THE LIBERALS OF KINGS-ALBERT HAVE SEEN
Mr. George W. Fowler on the defensive throughout this campaign, and Tuesday evening in Sussex, his home town, 3,000 people heard Mr. F. B. Carvell put the fine people of the Kings-Albert Conservative swash-buckler through his paces.

THE LIBERALS DID NOT INTEND THAT
Mr. Fowler should have any chance to dodge the meeting. They wanted to confront him with an incisive speaker who knew every weak spot in the Fowler armor.

MR. FOWLER MISTAKES VIOLENCE FOR
eloquence, noise for argument, abuse for wit. This was apparent last evening in his second speech. He shouted in it "I would not do Mr. Carvell's arrangement of the Conservative party and of its candidate, his treatment of the insurance revelations and the Foresters' funds, his presentation of the unvarnished facts discreditable to Mr. Fowler, had carried the great audience off its feet. Mr. Fowler's bluster could not repair the damage.

MR. CARVELL HAS RENDERED KINGS-ALBERT
sterling service in thus going to Mr. Fowler's own doorstep and administering the drastic medicine before one of the biggest meetings ever held in King county. Mr. Fowler's case is one demanding plain and vigorous speech. For the task in hand Mr. Carvell's equal could not have been found. He has been bred in a fighting school, and while he hits hard he keeps his head. It is the other man's head that is in danger. Mr. Fowler would gladly have hidden his last night. His estimate of its circumference had been sensibly diminished.

MR. FOWLER'S CONSTITUENTS KNOW HIM
a great deal better than they did before Mr. Carvell spoke. And the more they really know about him, the bigger the majority they will give Dr. McAlister.

TWO GREAT MEETINGS
In Carleton Tuesday, Hon. Mr. Pugsley received the sort of reception that means victory. The West Side is naturally enthusiastic in the Liberal cause, so directly has it been benefited by the growth of harbor facilities under the Laurier administration, and so clearly does it owe much of its good fortune to the Minister of Public Works.

to prove that every vestige of the Mayes charges and insinuations was false. The evidence he produced is unanswerable. The public knows where this leaves not only Mayes but Premier Hazen, who recklessly sanctioned the contractor's "affidavit."

At Little River, where he addressed a fine meeting Tuesday evening, Hon. Mr. Pugsley dealt with the projected improvements in Courtenay Bay, making clear the vast and comprehensive plan of harbor development which is to be carried forward in order to make St. John ready for the Grand Trunk Pacific. Electors who are looking forward to a Greater St. John must now fully realize the folly of Dr. Daniel and Dr. MacRae who from the first have sought to discredit the great enterprises from which the people of this city and county will reap such solid benefit.

St. John will not vote against St. John. Hon. Mr. Pugsley and Mr. Pender is a guarantee of civic progress. The people will stand by the candidates whose services at Ottawa will mean so much. It is only a question of majorities.

DANIEL THE NEGATIVE
Dr. Daniel is a negative quantity. He thinks it would take forty years to prepare Courtenay Bay for steamship traffic. So it would, and longer, if Dr. Daniel represented St. John at Ottawa and the Conservative party was in power.

Dr. Daniel thinks the Grand Trunk Pacific will never get here. If his party had their way it never would. The Conservatives are, as they always have been, bitterly hostile to the new Transcontinental. But St. John, like all Canada, wants the road and welcomes the news of its rapid construction. St. John is the natural terminus of the new line—and it is in no mood to excuse Dr. Daniel's pessimistic and partisan utterances. Dr. Daniel seeks partisan advantage, but St. John wants the trade, and St. John is in a hurry about it.

St. John spent more than a million of its own money on harbor facilities. Hon. Mr. Pugsley and Mr. Pender represent a party which is committed to the spending of more millions here. Dr. Daniel represents a party which never did anything for St. John and nothing is due to him now than that his election would be an obstacle in the way of the city's growth and expansion.

Dr. Daniel, in these circumstances, can expect only defeat. It is certain. St. John will vote for St. John.

"TURN ON THE TAP"
(Letters of George E. Foster to the Gazette, Dr. Oronhyatkeha.)
"O My Dear Doctor—As you know the Foresters have \$500,000 of their money in the Northwest land deal. On the security of this we have borrowed all the money we can from the banks. We have also put into this deal as much of the I. O. F. current account as can be arranged. We require still more money. Could we not have part of the reserve fund for this purpose? Yours sincerely, (Sgd.) GEO. E. FOSTER."

"Dear Doctor—I have not received a reply to my former letter. Let me assure you that the machinery of the Union Trust Company needs oil. Please turn on the tap. We need the surplus of the I. O. F. Yours sincerely, (Sgd.) GEO. E. FOSTER."

This is the man Mr. R. L. Borden would make finance minister in place of Hon. W. S. Fielding. What do you think of it?

A MAN NEEDED AT OTTAWA
Mr. James Pender never wrote any "Turn-on-the-Tap" letters like Mr. Foster or any "Dear Lester" letters like Mr. Foster. He never set himself against the Courtenay Bay improvements like Dr. Daniel and although Mr. Powell is opposed to Mr. Pender politically, he never called the Liberal candidate a "serpent." Mr. Pender, in a word, is a man wholly unlike the average Conservative candidate, and this is one reason why St. John is going to send him to Parliament.

Mr. Pender built up in St. John a great industry. He has been a conspicuous success. He has demonstrated that St. John is a good place for manufacturing. He has, and ever has expressed, the utmost faith in the future of this city. And when occasion arose, Mr. Pender has fought tenaciously and courageously for St. John's interests. Success has neither spoiled nor hardened him. He has the respect and sincere good will of his employees. He gives a square deal and expects one in return. At no point in his career has he shown weakness or a failure to live up to a high standard as a citizen. Everybody knows these truths about Mr. Pender, and realizes that a man of his force and ability would be invaluable at Ottawa. He knows St. John's needs and possibilities as few men know them, and he is determined to all that lies in his power to forward the city's interests.

Mr. Pender is a positive force. Dr. Daniel is a negative quantity. Mr. Pender will go to Ottawa as an influential supporter of the Laurier government which will continue to give Canada good government for the next five years. Dr. Daniel can be of no use to St. John. He is out of touch with its ambitious spirit—and worse, his party is going to be in opposition. Mr. Pender represents divine force. He is worthy of an immense majority. He will get things done. The outlook for Mr. Pender's election by a majority of 500 or 600 is excellent. Every day adds to his strength.

MAYES—HAZEN
Day after day the public has waited for an explanation from the Premier of this province. Hon. Mr. Hazen can no longer afford to remain silent. He read the Mayes "affidavit" at a public meeting, and his support lent to the charges a vogue and an importance they could not otherwise have gained.

Now, today Mr. Hazen knows, and for many days he has known, that the Mayes charges were false? He has known that the affidavit in which Mayes asserted that he paid money to Hon. Mr. Pugsley in 1907, was false. Mr. Hazen has not told the public that he knows the date was wrong and that as the date was wrong the weight of the allegation disappears.

Mr. Hazen was willing to circulate the accusation. Can he explain his failure to circulate the refutation? If he assisted, wittingly or unwittingly, in publishing the most vile slander against a Minister of the Crown, he must realize that he was in duty bound to make prompt and public amends.

Mr. Hazen owes the Minister of Public Works and the people of New Brunswick an explanation and an apology. Until he has made his explanation his position will be impossible. If he does not do it, will the public be compelled to believe that he deliberately joined Mayes in his attempt at character assassination?

Mayes—well, the people have come to know Mayes. Mr. Hazen, however, is the Premier of New Brunswick. The position is one of honor. It cannot worthily be filled by any man whose act or whose silence permits of the conclusion that he was knowingly a party to the Mayes conspiracy.

The people will expect a plain word from Mr. Hazen on this matter, and promptly. His silence has done him and his party more harm than anything else in his public career.

A MOSES WANTED
The electors hear little about Mr. Borden's Halifax platform in these days. That platform was good enough in time of peace, but in time of war the Conservatives seem to have forgotten it. The Conservative party is still in that confusion which was pointed out by a leading Conservative journal a year ago. See how and how the description of the party then fits the party today. On Nov. 18, 1907, the Halifax Herald, Conservative, which warned Mr. Borden against Mr. Foster and his like, said editorially:

"Where is the Moses to lead the Conservative party out of the wilderness of disintegration and chaotic and mob-like confusion which is now blundering along as political 'leaders' and at every step carrying the party deeper and deeper into the labyrinth of confusion. These are the men needed in the Conservative party today."

Well, they are needed today more sorely than ever. In St. John the Conservative candidates are in continual fear because they realize that the people are hearing gladly of the expansion of the port which is coming under Liberal rule. The Conservative candidates keep telling the people that there is no development ahead for St. John, that the Grand Trunk Pacific is not coming, that talk of harbor facilities in Courtenay Bay is all nonsense. But the electors see what has been done for St. John already under Liberal rule, and they are naturally ready to believe that the expansion in the future will be even greater, because the new Transcontinental will make this harbor its Atlantic terminus.

The Conservative party is facing toward the past. The Liberal party is preparing for the future, building solidly and well, spending public money where it will bring the highest value to all the people. The electors cannot wait until the Conservative party discovers its Moses. The electors know that Mr. Borden will not do that. Mr. Foster is not a Moses, that Mr. Foster, strictly speaking, is not a Moses even if he did get the "promised land" with the assistance of the Foresters' money Mr. Foster controlled.

No wonder the Conservative cause today in Canada is absolutely hopeless. Comparison of the opposition with the party of Sir Wilfrid Laurier is everywhere fatal to Conservative chances.

MR. MCDADE TO MR. HAZEN
Mr. Michael McDade pays his respects to Premier Hazen in an open letter printed on another page of this issue. Mr. Hazen's friends when they read Mr. McDade's letter—and they will read it—will agree that it leaves the Premier in a most awkward position. The Gleason newspaper, at a time when Mr. McDade and Mr. Hazen were no more friendly terms, actually charged Mr. McDade with a disreputable act, alleging that he had expressed his willingness to sell to the Hazen party certain secrets of the Liberal leaders with whom Mr. McDade had enjoyed confidential relations for nearly a generation.

Everyone who knows Mr. McDade would know instantly that the Gleason's charge was false, and deliberately so. Mr. Hazen knew it. Yet, as Mr. McDade truly says, if Mr. Hazen did not write or inspire the accusation, he at least did not take steps to have the slander withdrawn as he could easily have done.

Mr. McDade now warns Mr. Hazen that he will strike back, and strike hard, unless he receives decent treatment from those to whom he has accorded it and from whom he has every right to expect it. Mr. Hazen will discover that Mr. McDade is in a position to exact fair play, or to repay injury with interest if it comes to that.

A CONSERVATIVE FICTION
The Conservatives have no good issue in this campaign, so they strive to manufacture something with which to deceive the people. The Toronto Globe directs attention to a particularly clear case of deliberate dishonesty on the part of the

Borden newspapers and campaign orators. It says: "Conservative speakers and Conservative journals are still reiterating the absurd statement that members of the Government, for the purpose of deceiving Parliament and the people, estimated in 1903, that the cost of constructing the eastern division of the National Transcontinental Railway would not exceed thirteen million dollars. One of the most recent promulgators of this fiction is Mr. E. B. Osler, who should be above resorting to so childish a charge. He was present in the House of Commons when the Minister of Finance made the calculation in which the thirteen-million sum was an essential element. Mr. Fielding made his explanation so lucid that 'the warring man, though a fool,' need not err in his understanding of it, and Mr. Osler is in financial matters no fool. He and others may find the whole matter set out in great minuteness of detail in the fourth volume of the official 'Debates of the House of Commons' for 1903.

"Dealing with the financial side of the undertaking, Mr. Fielding put the cost of construction of the eastern division from Montreal to Winnipeg at \$51,300,000. The interest accruing on the expenditures during construction is to be added to the cost of construction to make up the amount on which the Grand Trunk Pacific Company is to pay three per cent. per annum. This accumulated interest he estimated at an amount which would bring the total capitalization up to \$54,690,576. As no rental is to be paid for seven years after the road is completed, this exemption is equivalent to a subsidy of \$11,468,630, the present value of which would be \$8,853,504. By a similar calculation the present value of the interest to be paid for seven years by the Government on the western division is found to be \$2,254,575. In like manner the present value on the Government's share of the Quebec bridge is ascertained to be \$324,246. These three payments amount to \$11,512,325. This amount Mr. Fielding increased to \$13,725,706 by adding twenty-five per cent. to the cost of constructing the eastern division, so as to be on the safe side.

"It is perfectly clear to even a man unversed in finance that Mr. Fielding meant to include in the thirteen million dollars and how he arrived at his estimate, Mr. Osler knows perfectly well that it does not represent the total cost of the eastern division, for on that the Grand Trunk Pacific Company is to pay interest or rental at three per cent. It does not even represent the total amount to be allowed by the Government to the company as unpaid rental for seven years. It represents the present value of that unpaid rental after the completion of the road. Mr. Osler knew all this when he stopped to traverse Mr. Fielding's statement the other evening. All the Conservative journalists understand this perfectly well, and they circulate the falsehood knowingly and deliberately. Mr. Osler should leave this task of falsification to them."

VICTORY ALL ALONG THE LINE
Two days more, and then the battle of the ballot. What thoughtful man doubts the result? Every day since the campaign opened has deepened the widespread conviction that Sir Wilfrid Laurier will be returned in triumph. There is no doubt about it. Men argue about the size of his majority. They take it for granted that he will win. To-day, just before the battle with the campaign all over but the shouting, close observers of the situation believe Sir Wilfrid will have a great majority as he had before the House was dissolved—68. He may have more. The sure thing, the conspicuous fact in the situation at this moment, is that he will have enough, that the people of the Dominion will give the grand old chieftain another five years of power to finish his work, to carry forward the policies that are making Canada great, happy, content.

The electors of St. John and the Province of New Brunswick are convinced that the Liberals are certain to triumph. Sir Wilfrid's trusted lieutenant in New Brunswick is Hon. William Pugsley, who entered his cabinet as head of the great department of public works after the election of Hon. Mr. Pugsley was not opposed at that time because even the most narrow of his political enemies knew that the powerful support at Sir Wilfrid's right hand would rebuke any attempt to defeat him.

Well, as St. John's representative hon. Mr. Pugsley soon demonstrated that he is the best friend this city and county have ever had in Parliament. He has not only the will but the power to serve the people. Some people have said that Hon. Mr. Pugsley is a plunger, that he has large ideas. To-day the people of this constituency are thankful that he is big enough, and strong enough, to demand for St. John harbor such development as it will need in order to handle the great traffic that is coming.

St. John knew what it was doing when it sent Dr. Pugsley to Ottawa by acclamation. It has had abundant reason to congratulate itself upon the choice it made. Today there is more reason than there was fourteen months ago to elect the Minister. He has proved his worth. We know what he has done, and he has explained his plans for the further development of this harbor. St. John electors, regardless of party, are anxious that these great enterprises should go forward. They know that the government will be sustained. They see the wisdom of keeping St. John in line by sending the Minister of Public Works and his sterling colleague, Mr. Pender, to Ottawa, at the head of a big delegation of Liberal members from the other New Brunswick constituencies. Looking at the situation as it stands to-day, the election of Hon. Mr. Pugsley and Mr. Pender by rousing majorities may be predicted with the utmost confidence. St. John will vote for St. John.

Mr. Hazen and the Standard have some other feebly asserted that the Conserva-

tives will get a majority of the New Brunswick seats. They have scarcely said it above a whisper, probably because they do not care to father so obviously foolish a statement. They do not name the seats they expect to carry. To name them would be to expose at once the hollow-ness of the bluff.

There is no constituency in New Brunswick in which the Conservatives are sure of electing a candidate on Monday, none in which they have any confidence of victory. They hoped that in two or three counties they will be successful, but the progress of the Liberal campaign during the last ten days has reduced that hope to small proportions.

On the other hand the Liberals have an excellent chance of carrying all of the thirteen seats and giving Sir Wilfrid a solid delegation. The North Shore is Liberal all the way, in some of the North Shore counties have the opposition even a fighting chance. In Westmorland the Liberals expect a majority of 1,200 to 1,500 for Hon. Mr. Emmerson. In Kings- Albert the tide has been steadily setting against Mr. Fowler, and the great joint debate revealed him to his constituents as a man frantic in the face of defeat. Dr. McAlister will have a majority in Albert as well as in Kings. In Carleton and Queens-County there is practically no doubt about Liberal victory. In Victoria-Madawaska, Mr. Michael's election is now merely a matter of going through the formality of casting the votes. His opponent has not a ghost of a show. In Charlotte Mr. Todd and his friends have conducted one of the most stirring campaigns in the history of the county. All signs there today point to the defeat of Mr. Gagnon. In York, where a month ago the Conservatives were ridiculing Mr. Brown's chances, the fight has waxed so warm that the Croquet forces are on the defensive. In the face of the uprising of the people in Mr. Brown's support his success is now regarded by his friends as certain. York's fight has attracted much attention, and victory for Mr. Brown is hoped for by Liberals all over the province.

New Brunswick will stand by Laurier. His policies mean development and prosperity for the province. Hon. William Pugsley will go back to Parliament with the strongest Liberal delegation this election ever sent to Ottawa.

"BOMBHELLS"
Certain Conservatives have been spreading a story to the effect that another "bombshell" is to be exploded. The story has been told for a week past, but the explosion has been delayed, presumably because the manufacturers of the bomb have found the process difficult and dangerous.

The public, having the Mayes "bombshell" in mind, and realizing how reckless and unscrupulous certain of the Conservative leaders have become in their despair, will know how to regard the next output of the Mayes-Baxter-Hazen bomb factory.

The casualty list due to the last explosion is made up wholly of Conservatives. Excepting Mayes, who is in a class by himself, the most conspicuous victim of the disaster is the Premier of New Brunswick. We quote in another column an article from the Toronto Globe, in reference to the Hazen-Mayes partnership, in which a terse and forcible summary of the case is given; and it is that the man who is beset by the Mayes business is not William Pugsley, but J. D. Hazen. The Globe says Mr. Hazen is beset by himself, the most conspicuous victim of the disaster is the Premier of New Brunswick. The Liberal party and the Liberal principles are broad enough to give to all people and races an equal measure of justice, liberty and light.—Sir Wilfrid Laurier.

"Talk of reformers! It is neither Mr. Bergeron, nor Mr. Monk, nor Mr. Foster, nor Mr. Borden who will act as reformers but the Liberal Government, if reform is needed."—Sir Wilfrid Laurier.

"The Conservative party," says the Manitoba Free Press, which speaks for the West, "never for a moment in the present election has had so much as a fighting chance of winning."

There is no little joy in Kings-Albert over the trimming Mr. Fowler received at the hands of Mr. Carvell. Mr. Fowler is headed for private life. Kings-Albert wants a better man at Ottawa.

In the whole Dominion if all the Liberal seats which were won by majorities of less than 100 in 1905 were now gained by the Conservatives, Sir Wilfrid Laurier would still have a majority of forty-one.

"I am a Liberal of the English school. My political ideas and ideals have been entirely from such men as Burke, Fox, Gladstone, Bright and Daniel O'Connell."—Sir Wilfrid Laurier.

"All I ask is time to enable me to complete the work upon the fulfilment of which I have set my heart. . . . Give me that time, and I ask no more of you, electors of Canada."—Sir Wilfrid Laurier.

"Truly the country which would place its hope of political and moral reform on such an unstable support as Mr. Foster would find their confidence grievously misplaced."—Sir Wilfrid Laurier.

Mr. Pender would be an influential man in Parliament, a strong representative supporting the government that is building up Canada. What better investment can St. John make than sending him to Ottawa in place of Dr. Daniel, who has done nothing and who can do nothing?

Young Mr. MacRae went to Mr. Pender's establishment in search of votes yesterday. This is well. If all of the voters in the city and county could come into personal contact with the junior Conservative candidate he would not get a handful of votes in the whole constituency.

NOTE AND COMMENT

They can't beat Laurier. Mr. Fowler grew frantic. No wonder. Pugsley—MacRae—Compare them. That's all.

Vote the Liberal ticket and watch the growth of Greater St. John.

On Monday St. John will express its opinion of slanders and blackmailers.

Progress is the Liberal platform. The Conservative appeal is merely partisan.

Vote for St. John. There is only one way to do that—elect Pugsley and Pender.

The fight is about all out of the Conservatives. They know they are going down under the popular wave on Monday.

"The mentality of the Opposition is so weak that they have been driven to seek inspiration in the gutter."—Sir Wilfrid Laurier.

Foster, Fowler, Pope, Lefurgy, Bennett—Mr. Borden's thrifty friends—are not going to become cabinet ministers this year, or next.

The Winter Port after five more years of Liberal rule will be a great centre of traffic. Vote for the men who will give St. John full justice.

ever was so universally looked on as fulfilling that description." Stand by the nation builder. Laurier is going back. Monday will bring the greatest Liberal triumph in our history. The election by acclamation in Rouville of Hon. L. P. Brodeur, Minister of Marine and Fisheries, is the answer of Quebec to the Tory campaign of slander against him. This is a forerunner of the storm that will smash the slanders on Monday next. The hearty applause that greets Mr. Pender at every meeting and the hundreds in every ward who are eager to assist him mean that he will lead Dr. Daniel in almost every part of the city. Dr. Daniel has little faith in St. John. Mr. Pender has much faith and he proves it. That's the difference.

Don't forget that had the Liberals not put over \$27,000,000 into the N. T. R. construction in the last four years—a work that is of vast advantage to Canada, and which is already leased to provide a revenue—the public debt, instead of being increased at all, would have been reduced by \$7,000,000 below the amount at which it stood when the Tories left office!

A whole lot of property will go up in price when St. John harbor is fully equipped. No wonder all classes of citizens frown upon the Conservatives for throwing cold water on the Courtenay Bay project. More steamers and more railroads mean more traffic, more employment, more revenue, better times. Vote for the forward policy.

The Standard predicts a Conservative victory. If the Standard told its readers what the outlook really is, the rabid Conservatives wouldn't have it as a gift. The government will have an immense majority—somewhere between fifty and seventy. Then the Standard will go out of existence for about four years.

ROUSING MEETING HELD IN SHEDIAC

Crowd to Hear Mr. Pugsley So Great That Speechmaking Had to Be in Open Air.

On Wednesday afternoon a great Liberal Rally was held in Shediac and so big was the gathering to hear Hon. Mr. Pugsley, minister of public works, Hon. Mr. Emmerson and the other speakers, that no building would hold them, and the meeting was held in the open air in front of the Walden House.

The speakers were Hon. Mr. Pugsley, Hon. H. R. Emmerson, Mr. Leger and Mr. Copp and all were given a hearty reception which means a big vote for Hon. Mr. Emmerson on Monday.

Hon. Mr. Pugsley "These men stand at a bar of public opinion and I charge them wilfully slandering me and the Liberal Party, and it is for you people to say on the 26th whether you approve of such tactics."

No Doubt About Loggie's Election.

Newcastle, N. B., Oct. 22.—There will be a great Liberal rally here tomorrow night in the Opera House where addresses will be given by J. D. Phinney, K. C., A. B. C. Copy, M. P. P. W. S. Loggie, and others. There seems no doubt that Loggie will be elected in this county.

There are about twenty-five houses in Edmoustone quarantined for smallpox. Only one new case developed on Wednesday.
