration, and every provision has been made for their convenience and comfort.

## SPLIT-LOG DRAG.

Interest in the split-log drag is increasing among motorists. Mr. A. D. Clark of Toronto, a member of the Ontario Motor League, is having two drags made in Toronto and will make them on roads in the vicinity of his summer residence at Cobocok.

The secretary of the league has been advised that a local automobile club has been formed at Port William for the purpose of promoting good roads there. The roads round Port William are rough, and in wet weather almost impassable in places. The drag will make them smooth and mostly free from mud and dust.

Summer is the season when the mother finds it most difficult to keep her little ones well. The complaints that afflict the babies during the hot summer months come on so quickly and so unexpectedly that often it is that her baby is anything but well.

or whether, as Norman Jeffray declares, there was anything wrong with the yacht's rudder, or if there was, it was not the fault of the ferry boat. It was a case of investigation for the wreck commissioner or not, but it may be.

Must Have License.

Harbormaster Postlethwaite said the tragedy would almost certainly result in the adoption of Captain Matthews' resolution by the harbor commissioner, requiring that licenses be issued only to those who are qualified to manage motor boats and sailing craft as certified by a government instructor.

William Goodwin declared that the skiff did not carry the three regulation lights, but had only a three-sided canoe light of three colors.

Ferry Captain Broken Down.

Captain James McMaw is a nervous wreck, and declares he will never pull a bell again. He was almost everlastingly another bell, in a word.

Died Heroic Death.

It is said that John Pearce lost his life in his efforts to save two of the women who were in the boat.

His employer, J. W. Williams, manager of the Office Specialty Company, speaks very highly of him. "He was always a good boy. He had been with us for over eleven years, and in all that time I cannot recall his ever being late for work. He was thoroughly unselfish, a hard worker and always attended to his duties as assistant shipper with a zeal and loyalty that made him liked by everyone in the organization. I understand he was the main support of his home, and he will be greatly missed by all who knew him."

The young man's body will be taken to Oakville on Monday for burial.

Miss Scully, one of the victims, was 19 years old and the second daughter of E. L. Scully, stenographer in the drainage court of Ontario. He is in New York at present. She was on a two weeks' vacation to Lake of Bays, Muskoka, and arrived in Toronto on Thursday noon. She was a beautiful, highly accomplished girl and a graduate of St. Mary's Academy, Windsor. She was very popular among society in Windsor and a member of one of the oldest families in this part of the province.

A watch found on the body of John Pearce had stopped at 9:15 p.m., showing the time of the fatality.

MISS RACHEL CROWN, with Percy Haswell Players at the Royal Alexandra Theatre.

## Public Amusements.

Those who like comedy will be well entertained next week at the Royal Alexandra Theatre, when the Percy Haswell Players will present that amusing play "Divorçons," by the brilliant French dramatist, Victorien Sardou, author of many stage successes.

The play turns the serious problems of divorce into a roaring farce, ridiculing the absurd French customs to such an extent as to make it a post-play play, and a very funny comedy. The play is supposed to transpire in France during the passage of the famous divorce bill. These all has become such a fact as to cause all France to take sides in the cause.

Henri de Prunelle, the husband of Cyrienne de Prunelle, is opposed to the bill, Cyrienne is for the bill, and the play is a comedy. The play is supposed to transpire in France during the passage of the famous divorce bill. These all has become such a fact as to cause all France to take sides in the cause.
