

**SOME 12,000 AT EXHIBITION ON THE FIFTH DAY**

**Closing Tonight — Orphans There This Afternoon — Art Dept. Awards**

The Saint John Exhibition enjoyed patronage of about 12,000 yesterday, and the fifth night of the fair was a busy one. All the features were in full swing. Conditions were excellent for the fireworks, and it was keenly enjoyed and heartily commended. Tonight the exhibition will close. This afternoon the orphans will be taken to the sights there by the Knights of Columbus and Gyro Club, working together, and the little ones are looking ahead to a happy time. The awards in the art department, judged by Mrs. L. DeV. Chipman and Percy N. Woodley were announced as follows:

**MOTOR EXHIBIT.**  
The Ford Motor Company of Canada, Ltd., K. C. Irving, manager of the Saint John Ford sales and service branch, have a splendid display of Ford cars, trucks and machinery in the machinery hall, beneath the ground floor of the main building. Their display has attracted crowds of people during the fair and the log sawing machinery has proven of great interest to the many farmers in attendance at the show.

**HOUSEHOLD SCIENCE**  
The work of the pupils of the household science department of the city schools as seen in that displayed at the Saint John exhibition was very warmly praised. The exhibits included specimens of sewing and of canning and all of the work was by girls of grades six, seven or eight, averaging between 12 and 14 years of age.

**AMATEUR PAINTING, WATER COLORS**  
Portrait from life: 1, Edythe Mitchell; 2, Teddy Campbell. Landscape, original: 1, Lillian Clark; 2, Edith Mitchell. Marine, original: 1, Julia Reid; 2, Edith Mitchell. Still life study, original: 1, Julia Reid; 2, Edythe Mitchell; 3, Teddy Campbell. Landscape copy: 1, C. H. Flewelling; 2, Plessa Ogilvie. Marine copy: 1 and 2, Plessa Ogilvie. Still life study, copy: 1, Connie Starr. Figure study: 1, Ted Campbell; 2, Edythe Mitchell.

**PORTLAND WILL GET LINERS IN SUMMER**

NEW YORK, Sept. 10.—Officials of the White Star Line said today that Portland, Maine, was being temporarily discontinued as a western terminus for trans-Atlantic service because a number of their liners which had operated out of Portland were needed for passenger traffic elsewhere. As soon as conditions warrant, at the end of the winter months, the service to Portland will be resumed.

**NEW INVENTION SAVES MILLIONS**

**A Lamp that Burns 94% Air**  
A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil). The inventor, O. K. Johnson, 248 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience of money make \$250 to \$500 per month.

**WHY I thought you had the Flu— I did have; but I am convalescent now.**

**EXPERTS** are trying to find the first conversational joke. The first conversational joke, we believe, was some congressman.

**Use the Want Ad. Way**

and hand colored; 1, 2 and 3, Portland Studios. Bonyalest by professional: 1, 2 and 3, Portland Studio.

**"Boiling Over" means nothing to SPEEDIRON**

IN the days of old-fashioned "open" elements, boiling over was a serious matter. Liquids dripping over the sides of the cooking pot and into the exposed wires and grooves frequently caused coils to burn out—a source of much inconvenience and expense.  
NOW all that is changed. McClary's wonderful, new Speediron element enables you to cook with your mind at complete ease because you know nothing can injure the element. Your preserves, your soups, your kettles—they may boil over a dozen or a hundred times without doing the slightest damage. The coils in McClary's Speediron are protected by a smooth, cast-iron surface—a surface so durable that hard knocks, falling pots, leaks and drips cannot possibly harm it.  
If a coil burns out you simply lift out McClary's Speediron Element. With little effort and expense you can have the coil replaced by your dealer—while you wait. It is just as easy and simple to replace the unit as it is to plug in your iron or toaster.  
That's the amazing thing about McClary's Speediron. It lasts for years and years. And you have a range that cooks at great speed and saves current. The contact heat principle on which the Speediron operates eliminates waste by radiation—the heat goes into the pot, not into the kitchen. This means increased speed and exceptional economy.  
**Coils Easily Renewed and Repaired**  
Lasts as Long as the Range Itself

**McClary's Electric Range**

Make your selection at Our Branch Showrooms
