One may readily conclude that great climatic changes are taking place on this globe of ours. Here we, in New Brunswick, who used to be subjects for the wondering pity of people of other sections, because of the excessive cold and excessive snows to which we were subject, are well advanced in January with not snow enough for the favorable pursuance of ordinary winter business, and without having experienced any very severe cold weather, while from Britain and from the western and the middle states of the Union, come constant reports of immense snow falls, blocking the highway of trade, of unusually cold weather and destructive storms.—*Sentinel*

**The Injurious, Fattening and Nutritive Properties of Robinson's Phosphorized Emulsion of Cod Liver Oil with Lacto Phosphate of Lime** are such as would indicate its efficiency to "sustain the body, in the performance of its various functions," with the aid of but little solid food. Hence its superior remedial worth in the "wasting disease of childhood"—the "Wasting Away," in those of "Consumptive tendency"—in Consumption itself, as well as in General Debility, and all cases of Prostration and Emaciation.

Prepared solely by J. H. ROBINSON, Pharmaceutical Chemist, St. John N. B.; and for sale by Druggists and General Dealers. Price \$1.00 per bottle; six for \$5.00.

BALLOU'S MONTHLY MAGAZINE FOR FEBRUARY.—Full of the most charming reading matter is Balloou's Magazine for the month of February. The leading illustrated article is by the author of "A Whaler's Adventures," and treats of the Fiji Islands. Earl Marib has a poem, "Daddy Joe's Sweetheart," written in dialect, which will be interesting to South western and especially to Missouri readers, and which is accompanied by some capital illustrations drawn from life. Besides these, there are some ten or a dozen stories, adventures on land and sea, domestic stories, poetry of a superior order of merit, and a set of comic engravings that will make the most dull smile. Published by Thomas & Talbot, 23 Hawley st., Boston, at \$1.50 a year, post-paid, and for sale at all the periodical depots in the country.

**DIED.**  
On the 14th inst., at the residence of her son-in-law, at Calais, Maine, widow of the late Mr. John McCoubey, aged 82 years, 7 months. The deceased resided in St. Andrews for fifty years, where she leaves two sons, and many other relatives and friends.

**Death of an old Inhabitant.**  
On Tuesday, 21st inst. Wm. MacLean, Esq., who had been confined to his residence for the past three years, quietly passed away, aged 96. Mr. MacLean was a native of Inverness, North Britain, and emigrated to Halifax, N. S., in 1812, where he was appointed to a position in the Admiralty office, at a salary of \$2,000 per annum, and remained until 1816. He afterwards removed to Campo Bello, where he engaged in a large West India shipping business, owning shares in vessels, and was robbed by a clerk of the price of a brig he was engaged to sell. In 1829 he removed to St. Andrews, where he resided until his death. In 1824 he paid more duties than all the rest of the County. For many years he was a Notary Public, auctioneer and commission merchant, and was upwards of 72 years a member of the Masonic Fraternity. He leaves a son & daughter, to lament their loss. The funeral will take place on Thursday.

**THE GREAT CAUSE OF HUMAN MISERY.**  
We have recently published a new edition of Dr. CULVERWELL'S CELEBRATED ESSAY of the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc. resulting from excesses.  
Price, in a sealed envelope, only 6 cents, or two postage stamps.  
The celebrated author in this admirable Essay clearly demonstrates, from thirty years successful practice, that alarming consequences may be radically cured, without the dangerous use of internal medicine, or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.  
This Lecture should be in the hands of every youth and man in the land.

# Parks' Cotton Yarns!

Awarded the Only Medal Given at the Centennial Exhibition  
For Cotton Yarns of Canadian Manufacture.  
Nos. 25 to 100.  
WHITE, BLUE, RED, ORANGE AND GREEN.  
Made of Good American Cotton with great care  
Correctly numbered and Warranted Full Length and Weight.

WE would ask the purchasers of Cotton Warp to remember that our Yarn is spun on Threlle Frames, which make a stronger yarn than the Ring Frames, used in making American yarn. It is also better twisted and more carefully reeled; each hank being tied up in 7 less of 120 yards each. This makes it much more easy to wind than when it is put up without less—as the American is—and also saves a great deal of waste.

Those acquainted with weaving will understand the great advantage it is to them to use yarn put up in this manner.

**COTTON CARPET WARP,**  
Made of No. 10 Yarn, 4-Ply Twisted.  
WHITE, RED BROWN, SLATE, &c.  
All fast colors.  
Each 5 lb bundle contains 16,000 yards in length and will make a length of Carpet in proportion to the number of ends in width.

We have put more twist into this warp than it formerly had, and it will now make a more durable Carpet than can be made with any other material. Since its introduction by us, a few years ago, it has come into very general use throughout the country.

All our goods have our name and address upon them. None others are genuine.
