His expectation was that within ter years, perhaps within five, we would be sending farm products in vast quantities, with a perfect cold storage system, from all the great ports of Canada to the dense populations of Eng-

land, France, Belgiun, Holland. A still greater problem before us is the problem of assimilating the populations of this country, the making of us, one great Canadian people. Nova Scotia has already Jone much in this direction. There were, he thought, more of the true Canadian sentiments in Nova Scotia than in any other province of the dominion. Down here you do not hear of French domination or English domination. Here a man is a man, irrespective of his creed or his race. We are Canadians all. There are within us principles greater than our differences. How proud he was that in this pro

WOODSTOCK. There Will be Two Tickets in the

Field WOODSTOCK, Dec. 12 .- It seems now to be quite settled that there will be a contest for the mayoralty this year, and no doubt a good deal of interest will be worked up by the candidates and their friends before the day of election. Some weeks ago. Wellington B. Belvea announced his intention of being a candidate, and commenced an active canvass, meeting with a good deal of success. It seemed that he might be the only aspirant for the honors. For several years Mr. Belyea was in the town council, and

he made for himself a very good record while he sat at the board. Moreover, he is a leading merchant and business man and his candidature has met with approval from many sources. Early this week it was announced that Hugh E. Galagher, a present councillor, would compete with Mr. Belyea for the honors as chief magistrate of the town. Mr. Gallagher has been a councillor for a number of years, and has proved an efficient official. With his brother, he conducts an extensive livery business, and has the reputation of having managed the racing park in such a satisfactory

manner as to bring the sport of horse trotting up to a fine mark. Some ad mirable racing has been held in this town since he took the management of the park in hand. In fact, both candidates are more than experienced horsemen. Probably politics will enter or less into the election, since Mr. Belyea is a strong conservative, who has never wavered in his adherence to the party, while Mr. Gallagher is an equally earnest liberal. It is said that a section of the towns people who are anxious that some

thing shall be done to "nip in the bud" the action which the town has entered against the county for the recovery of monies paid in Scott Act fines, and which is due of come off in St. John at the January circuit court, are largely at Mr. Gallagher's back, while those who believe that the county is responsible for the suit, and think that

the town's quarrel is just, are hand and glove for Mr. Belyea. At all events, the latter has declined to bind himself to any particular course of action with regard to the matter. It looks now very much as if, for the council as well as for the mayor-

he referred in graceful phrase to the

war in Africa, Canada's support to

England, and proposed the health of

Our Country's Defenders. This toast

was responded to by Colonel Baird and

Major Black. Squire John Fawcett

proposed the Legislature, to which

Wm. Humphrey, M. P. P., responded.

The Municipal Council was proposed

by Dr. Black of Bale Verte, and rea

sponded to by Warden Mahonney and

Councillors Johnstone and Campbell.

Senator Wood then proposed the

health of the guest of the evening, and

in a short speech referred to Mr

Powell's ability as a parliamentarian

and the services he had rendered hi
