

WOLLASTON LAND

VICTORIA LAND

CHART
of the
ARCTIC COAST,
examined by
J. RAE
in Spring & Summer
1851.

If Bays rivers are colored...
The Coast which he discovered
in 1847 is colored...

From C. Hamilton to C. Baring...
rough ice of previous years forms
here along the shore, particularly
between C. Baring & C. Baring.

In Summers of 1848 & 49 the Flood hills at
C. Hamilton appeared to arise from S.E.
caused to be supported by the Dunes and
Dolphin Straits being observed with her.
