Rev. Father Michel, O.M.I., has returned to Prince Albert.

Rev. Father Viens, curate at the Cathedral, went to Manitou for last Sunday services.

His Grace Archbishop Melizan, O.M.I., left Marseilles for Colombo, Ceylon, on September 26th.

The Very Rev. Vicar General, Father Allard, O.M.I., habitually resides at the palace during His Grace's illness.

Not Uncommon Pride.—"He's a very modest man, isn't he?"  
"Yes, indeed; he rather prides himself on that."

The Rev. Father Augier, O.M.I., reached Marseilles on September 13th after his prolonged visitation of the houses of the Oblate Fathers in Ceylon.

Owing to Rev. Fr. Cherrier's bad cold, Rev. Father La Rue, S.J., sang High Mass at the Immaculate Conception last Sunday and Rev. Father Drummond preached in the evening.

It is rumored that the Most Rev. Placide Louis Chapelle, D. D., Archbishop of Santa Fe, is to be transferred to the archiepiscopal see of New Orleans. The rumor lacks confirmation.

His Eminence Cardinal Logue, speaking recently in Donegal, said that in Ireland they were ruled not by the Queen of England, not by the ministry of England, but by a small clique in a corner of the North of Ireland, who rejoice in the name of Loyal Association of Orangemen."

Both Mr. Nicholas Guillette and Mr. Ernest Molloy, a former student of St. Boniface College, were severely burnt while fighting prairie fires at Fannystelle, and are now doing well at St. Boniface Hospital. Young Molloy deserves great credit for the bravery he displayed in trying to assist Mr. Guillette.

In July last the Catholic News of New York raised its subscription price from one to two dollars, alleging that the former price was not sufficient to meet expenses. Several other Catholic papers highly approved this course as absolutely necessary. It was even said that the Catholic News had snuk \$50,000 in the attempt to keep up a dollar paper. After all this fuss, in its issue of Sept. 20th, the Catholic News now announces that, in compliance with a large number of letters from the clergy urging the restoration of the former price as a means of ensuring a wider circulation of Catholic ideas, it reverts to the one dollar subscription. We wonder what the defenders of the necessity of the two-dollar move will say now. But it was undoubtedly a good advertising dodge.

The new Catholic church of Gretna, Man., was solemnly dedicated on the 3rd inst. by the Very Rev. Father Allard, O.M.I., V.G., assisted by Rev. Father Woodcutter, the pastor and the Abbe Garon. The Vicar General preached in English and French, and the pastor in German, the congregation being largely made up of Germans. Both the church and the priest's house are a credit to the enterprise of Gretna Catholics. Father Allard, representing the Archbishop, was very well received by the people of the town, in whose name Mr. Michael Long, the banker, read a fine address of welcome.

Dempsey Waggy, a farmer of Madison county, Indiana, is growing Indian corn from seed that lay for about three thousand years in hermetically sealed jars lately unearthed from prehistoric mounds. The average yield will be about 250 bushels to the acre.

In Kearney county, Kansas, where the drought, the frost and the chinchbugs killed the wheat, several farmers are now raising watermelons for seed alone, the rind and pulp being treated as refuse. The profits are from two to five times greater than could be realized from any other crop in that dry country. By a providential dispensation the arid soil produces from 20 to 50 tons of melons per acre, and scientists tell us the melons are 99 per cent. water. Other farmers in Kansas are using Indian corn for fuel, finding it cheaper, easier and cleaner to handle than coal.

High Living.—On Oct. 2nd, while workmen at Binghamton were removing the spire of St. Patrick's Church, 255 feet from the ground, they found a large colony of mice nesting at the base of the gilded cross, whither neither cats nor dogs could enter.

Judge Ryan, of Portage la Prairie, spent Sunday in Winnipeg and attended the Church of the Immaculate Conception in the evening.

Brother J. M. J. Mullvihill, O. M. I., lately received quite an ovation at St. Laurent, Man., on the occasion of the 25th anniversary of his vows as a religious. And richly does he deserve the gratitude of the Laurentians. For it is he who built their fine stone church and collected the money therefor from his many friends in Canada and the United States, and he is now collecting other funds for the new convent soon to be built at St. Laurent. Then, who in northern Manitoba has not heard of the wise and influential mayor of St. Laurent, Brother Mullvihill? So Rev. Father Camper, O.M.I., was right when he, from the pulpit, congratulated the devoted Brother on his silver jubilee, and wished him, as we do, the happiness of celebrating his golden jubilee 25 years hence.

Speaking in St. Bridget's Church, Montreal, Archbishop Bruchesi said he would insist on the proper observance of Sunday. There was a tendency to make the Lord's Day man's day, a day of amusement.

At the last meeting of the Board of Studies of the University Rev. Fr. Cherrier was unanimously re-elected Chairman of the Board. This is the fourteenth or fifteenth year he has received from his colleagues this mark of confidence.

Rev. Father Chartier, S.J., Rector of St. Boniface College, took charge of the Catholic services at Portage-la-Prairie last Sunday.

Monsieur le Baron Louis de Galembert, who has spent two years in Manitoba, left for St. Paul last Saturday.

Professor Roentgen, who discovered the X-ray, has not yet discovered that the laws of the Church are a danger to health. The Pilot says that not only does he abstain rigidly on Friday, but he also keeps Saturday as a day of abstinence in honor of the Blessed Virgin.—A.V.E.M.A.R.I.A

This morning at nine o'clock Very Rev. Joachim Allard, O.M.I., V.G., sang a Requiem Mass at St. Mary's Church for the late Superior General of the Oblates, Very Rev. J.B.L. Soullier.

Rev. Fr. Cherrier, who has been conducting a mission at St. George, Illinois, returned to the city on Friday. He could safely state, he said, that the French-Canadian resident there have retained the good habits they acquired in their native land. Illinois is suffering from drought, but the crops were good this year. The farmers are all well off, and appear to be satisfied. The heat was extreme in the day time, and the nights cool, and nearly every one had a cold; Father Cherrier is suffering from the effects of one at the present time.—Free Press.

Mr. F. W. Russell returned from Deloraine last Saturday.

Now-a-days nearly every woman rides a bicycle. The majority of these who do not, have failed to compass its difficulties because of nervousness. Many women after taking innumerable lessons, and trying vainly to conquer the wheel for weeks, have finally given it up as a hopeless task for this one reason.  
In nearly every instance severe nervousness in women may be traced to weakness and disease of the delicate and important organs distinctly feminine. No other class of disorders so torture a woman's nerves or break them down so quickly and effectually. Dr. Pierce's Favorite Prescription is a sure, speedy and permanent cure for all troubles of this description. It acts directly on the sensitive organs concerned, making them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. It stops exhausting drains. It banishes the indispositions that precede maternity and makes baby's advent easy and almost painless. It insures the little new-comer's health and an ample supply of nourishment. It transforms weak, nervous invalids into strong, healthy, nerve-steady women. Thousands have testified to its marvellous merits. An honest dealer will not offer a substitute.

"My wife was troubled with 'female weakness' for several years," writes James Caswell, Esq., of Ocheilree, Johnson Co., Kans., (P. O. Box 61). "she had bearing-down pains and pain in back. Her periods were irregular, she would have fainting spells, the best doctors did her no good. By the time my wife had taken four bottles of the 'Favorite Prescription' she was completely cured. No more pain. Her monthly periods are regular, she is stout and strong. When she commenced taking your medicines she weighed about 125 pounds—now she weighs 160 pounds."

Send 31 one-cent stamps, to cover cost of customs and mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., for a paper-covered copy of Doctor Pierce's Common Sense Medical Adviser.—Cloth binding 50 cents. A whole medical library in one 1000-page volume.

In proportion to the number of its pupils, St. Boniface College...

**Has Won...**

**—More Scholarships**

Than any of its Protestant Competitors.

Read the following extract from the Northwest Review, July 8th, 1897:—

The students of St. Boniface College came off with even more than usual success. They captured the two scholarships for Greek, Achille Rousseau, of the previous year, winning the coveted \$40 over 26 competitors from his own and other colleges, and Jean Arpin the corresponding \$25 in the Preliminary over twenty competitors. As our candidates numbered only eight against forty from three other colleges, this double victory redounds greatly to their credit. Moreover Achille Rousseau was fourth out of seventy-seven in Latin and Algebra, Antonin Dubuc was first out of one hundred and thirty from St. Boniface, Winnipeg, Portage la Prairie, Brandon and Regina, in the Latin of the Preliminary. The French and History scholarship of \$50 in the Previous was won by Fortunat Lachance. In the Latin course of Mental and Moral science, Marius Cinq-Mars took his B. A. degree with first class honors and the Silver Medal, while Noel Bernier and E. J. Golden divided the two scholarships in the Junior B. A. year, receiving \$100 each. The only other student in this year, Gustave Hecout, obtained first class marks in the Honor papers of Latin and first out of thirty-three in Physics. Not one of the St. Boniface men failed in anything.

Always arise from particles of corrupt matter deposited in the air-cells, by impure blood. Purify that stream of life and it will very soon carry off and destroy the poisonous matter, and like a crystal river flowing through a desert, will bring with it and leave throughout the body the elements of health and strength. As the river, leaving the elements of fertility in its course, causes the before barren waste to bloom with flowers and fruit, so pure blood causes the frame to rejoice in strength and health, and bloom with unending beauty.
