#### HAUGHTON MASONIC CHURCH SERVICE

HAUGHTON, June 29.—The members of Haughton Lodge, A.F. & A.M., held their annual parade on Sunday afternoon. They assembled at their hall, formed in procession and headed by the Haughton Cornet Band assisted by members from St. Mary's Band, Saint John, marched to the United Church at the Station. The service was conducted by Rev. George A. Ross, pastor of the United Church.

#### DAILY SERVICE SAINT JOHN-MONCTON-HALIFAX

Commencing Sunday, July 4, Canadian National Railways train No. 14 will leave Saint John at 1 p. m., Atlantic Standard Time, daily, instead of daily except Sunday as at present, arriving Moncton 4 p. m., where connection will be made with the "Ocean Limited" leaving Moncton at 4:35 p. m. for Halifax.

Train No. 18 will leave Moncton at 2:40 p. m., where connection will be made with the "Ocean Limited" from Halifax, daily, arriving Saint John 5:50 p. m., Atlantic Standard Time.

A Cafe-Panor Car will be operated on Train No. 49, leaving Moncton at 4:45 p. m., Sundays only, for Saint John, serving supper en route.

#### FERNHILL CEMETERY.

The directors of Fernhill cemetery made their usual inspection yesterday afternoon, when they found the men busy with the care of the lots. Few complaints have been received this season and many lots have been placed under both annual and perpetual care. Owing to the backward season, the superintendent was authorized to take on more men in order to have the work

properly looked after and completed as quickly as possible. Connection has been made with the city pressure, and water is now conveyed to Hill Avenue and the surrounding sections, the Terrace included, as a means of watering and protection.

Use the Want Ad. Way

## Chats with your GAS man

Non-regulated gas ovens should be pre-heated only for pies, quick breads and meats.

2.—Cakes, unless baked in a regulated oven, should be put in a COLD oven. For a loaf or sheet cake, requiring approximately a one-hour baking period, the rack should be placed in the CENTRE of the oven. Turn ONE burner on slightly less than half-way for the first quarter of the baking period. Then turn gas down until burner is on about one-quarter way. Leave at that height for the remaining three-quarters of the baking period.

Layer cakes, requiring approximately a thirty-minute baking period, should be placed in a cold oven and the burner turned on half-way for the first half of the baking period, at which time it should be lowered to one-quarter way.

This gives the gases in the leavening property (the eggs, soda or baking powder) an opportunity to work gradually as the heat increases gradually. The heat reaches the maximum desired at the end of the first quarter of the baking period and the gases have, for the most part expended themselves before the batter actually starts to cook.

The oven door SHOULD NOT BE OPENED during the SECOND and THIRD QUARTERS of the baking period, for the cells at that time are not firm and a slight jar may cause them to settle. The warm expanded air which makes the cake light has already been evolved, and there is nothing present to lighten it again.

3.—Angel-food cakes may be put into a cold oven and the heat allowed to come on very gradually, or should be put into a very slow oven that has not been pre-heated more than three or four minutes.

4.—Quick breads should go to the top-most part of the oven, and a hot oven should be ready for them. Muffins, which require from twenty to thirty minutes for baking, should be placed in the top of the oven. Biscuits should not be in the oven more than twelve to fifteen minutes at the most, and should be baked with a very hot oven, at the top-most part.

5.—Broiled meats must be handled very carefully. The oven should be pre-heated at least ten minutes before the meat is put in, but the broiling pan should be removed from the oven before the heat is turned on.

A hot porcelain broiling pan draws the juices from the under side of the meat, and prevents it from browning nicely when turned.
