Measure

It's Cost
In Years,
Not Dollars

A purchase of a New Edison is a purchase of music. You must measure its cost, not by what you pay for the instrument—but by the length of time you enjoy its music.

If you wait for a year before buying—you lose a year of music. Buying next month means the loss of music for this month.

DRIVEN FROM HOME IN STORM BY FIRE

J. H. Chaplin's House on
Darling's Island Destroyed
on Sunday Morning.

The house occupied by J. H. Chaplin on Darling's Island, near Nauwigewauk, was destroyed by fire early on Sunday morning. Mr. and Mrs. Chaplin did not retire on Saturday night until a late hour as one of their children was sick and needed attention during the night. They eventually retired but were awakened to find that the house was afire between the floors of the first and second story. The family consisted of five children and Miss M. Woodcock, a sister of Mrs. Chaplin, and it was only with great difficulty that they succeeded in escaping from the burning building. The flames had gained such headway on account of the terrific wind that nothing was saved and the occupants escaped in their night clothes and in their bare feet. They walked to the residence of Walker Appleby, a short distance away, where they sought refuge for the remainder of the night.

Mr. Chaplin had recently sold his farm to the Soldier Settlement Board and was to return to his home in England in a few weeks. The origin of the blaze is unknown, but it is thought that the cause was a defective chimney. The loss is partly covered by insurance.

THAT \$500,000 COMPANY

A special despatch to the Times from Ottawa relative to the issuance of letters patent to the Montreal Investment Co., Ltd., as announced in Saturday's issue, says the capital stock is \$5,000,000, divided into 50,000 shares of \$100 each. Those incorporated are Francis Henry Mackay, K. C., Walter Whittier Skinner, K. C., Charles Arthur Sora, manager, Francis Joseph McEwen, secretary, and John Gorstler, secretaries, all of Montreal, Que. As the head office is at St. John, N. B., the despatch says these are believed to be "provisional incorporators." The company is given wide powers in the way of investment, dealing in stocks and bonds and acting as a trust company.

WAS OWNED AND COMMANDED BY ST. JOHN MAN

The three-masted schooner Isiah K. Stetson, which went aground on Handkerchief Shoals, four miles off Monomoy Point, Mass., and was found yesterday morning by the coast guard cutter Acadinet, was owned and commanded by Captain William Bicker of Victoria street. A report from Chatham, Mass., said that four members of the crew were drowned, and two had been rescued by the cutter. No names were available. The Isiah K. Stetson was a vessel of 271 tons, and was a regular trader at this port for the last fifteen years. She was built at Brewer, Maine, 1882, by Colonel Stetson. J. Willard Smith was the local agent.

ANOTHER PROTEST RE IRISH SETTLEMENT.

London, March 15 (Canadian Press).—The Times today rebukes Mr. Asquith for his intention to move the rejection of the home rule bill for "such action threatens to deluge the Irish question from its true position in great subject of merely party controversy."

Meanwhile there is published a vigorous protest to the premier by the anti-partition league against this measure which will divide Ireland and leave the southern Unionists without representation or power. As the signatories include some of the most influential peers and representatives of the business interests in Ireland, the protest cannot altogether be ignored.

FIVE YEARS FOR SHOPLIFTING

Mother and Daughter Sentenced; Latter Becomes Hysterical

Milberry Gets Four Years and Youth a Term of Two — A Case About a Dress That Was Sold for \$8.

Only two arrests were made by the police over the week-end, but several postponed cases occupied the attention of the police court this morning. The case Mrs. Ida McKeegan and Mrs. Myrtle Cappen, charged with shoplifting, was resumed. At a former hearing the women pleaded guilty. They were remanded for sentence. In the meantime the detectives have succeeded in recovering most of the goods, which are valued at \$1,000, and these will be returned to the owners. The magistrate today reviewed the circumstances and imposed a sentence of five years on the younger woman, Mrs. Myrtle Cappen, took the sentence very hard, as she went into hysterics and had to be taken down stairs.

A case against Gilbert Milberry and a youth, charged with stealing tools and a pair of rubber boots, valued at \$20, was resumed. The accused pleaded guilty at a former hearing, and this morning the magistrate sentenced them to four years and two years respectively to the penitentiary.

In a case against Edith Hogan, charged with being the keeper of a disorderly house at 42 Richmond street, the magistrate said that at the last hearing he was disposed to allow her to go on a suspended sentence, but on inquiry the information thought to be in her favor was against her. In view of this and other information received a sentence of nine months in the Home of the Good Shepherd was imposed. Mrs. Hogan thanked the magistrate for his sentence, after which she was taken into jail.

William Perry, who has been confined in jail awaiting a preliminary examination on a charge of misappropriating money from T. Rankine & Sons, Ltd., and C. H. Peters & Sons, Ltd., was charged this morning with stealing a dress valued at \$80 from the Dufferin sample rooms. William Clayton, who bought the dress, said that he had seen the accused the night he came to his residence, but was not personally acquainted with him. He said he bought the dress from him and paid \$8 for it. The accused told the witness he had found the dress. The case was postponed for a further hearing.

A case against Albert Ritchie, charged with stealing a quantity of cloth from the store of A. Dreskin, Main street, was resumed, but again postponed until tomorrow afternoon at two o'clock.

Two men charged with drunkenness pleaded guilty and were remanded.

PROTECTION AT SAND POINT IS INSUFFICIENT

Delegation From Board of
Fire Underwriters Asks
City Council to Look Into
Matter — The Question of
Sprinkler System.

The matter of more adequate fire protection for the sheds and wharves at Sand Point was the subject of an appeal made to the mayor and commissioners in council this morning by a delegation from the New Brunswick Board of Fire Underwriters. The delegation consisted of M. B. Edwards, Peter Clinch, Heber Vroom, H. H. McLellan and W. H. Wainwright. The mayor and all the commissioners were present.

Mr. Edwards told why the delegation was present and asked Mr. Clinch to present the case. Mr. Clinch said that from the public standpoint the fire protection at Sand Point was poor. In case of fire there, the water had to be turned on at a valve about a quarter of a mile from the sheds and it then ran through a cold pipe to the wharves. He said that there was great hazard and in the absence of a sprinkler system, he thought a chemical engine should be supplied. He said at the time of the big fire the wharves were insured and a company which he represented paid \$40,000 in losses. He said the chemical should be placed somewhere handy to the sheds and be easily accessible.

Mr. McLellan said there was a difference of opinion on this matter as some thought that the chemical should not be exclusively used at the docks only.

Mr. Clinch said the Bust terminals at Brooklyn were all equipped with sprinkler system which worked to perfection. In reply to Mr. Fisher, Mr. Clinch said hand chemicals were good but in the sheds where great draught existed fire would fly through the sheds so quickly that something more efficient would be necessary.

In reply to Commissioner Thornton, Mr. Clinch said that the sprinkler system was by far the best system. In 1911 the contract price was \$38,000 for the system, but now would be double. The insurance rate however would be reduced from 3 per cent to 1 1/2 per cent, which should pay the interest on the bonds. He said that the cost of the system was about \$145,000, which was away below the value of the works. Then after was referred to the commissioner of safety and harbors for report.
