

well as in Canada. It is a disease that is spreading very rapidly, and it will only be a very short time when, in discussing European foul brood, we will have to say it is found in every State of the Union, and in every county, unless some steps are taken to stop it.

Mr. Holtermann—Have there been any reports made to Dr. Phillips at Washington from any other part of Ontario than the one he corresponded with Mr. Byer about?

Dr. Phillips—That is the only one.

Mr. Holtermann—I think our Ontario government is making a mistake. This disease was only in one or two apiaries, and now it covers ten miles square or more. I think between the Provincial and Dominion Government they should at once stamp out every single apiary where this disease is found.

Mr. McEvoy—Do you treat it at all, Mr. Wright?

Mr. Wright—I have cured it.

Mr. McEvoy—Without burning?

Mr. Wright—Yes.

Mr. McEvoy—That is all right. Now, Mr. Byer, you are mistaken.

Mr. Pressler—Mr. Wright has stated that the dread of American foul brood is not as great as it was years ago if we know how to handle it. The people of New York State, especially Mr. Wright, have had considerable experience with black, or European, brood. Do you dread it as much to-day as you did three years ago?

Mr. Wright—Both diseases are bad enough, but Mr. Byer need not dread even European foul brood.

(To be continued)

You Can Heal Your Lungs At Home

DON'T give up hope.

Don't go away from home to die.

Don't ruin your stomach with useless "dope" and patent medicines.

Your lungs will heal themselves—as readily as a cut on your finger heals—if you give them a chance!

What they need is more oxygen—more pure air—and Lung Food to help destroy the most malignant germs of the disease.

All competent physicians today recognize that God's pure air is the first and last requisite in the treatment of all diseases of the lungs.

Our method of treatment—which has been successful in hundreds and thousands of cases—discards drugs, and invigorates and develops every cell of the lungs, and at the same time destroys the germs of disease in the affected cells by the aid of Lung Food, and allows Nature to heal them. Our LUNG BATH carries life-giving oxygen to every cell of your lungs, and increases your lung capacity from the first day of its use. Prominent physicians endorse the Lung Bath as the only rational method of combating the Great White Plague.

WILL YOU TRY IT?

Ask for pamphlet and testimonials.

Describe your own case.

Write today for particulars.

LUNG BATH MFG. CO., "Suite 131," 23 Scott St., TORONTO, ONT

When writing, mention CANADIAN BEE JOURNAL.

WE want every consumptive, and every person with tendencies toward consumption, to try the LUNG BATH.

At the worst it can do you no harm, and it may save your life.

It has never failed in a single case in which the patient had vitality sufficient to keep him alive for 90 days. Further than this—it has enabled over 90% of these same people who had vitality to live for only 30 days to cure themselves at home. If you can live a month, you have 9 chances out of 10 of getting well. These are results—not theory.

Is that record not worthy your investigation? Is a treatment with such a record not worthy a trial?

We will meet you more than halfway, for, though the treatment is inexpensive—we will guarantee improvement from the first (in the first 30 days), or refund your money.

You do not incur the slightest expense unless you and your friends see benefit and improvement. Your physician, if he is familiar with modern practice in the treatment of pulmonary tuberculosis, will endorse the Lung Bath and its use.

Remember it is not a medicine, but a natural method of invigorating and developing the lungs.
