Ald. said his view was that when walk was laid the work would have been laid out and made for the boulevard, if to be one, and the work at that time. In the case of street, few, if any, improve-ment been made. No sewer had laid in that street, and if the were laid now it meant that have to be cut up to put in connections. On the general of boulevarding he thought work should not be done there in the burbs where are not many residents, while were crying out for re- improvement. This whole would be systematized and prop-osed out so that all the work- ing a street could be under- the same time, not a little a little again by different mts, as was the case now. He with the appointment of a ment of street and sidewalk things would go along in the particular cases under, as the property owners the work and where paying a are of the cost, he would offer ous opposition, nor would he a connection with any civic

Hall said that he wished to that he was not in favor of ch work as boulevarding in districts indiscriminately, ner more important works re- dication, but in the present of the work had already ne.
