THURSDAY, NOV. 7.

## A SATURDAY MARKET.

The farmers who are accustomed to come to the Chatham market are hereby notified that next Saturday, Nov. 9, will be a market day in this city, and business will be done as usual. The celebration of the King's birthday anniversary has been postponed until the following Monday. The merchants' stocks are full, and it is the buying time for winter goods. Bring in your produce Saturday, get your winter goods and go home happy.

## THE CENTRAL SCHOOL.

The teachers and students of the Central School have been actively engaged in their spare moments for some weeks past in preparing an enjoyable concert program to be presented to their friends and parents at the Grand Opera House to-morrow evening. They have been diligent and painstaking and the result has been the completion of an excellent series of attractions which will contribute to the completeness of one of the best concerts ever presented in the Maple City.

The citizens should make it a point to encourage this commendable effort by an exceptionally liberal patronage. The promoters well deserve it and the program merits it.

And it is, perhaps, not out of place here to pay well deserved tribute to Mr. J. W. Plowes, the energetic and able principal of the school. The regime of this young and vigorous educationist has been marked by the rapid progress and splendid development of the school, and its present high standard of efficiency is, we believe, largely attributable to his earnest efforts and those of his loyal staff.

The Planet congratulates the principal, the staff and the students of the Central School on what has been accomplished and bespeaks for their annual entertainment to-morrow night the success it so well deserves.

## THE CURLING CLUB.

The Maple City in her illustrious history has been the possessor of many splendid athletic institutions and associations which have done her credit and brought honors within her walls.

No organization has done more in this respect than the Curling Club, the membership of which includes many of our best citizens. These stalwarts of the stone and beam have steadily acquired strength and skill which has brought them provincial recognition and heralded the name of Chatham in the honor rolls of various associations.

For the past few seasons the club has located its headquarters at the drill shed, where many improvements were made and an excellent rink provided. It is to be regretted that the necessities of the militia have occasioned an abandoning of this ideal locality, but the curlers of Chatham have made-up by an early reorganization and the taking of immediate steps to procure other and, if possible, even more advantageous quarters.

In their efforts they should secure the hearty endorsement and support of the citizens at large. A permanent rink is almost a necessity in Chatham and the curlers will prove public benefactors in erecting one.

Every one should lend a hand in pushing the project along.

## THE SCRAP IRON ASSESSMENT.

Three judges have decided that Hon. J. M. Gibson's alleged appeal of the Scrap Iron Assessment Act is not worth the paper that it was written on. By their decision the corporations throughout the province are relieved of their just share of taxation. In the city of Toronto alone \$40,000 will be struck off the tax bills of

the Street Railway Co., Telephone Co., and Electric Light Co., and the burden shifted to the shoulders of the taxpayer.

The history of the Ross Government's legislation on the assessment question is the history of a shameless betrayal of public interests to corporation greed. Usefulness is rightly regarded as the essence of value in determining the amount of which any property shall be assessed. A man owns a farm. The assessor assesses that farm according to its degree of usefulness as a farm. A store, a factory, or a every stable is likewise set down according to its usefulness, or in other words, for what it would bring "as payment of a just debt from a solvent debtor." Corporation wealth, according to the law enacted by the Ross Government, is assessed on a different basis. Uselessness, not usefulness, is made the essence of value. Instead of the plant of a telephone, electric light or street railway company being set down according to its value for the purpose for which it is used, the assessor is directed to assess the poles according to their value as firewood, and the rails and wires as scrap iron.

Against this injustice many protests were entered. The Ross Government was prolific in promises of relief, but nothing was done. Finally, at little over a year ago, the Premier appointed a commission to enquire into and report on the whole Assessment Act. Early in the last session that commission brought down a preliminary report in which it recommended the enactment of a measure to remove the scrap iron injustice. The Premier, unable to ignore the recommendation of his own commission, brought in a bill in harmony with its report. That bill adequately met the grievance that the people complained of, placing, as it did, the property of corporations on the same level as regards assessed value, as the property of private individuals. But the conversion of Mr. Ross was short-lived. (Before the session ended he withdrew the bill and in its stead Hon. J. M. Gibson introduced the farcical measure through which three judges have now driven a coach and four.

At the time, the Conservative Opposition pointed out the uselessness of the Gibson bill. Mr. Foy introduced a bill framed on the lines recommended by the Assessment Commission. In moving the adoption of this measure the member for South Toronto plainly showed the Government's proposed relief was no relief at all, that instead of the property of any corporation in the city of Toronto being assessed in six heaps, it would be assessed in one heap. The decision of the court is an affirmation, complete and unassailable of the capacity and public spiritedness of Mr. Whitney and his followers.

The judgment handed out on Saturday only accentuates the total subservience of the Ross Government to the corporations. The Assessment Commission's bill would have amply safeguarded the people's interests and inflicted no injustice on the corporations. But the corporations took the Government by the throat, forced it to abandon all serious effort at relief and make a farce of the whole business by fathering the measure that has now been laughed out of court. It is surely time that this condition of affairs was changed. Every day seems to bring forth new evidence of the faithlessness and unscrupulousness of the Ross Government. That Government has been digging its own grave wide and deep, and in the interests of the Province and the interests of the Liberal party itself, the electorate should see that the funeral obsequies are fittingly carried out.

## HOPEFUL VIEW

The hopeful view consumptives take of their own cases is strongly in their favor. Each year is showing a larger percentage of cures.

One of the best reasons for good hope is the record of Scott's Emulsion as a medicine for consumptives. So long as the system is strong enough to use medicine of any kind it can use Scott's Emulsion.

The reason for its helpfulness in this disease is because of its long tolerance by the patient; one does not tire of it as quickly as other medicines and that is where the great benefit comes.

**Scott's Emulsion**  
It is especially used monthly by over 10,000 ladies. Safe, effective. Ladies, take no other, as all medicines, pills and tonics are dangerous. Price, No. 1, 11 per cent. No. 2, 10 per cent.
