**LOCAL NEWS**

**DIED TODAY.**  
The death of Mrs. Rachael Spellman occurred at an early hour this morning in the Epidemic Hospital, of diphtheria. She was aged forty-six years, and is survived by her husband, three sons, three daughters; her mother, Mrs. John Calvin of Grand Bay; four brothers and four sisters. Many friends will be sorry to learn of her death and will have deep sympathy for those bereaved.

**PHONE COMPANY STOCK.**  
Senator Thompson, Fredericton, Senator Todd of St. Stephen, Col. F. B. Black of Sackville, and Richard O'Leary of Richibucto, who comprise the executive board of the N. B. Telephone Co. are in the city today for a meeting to receive the secretary's report on the last issue of stock of the company to the subscribers. It was said today that the report was very satisfactory, practically all the issue being taken up by the subscribers.

**IN CHANCERY.**  
In Chancery this morning, before Mr. Justice Grimmer, the case of Fenton vs. Kelleher et al. a dispute as to a property title, was resumed, B. S. Smith acting for the plaintiff, and J. F. H. Teed for the defendants, Allen Alberts, Jennie Alberts, and John Hudson. Kelleher made default of appearance.  
Mr. Smith proposed to prove a complete documentary title in the plaintiff, and submitted documents to that effect. Mr. Teed proposed to show title by possession in the defendants, Allen Albert and Jennie Albert, and that Mr. Hudson had a valid title to a piece of property purchased from them.  
Mr. Fenton, who purchased the property in 1919, gave evidence.  
Application was made by Mr. Smith to have the evidence of Mrs. Arnold taken by affidavit, owing to age and illness, she was unable to attend court. Court adjourned till 3:30 this afternoon, when the matter of the affidavit will be further considered.

**FINANCES NEED STRENGTHENING**

Report to Religious Education Council—This Morning's Session.

At the session of the Maritime Religious Education Council presided over by J. A. Clark in Centenary church this morning, a devotional service was led by Prof. Smith. Mr. Smith gave a talk on "Famous Sunday school hymns, old and new". Some of these hymns were sung by the gathering in a stirring manner.

The financial report was presented by the treasurer, Robert Reid of St. John. The total allotment of the counties of the maritime provinces for the fiscal year ended October 31, was \$10,650. Of this amount only \$6,699 had been paid in, leaving a balance of \$4,000 due. Mr. Reid made an appeal to the delegates to do all in their power to have the allotment of their schools paid up before the end of the fiscal year. The liabilities amount to \$3,162, a balance of \$238.98 in hand.

There was considerable discussion of this report. It was pointed out that the allotment per school was considerably raised this year, so that already the schools had paid in more than ever before. Speakers also promised to try to have the allotments paid in. A few of the counties had paid their full amount and in one or two cases had gone over. As these names were read the audience enthusiastically applauded.

The report of the General Board and Executive was presented by L. W. Simms. Mr. Simms told of the work accomplished at the meetings of the board and spoke of adding to the staff in children's work. He said that the financial situation was serious but not hopeless. "United effort will win out," said Mr. Simms, amid the plaudits of the delegates.

He urged the strongest support in all departments.

The work in field and office was described by Rev. W. A. Ross, general secretary. He told of the work which he and his staff were doing. Miss A. H. Harrison had been charge of the children's work since August, thus relieving the secretary's office of this duty.

Rev. C. Gordon Lawrence of Hampton expressed his appreciation of the reports which had been presented. He said that although the council might be badly off financially there were scores of other associations which were worse off. He advised the members to avoid rubbing the sore spot in finance but to look at the bright side; for instance to look at the greatest years' work accomplished in the history of the council. He optimistically declared that the people of the maritime provinces would not let the work be dropped.

The meeting then adjourned to specialisation conferences. A children's work division was led by Mrs. S. B. Wass. The speakers at this conference were Mrs. A. E. Morrison, Mrs. J. A. Clark, Mrs. E. Val Tilton, Mrs. A. H. Whitman and Mrs. R. T. Mawhinney. The theme of all the addresses was "unity shows your work improved." The Teen-Age Girl Workers' class led by Mrs. J. A. Clark and the Teen-Age Boys' by A. H. Chipman. Rev. W. C. Machum led the young people's division.

**MORE ARRESTS**

Fred E. Gallant was before the police magistrate this morning charged with acting together with others and breaking and entering the tailor shop of E. R. Taylor, 43 Union street, West Side, on September 2, and stealing cloth to the value of about \$400. He was remanded without any evidence being taken and he was not asked to plead.

Yesterday afternoon in Fairville Detective Biddiscombe, Inspector Stephens and Special Investigator Costello of the C. P. R. arrested Chester Arbo on a warrant charging him with breaking and entering a C. P. R. car at Fredericton Junction on September 28 and stealing therefrom shoes. Arbo was taken to Fredericton Junction this morning by Special Officer Costello and will be given a preliminary hearing before Magistrate Smith.

Both these arrests arose out of the case against George V. Parker, the Mill street barber, charged with being the receiver of stolen goods knowing them to be stolen. Further developments are expected.

**CITY ENGINEER SAYS NOTHING TO CAUSE WORRY**

(Continued from page 1.)  
To the mayor, Mr. Jones said that he did not think the city inspector, Mr. Blake, was on the job when the leak occurred. He said that Mr. Ballentyne had general supervision over the whole job, but no report of the matter had been made to him. Mr. Jones said he received a daily report from Mr. Blake, but he did not get similar reports from Mr. Ballentyne.

Mr. Bullock said that all inspectors should have made daily reports. He said that citizens had reported that there were eighteen or nineteen defective joints put in the line.  
Mr. Bullock refused to comply with Mr. Jones' request for names of those reporting the matter to him.  
The City Engineer.  
To Commissioner Bullock, the city engineer said that cracks might not have shown when the pipe was completed, but when the water was turned on, a seepage occurred. He said that the pipes could not burst, and if a leak occurred, the leaks could be covered by a hand of concrete. The defective pipe stretch had been shocked in handling. He said it was impossible to remove a joint and replace it and make a good connection.

The engineer said that he certainly expected leaks in the work. He did not know the work on a patched job. There was no departure from the specification. A small amount of clay placed in the trench was used to make the pipe denser, to make up for clay which was absent from the gravel, which was brought from the Bay Shore.

The mayor thought that when a thing of this kind occurred, the matter should be reported to the commissioner, and reported by him to council.

To Commissioner Frink, the engineer was aware of the condition that existed. The contractor, he said, must maintain the pipe for three years after it was handed over to the city.  
To Dr. Frink, Mr. Jones said that he did not mean to convey the impression that his staff was not loyal to him.

The engineer said that the people need not worry that they were not getting a first-class job. He said that the suspected pipe was within a 200-foot stretch and every care was taken to make sure that no trouble would develop in that section.

**CITY HALL ELEVATOR**

Commissioner Thornton read a joint report from the city engineer and the city electrician on the matter of the proposed elevator for city hall. The Furnball Co. bid was \$1,900 lower than that of the Otis-Fensom Co., but the alteration of the former's plan to a higher speed motor would reduce the difference to \$1,500. The suggested that, where it was decided regarding the size of the car required, the width of the stairs to allow for entrances to the proposed elevator and chamberlain's office and the final layout of the plan, new bids be asked from both these companies. Mr. Thornton moved that this be done.

Commissioner Bullock was of the opinion that the prices would be lower next spring, and he thought that the present inconvenience could be put up with until the spring, which would be a better season in which to upset the building, as it would not interfere with the heating.

Dr. Frink emphatically expressed the fact that he did not like the policy of drifting. He said that the matter had been up time and again, to his knowledge, for the last twenty years.

Commissioner Thornton's motion was carried.  
The mayor explained that it was possible to move the committee room to the top floor and the present committee room could be used as an extension to the chamberlain's office.

**The Ferry Matter.**  
Commissioner Bullock reported that he had taken up further the negotiations with Senator Thorne in connection with the use of his property while piloting operations were carried out on the east side boats. He said that J. Roy Campbell, acting city solicitor, had written Mr. Thorne, asking him (1) to name a price for the purchase of the property required by the city; (2) to state on what terms he would rent it to the city; and (3) if he would allow the city to occupy the property while repairs were being made and what charge, if any, he would make for such use.

**Mr. Thorne's Reply.**  
The commissioner said that the ferry superintendent had seen Senator Thorne, who told him that he did not wish to stop the city work, but thought that the city should pay for the property occupied. He said that he was in favor of expropriation, but was of the opinion that this had been dropped by council.

In reply to the acting solicitor's letter, the senator said that he would name a price for the purchase of the property and would state what property it required, the same thing applied with regard to leasing it. He understood that \$1,000 had been mentioned when the matter of lease was discussed previously. Regarding the use of his property for the purpose of effecting repairs, he said that if the city purchased or leased the strip required for the ferry wharf, he would allow the use of his property without remuneration, provided his tenants were put to no inconvenience.

Mr. Bullock moved that he be authorized to negotiate further for the purchase of the property, but, on the suggestion of Commissioner Frink, he agreed to amend this to a negotiation for the use of the property, and the motion carried.

**BURIED TODAY.**

The funeral of Harry Ham was held today from his late residence, 23 North street, to Cedar Hill. Rev. E. M. Legate conducted service.

The funeral of Mrs. Charlotte E. McLaughlin took place this afternoon from her late residence, 12 Clarence street, to the Church of England burying ground. Rev. R. T. McKim conducted service.
