THE STAR, ST. JOHN, N. B., WEDNESDAY, AUGUST 11 1934

### FRANK GOULD'S CHUM SAYS HE SAW HIM KISS ACTRESS

Mysterious Woman in Divorce Hearing is Revealed in Person of Rose Winter— Wife Wants Absolute Decree.

ST. JOHN, Aug. 11.—With the next few days Mrs. Helen Kelly Gould will apply to the Supreme Court and ask that a final decree be made granting her an absolute divorce from Frank J. Gould. The statutory limit of ninety days that must elapse between the signing of an interlocutory decree and the final one will end on August 15, and Mrs. Gould's friends say that she does not intend to lose any time.

The secrets in the divorce hearings when Mrs. Gould's serious charges against her husband were made known have just come out. Mrs. Rose Winter, an actress, was named by Mrs. Gould and the testimony shows that Gould was a frequent visitor to the Winter apartments.

At the time the first decree was made he court sealed the papers so that nothing was made public.

In her complaint Mrs. Gould named another woman besides Mrs. Winter, but the complaint was amended and the proof confined to the actress. As the complaint stood originally it charged Gould with misconduct on several occasions at many places where he visited in his yacht.

\$3,000 CHECK TO WOMAN.

The most important witness for Mrs. Gould was George H. Taylor, an intimate friend of Frank Gould, who accompanied him on several occasions to the Winter apartment. Taylor told of many presents Gould made to the Winter woman, including a check for \$3,000 and a diamond stud and gold mesh purse. Taylor was a reluctant witness, but Lawyer Smythe, representing Mrs. Gould, forced him to tell all he knew.

John Tierney, manager of the Shoreham Hotel, testified that Gould had been a frequent visitor when Mrs. Rose Winter had room there. When he arrived the clerk would call up the actress and announce "Mr. Frank has come," whereupon Gould would go up on the elevator.

Robert Dudley, the night elevator boy, said that "Mr. Frank" usually called upon Mrs. Winter after the theater, and that sometimes he remained at night. Other times he left about five o'clock.

The elevator boy said he frequently had occasion to visit the Winter apartments when Gould was there, and that the woman was not ornate in her dress.

SAW GOULD KISS ACTRESS.

Then Taylor was called. He was the star witness. Part of his examination by Mrs. Gould's lawyer follows.

Q. How many times altogether have you called on Mrs. Winter with Mr. Gould? A. Three or four times. I might have been five; I won't say positively.

Q. On each of these occasions was it after the theater? A. I think once I called in the afternoon late.

Q. How many of these occasions did you leave him there? A. My recollection is on two.

Q. How was Mrs. Winter dressed on both of these occasions that you left Mr. Gould there? A. In a wrap—pajamas.

Q. This wrapper, was it transparent, made of transparent material, or was it made of material that could be worn in the street? A. It was of thin material.

By the Referee—Extremely negligee? A. Yes.

Q. Could you see through it? A. Yes.

By Mr. Smith—Did she have on anything else on these occasions but the negligee? A. I don't know.

By the Referee—Q. Did she have any corsets on, could you tell? A. I don't think she had. I was simply calling there. I was not making any examination of the lady.

By Counsel—Q. I shall have to ask you, Mr. Taylor, whether on any of these occasions you noticed whether there were present Mrs. Winter and Mr. Gould kissing each other? A. Yes.

SEB SAT ON GOULD'S KNEE. Q. Was that so on each of these occasions that you were there? A. I think so.

Q. Did you ever notice Mrs. Winter sitting on Mr. Gould's knee? A. Yes.

Q. Was it a frequent occurrence on each of these visits? A. Yes.

Q. And their conduct toward each other generally, will you please state whether it was affectionate or not? A. It was not unfriendly.

Q. That doesn't answer my question. Were they affectionate toward each other? A. I don't know what you mean by affectionate. I have stated that she sat on his lap and that he kissed her.

Q. Now, in the amended complaint, Mr. Taylor, it is alleged that the defendant made valuable presents to Rose Winter, and among other things gave her a jeweled ring and also gave her a gold purse or bag. I will ask you whether you know anything about that?

The Witness—It is necessary for me to answer these questions?

The Referee—Yes, etc.

The Witness—Yes.

Q. I will ask you to state what you know about that? A. I know that he gave her a jeweled bag and a ring.

### TAMING WASPS IS GIRL'S STRANGE FAD

Keep Them in Her Bedroom and Attends to All Their Comforts.

LONDON, Aug. 10.—Taming and domesticating wasps is the fad of a girl named Miss Black-Hawkins, of Bourne Court, about six miles from London. The Andover neighborhood is well known as a source of excellent honey, but that any one here or elsewhere should make pets of wasps is a distinct novelty. Miss Black-Hawkins, who is not yet 21 years of age, has a highly interesting story to tell.

Gentle in voice and manner and with an intense love for all forms of wild insect life, she has the attributes of the successful beekeeper, and these have served her well in directing her taste to the near ally of the bee, the much more dreaded wasp.

FASCINATING STUDY. "I have been fascinated with the study of natural history for some years past," she said, "and it was three summers ago when I began to watch wasps in captivity under the microscope, that my experiences with these insects began. I found them charming in all ways, but one of the earliest things that held my attention was their extreme cleanliness."

"I have watched them for hours at their toilet, cleaning themselves with their antennae like a cat does with its paws, and I have been struck by the wonderful mobility of their bodies. Naturally insects kept in captivity for observation purposes had to be fed, and I first found they were amenable to kindly treatment when they literally came to me for food."

"I keep my wasps in my bedroom, in a wooden box with glass sides. Once, when I was lying down during the day, a hungry wasp came and settled on my hand. I often feed them by hand, and this particular wasp expected to find some honey. But I hid my hand under a rug and waited to see what would follow. The insect very soon settled on my face, and would not leave me till I had fed him."

WATCHING A WASP STING. The wasp which the girl kept in her bedroom, she said, was a very tame one, and she had considerable trouble in withdrawing it. But I saw it sting a man, and it was exceedingly interesting to watch his struggles to release himself. He pulled just like a horse pulled when going uphill, and his legs kept slipping from under him, owing to the force he exerted, but he got free."

"I catch my wasps by clapping my hand over them and imprisoning them in the hollow thus made. One of my pets loose in my room began to pick at a piece of material, and I knew from my attitude that capture meant a return to his box. So I tried a new trick. I set a trap for him, and in front of him I laid a piece of cloth, and then dropped cloth and wasp together into the box. But I was tired, and that going near that piece of cloth meant going home, and finally he had to have his liberty till he was tired."

"The greatest number I have kept at one time is fifteen. I think the whole people here, especially the children, regard me as something of a magician. I believe that as a wasp tamer I am held generally in great respect. I had a wasp sting several children, and to pay a visit with it down my neck."

ELLEN LIVES LOST IN FIRE

Hotel at Vernon, B. C., Destroyed Early Yesterday Morning.

VANCOUVER, Aug. 10.—Eleven persons lost their lives in a fire that destroyed the Okanagan Hotel at Vernon, B. C. The blaze was discovered at two o'clock this morning and had made such headway that escape for several inmates was cut off.

The dead are Wilbur Smith carpenter, J. J. Pustion, laborer; James Anderson, delivery man; Julius Singlet, George McKay, Calgary; George Setts, a Blacking, A. Crabtree, a Blacking and another man who are in the hospital.

The building was of brick veneer, three stories high, with forty-eight rooms, and was a mass of flames before the alarm was turned in.

The stairways had been destroyed and guests were tumbling out on fire escapes or leaping out in the rear. The fire was mainly confined to the hotel, but it was on Main street and was surrounded by prominent business houses.

The premises of the Royal Bank of Canada, Morris drug store and Leveridge's real estate office were considerably damaged.

A Pickling lost his life after saving his daughter. Singlet went back for a domestic and was caught in the flames. The hotel belongs to Singlet and Alberts. The loss is \$25,000 partly insured.

WASTEFUL

"It's too bad," said little Beena, "that there isn't another little Peter boy."

"They have a lot," said her mother, "I should consider that about enough."

"Well," said the little girl, "they can take each other's clothes as they grow up, but there isn't any one to take little Johnnie's, and it seems kind of wasteful."

AN UNFOUNDED RUMOR.

"Mrs. Macdonald told me," said Mrs. Oldcastle, "that the new minister came in his vestments when he officiated at your daughter's wedding."

"It isn't true," replied her hostess as she hung one of her ropes of pearls over the back of a shiny dollar rocking chair. "We brought him over in our automobile."

### SPRINGHILL WILL REMAIN CLOSED

Operations Are Off Until Profit Can Be Made.

Drummond Issues a Statement—Amenities Are Distant, He Thinks.

MONTREAL, Aug. 10.—The Cumberland Railway and Coal Company has decided to close down the mines at Springhill, N. S., indefinitely. This statement was made this afternoon by H. R. Drummond, president of the company, who added as a limiting clause, "Until affairs are upon a basis where we can make a profit at the business."

Mr. Drummond stated that the report telegraphed from Springhill last night that Manager J. R. Cowan had taken a notice offering to take back the mine on the old terms was misleading, as the company will not now take back the men on those terms.

Have Had a Board

"We have had a board of consultation," Mr. Drummond said, "and it was proved to the satisfaction of the board that the company has been actually losing money for the last three years. Apart from any return on capital, we have lost money in actual operation. The report of the board said that they are open to question."

"In spite of the facts which are indisputable, the men have asked for the raising of a standard wage, ten per cent. increase of forty thousand dollars in the annual wage bill. Now when we are losing money at the present rates, how could we be expected to grant an increase? In the light of these facts, it seems very extraordinary that they should make such a demand. It looks like the dictation of these outsiders of the officers of a foreign organization. It has been stated that it is part of a plan to control the Canadian coal trade, in the interest of the Americans. At first such a charge may look absurd, but in view of recent developments, does it not seem probable? If the coal trade of Canada is ruined it is the American miners who will benefit, and they form the great majority of the U. M. W."

"The number of men employed at the mines at Springhill was about 1,200 and the annual output 450,000 tons."

ENGLAND'S NERVOUS, THE KAISER SAYS

Battles of Future, He Thinks, Will be Fought on Peaceful Fields.

PARIS, Aug. 10.—During the recent Kiel regatta several leading Frenchmen, including Gaston Menier, Baron d'Escurvalles de Constant and Jules Roche, a deputy, were honored with an invitation from the Kaiser to lunch with him on board the imperial yacht Hohenzollern. The only other foreign visitor on the board was the Duke of Westminster.

Baron d'Escurvalles de Constant has written a letter to the Kaiser, describing the meeting of the Tamps, describing the meeting of the Tamps, describing the meeting of the Tamps.

Another of the guests has written an account of the visit to the Pigaro. The Emperor, says this writer, displayed great gaiety. The great battles of the future, he said, would be fought not with destructive war, but in the name of commerce and business.

Yet another of the Kaiser's guests gives the Kaiser an account of what took place. The Kaiser still holds to his former plan for a kind of European federation against the Asiatic peril and "yellow" interference generally in the affairs of Europe. He also declared his intention to work might and main for peace.

LIKED A CAT ON A WALL

A Scotch highland Minister was very fond of commenting on each scene as he read it out. On reading the precept, "Walk circumspectly," he said, "I've all seen a cat, my brethren, walking on the top of a wall covered with broken bottles and bits of glass. See how it lifts its feet and then another fit and how slowly and carefully it puts it down to keep clear of the sharp bits of glass. And so, my brethren, in this world of snares and pitfalls we should be like the cat on the wall—we should walk circumspectly."

AGTOR KILLS RIVAL IN REALISTIC PLAY

Shoots Him Dead in View of Audience, Then Fires at Heroine.

ST. PETERSBURG, July 17.—A terrible tragedy was witnessed last night at the National Theater in Saratoff.

In the third act of the play which was being given, the heroine is shot by a rejected lover, who dies in the arms of her sweetheart, who arrives on the scene soon afterward. Last night, to the astonishment of the audience, M. Tashakov, who was acting the villain, made an attempt to shoot the girl, but put a bullet through the heart of her lover, who was waiting for his cue to appear, then shot the girl, and finally turned the revolver against himself and died.

Several women in the audience fainting, and a great many other spectators sustained injuries in the panic which ensued while endeavoring to force their way out of the theater.

The motive of the crime appears to have been jealousy, the actors having really represented the parts they played.

### STOLE BICYCLE LENT TO CANVASS ELECTION

Daring Criminal Represents Himself as Representative of Liberal Association.

LONDON, Aug. 10.—A remarkable record of crime was read by the recorder at the Bedford Quarter Sessions, when George Carter, alias Curtis, 38, was ordered eighteen months' hard labor for stealing a bicycle.

Prisoner resided for several years at Brockley, but left four years ago and went with his four children to Cuddesdon, near Oxford, where he was charged with the theft of a bicycle.

The following month, it was stated, he made the acquaintance of Miss Cheesman at Guildford, and proposed marriage. He was accepted, but absconded with her for the purpose of furnishing a house.

He next went to Bath, and, representing himself as a detective from London, obtained clothes and then went off on a bicycle.

At Bridgewater he took lodging in June last year at the White Hart, in the name of Arthur Scott. He expressed a desire to purchase the hotel, and entered into negotiations with some local agents. Prisoner borrowed money from the landlord, paid \$75 into the Bridgewater branch of the Wills and Dorset Bank, and obtained a book of twelve checks. He altered the amount shown to his credit in the banking-book from \$20 to \$200, and altered the name from Arthur Scott to Arthur Weston.

At Leekward, in the next month, Carter was introduced to R. H. Lee, J. P. of the criminal committee and routine business was transacted. There is a good attendance of delegates at the annual meeting of the representatives will start in regular work.

A heavy rain storm prevails here this evening.

ENGLAND GETS FLAG CAPTURED BY FRENCH

Berkshire Regiment's Colors to be Restored After One Hundred Years.

PARIS, Aug. 10.—The strange story of a British and a Dutch flag has just come to light in the Matin. A short time ago Mr. Joffe, the son of a British officer, was making a tour in France, and happened to visit the Chateau de la Marthe.

This place has been converted into a museum, and contains a number of most interesting objects. Mr. Joffe was walking round he noticed two flags hanging and attached to them was a card showing that they were "for sale."

"One of the flags was once the property of a British regiment, the Berkshire Regiment. This flag is supposed to have been captured by the French nearly 100 years ago in Corla.

Mr. Joffe learned that the price of the two flags was \$125, and he at once bought them. He is now in possession of the flag, and he has given to the museum as security for a loan that he would repair it and return it to the original owner.

It is reported to be Mr. Joffe's intention to restore the flag to its original owner.

The Matin complains of the lack of patriotism shown by the man who sold the flags which were trophies.

PRIEST AND WOMAN SHOT BY JEALOUS MAN

Former Seeks Refuge Before the Altar, Where Assassin Ceases Firing.

MONTENEGRO, Aug. 10.—Jealous of the parish priest at the village of Gortina, a young Gleson from Nice has shot both his wife and the priest. The wife is lying in a critical condition in a hospital at Rome.

The husband, following his wife, a charming Parisian, to Gortina, where the Abbé Clave at the door of his presbytery. The wife, hearing the shots, left the nurse's cottage, close by, and received severe wounds in the body and arms.

The abbé took refuge in the church. His assailant pursued him, but refrained from further outrage on seeing the priest on his knees before the altar. The abbé had received two bullets in the chest. One that penetrated the lungs has not yet been extracted. Both the victims strenuously protest their innocence.

The two men were formerly close friends. The priest dined with the couple when in Nice, and he entertained them at his presbytery when they visited their little son, to whom he had stood sponsor.

The husband has produced an alleged incriminating letter, but both his wife and the abbé declare it to be a forgery.

NOT QUITE CERTAIN.

"How many children have you?" said the tourist affably.

"I dunno exactly," answered the tourist.

"You don't know?"

"Not for certain. Willie's gone fishing. Tommy's broken his leg. George's borrowed his father's shotgun to go hunting. An Emeraldella gun is broken. I never know how many I've got till supper time comes, so I can't count 'em."

We realize about once a century that we are insufferable egotists and unable to realize upon the realization.

It might cause us to grow puffed and vain if we could follow the ramifications of one ordinary day.

### DRUMMONDS AFTER ADDITIONAL LAND

Their Application is Opposed by Dr. Macrae and Mr. Gilbert

FREDERICTON, Aug. 10.—The local government met in session this morning and afternoon. The morning session was entirely taken up with routine work and this afternoon the executive was occupied with hearing the application made by the Drummond Mines Iron Company for the taking over of lands in vicinity of the property now held by the company.

O. S. Crockett, M. P., with Mr. Parsons, engineer of the company, appeared in support of the application, while Dr. A. W. Macrae and Walter Gilbert appeared in opposition, representing other interests.

Mr. Crockett contended that the government had the power to cancel all lands which had been formerly leased and grant the privilege of leasing the property by the Drummond Company if it were in the public interest.

Mr. Macrae contended that the interests he represented were entitled to the renewal of all leases formerly made and that the same under statute could only be taken over by appropriation.

The surveyor general expressed the opinion that the government could cancel leases at any time. The government said they would take the matter into consideration.

This evening the government did not meet, the treasury board holding a session.

The Grand Lodge of the I. O. G. T. met in annual session this evening. Tonight was taken up with a meeting of the credential committee and routine business was transacted. There is a good attendance of delegates at the annual meeting of the representatives will start in regular work.

A heavy rain storm prevails here this evening.

HAZING A TORTURE IN FRENCH ART SCHOOLS

Newcomers and Monitors Brutally Treated by Members of Black Band.

PARIS, Aug. 10.—"Hazing" has become so prevalent in the French art schools that the Ministry of Fine Arts is applying for a law to make it a criminal offense.

A few nights ago in the Lille Art School one of the monitors named Marat was evicted by five students in masks. They tried at first to choke him, but he resisted, and they then maltreated him with "life preservers."

An inquiry led to the discovery that a habit known as "La Bande Noire" ("The Black Hand") had for many years past terrorized the art schools in France. Branches of the "Black Hand" exist in every school, and newcomers, if they do not belong to "hazing" or monitors, if they attempt to prevent it, are literally tortured.

Being superstitious is an excellent excuse for doing things differently.

A good boss is known by the reports he turns in and the work he turns out.

### 72 Days of Dish Washing

You spend two hours every day washing dishes. That's 720 hours a year or 72 days of ten working hours each. This means that half the time is wasted. For with Taylor's Borax Soap you finish your work in one hour instead of two.

Isn't it worth five cents to have 36 days a year to yourself—to have cleaner and sweeter dishes than ever before with less than half the work?

### Taylor's Soap

This wonderful soap is unlike any other you have ever known. It digs into the corners of dishes and loosens the dirt almost like magic. It cuts away grease and leaves the surface clean and polished.

Hard water makes hard dish washing, but Taylor's Borax Soap softens the hardest water and so makes the work easy. But it does more than soften the water—it softens the hands and leaves them even whiter than before.

With this soap you save all the bother of rubbing and most of the scouring. You simply have no idea of the work this soap can save—it is the greatest surprise you have ever known.

The glassware has a lustre that fairly sparkles with brilliancy. The china ware looks as fresh and inviting as new. Yet you work only half as hard with this astonishing soap. No soap could be purer than this, for during the boiling process we run thousands of gallons of clean water through the soap. Thus every impurity is carried away and the soap is absolutely clean.

Borax also sterilizes and sweetens. It kills every germ and leaves no possibility of contagion. It dissolves all odors and leaves a clean scent that is simply delightful.

STRENGTH FREE TO MEN

How To Regain It Without Cost Until Cured

Strength of body—strength of mind. Who would not possess it if he could? It is nature's greatest gift—our most valuable possession. Without this strength, life is a failure, with it everything is possible. Almost every man was made strong, but few have been taught how to preserve this strength. Many, through ignorance, have wasted it recklessly, or used it up excessively, leaving the body exhausted, the nerves shaky, the eyes dim, and the mind slow to act. There are thousands of these weak, puny, broken-down men dragging on from day to day who might be as strong and vigorous as ever were they given the right remedy.

It gives you back the vigor, strength, and energy you have lost. It puts new life into the veins and renews the vigor of youth. For 40 years I have been curing men, and so certain am I now of what my method will do that I will give to any man who needs it my world-famous DR. E. F. SANDEN'S ELECTRIC BELT AND SUSPENSORY PRIEST UNTIL CURED. You may nothing down, you deposit nothing, you risk nothing; but up a request I will furnish you with the "hazards" or return the Belt to me; I had that ends it.

As I am the originator of this method of treatment and have made it a great success, there are many imitations of my Belt; but my great knowledge, based on 40 years' experience, is mine alone. My advice is given free with the Belt.

This offer is made especially to men who lack strength and vitality, who have drains, losses, impotency, varicocele, etc., but I also give my Belt on the same terms to sufferers from Rheumatism, Lame Back, Sciatica, Kidney, Liver and Stomach Troubles.

Write for a Belt today, or if you want to look into the matter further, I have two of the best books ever written on Electricity and its medical uses, which I send free, sealed, by mail.

DR. E. F. SANDEN, 140 Yonge Street, Toronto, Ont.

Office Hours—9 to 6; Saturdays until 9 p. m.
