# Prove the "BISSELL" by its work

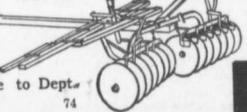

Do the gangs on your Harrow crowd together and raise out of the ground if it is hard? They won't do this on the "Bissell." The "Bissell" is so designed that THE GANGS CAN'T CROWD OR HUMP together no matter how hard the ground may be. Tough soil won't stick the "Bissell." It stays right down to its work and pulverizes the ground thoroughly.

We ask you to take a "Bissell" out into the field and test it beside other Harrows. Then you

will have PROOF that it is a SUCCESS ON HARD LAND—THAT IT PULVERIZES THE BEST—and that it is the lightest draught.

Post yourself fully on before buying. We put our name on every Harrow so that you will know it is genuine. Ask your local dealer, or write to Dept. R for free Catalogue.

Harrow

**T. E. Bissell Company, Limited, Elora, Ont.**

N.B.—This year the "Bissell" Exhibit of Disk Harrows and Steel Land Rollers will be grouped with the Jno. Deere Plow Co. Farm Machinery, at the Toronto Exhibition. Friends of the Bissell Company will remember the Location.

## MARKET REVIEW AND FORECAST

Toronto, Monday, August 18.—Ontario is almost dry, but no general fall. The eastern counties in particular are suffering. Corn is withering and the root crops are making no growth. In fact the only good feature of the crop in this situation is that it is excellent for harvesting the grain crop. In the more easterly provinces there has been more rain and crop prospects continue good.

In business circles there has been a marked improvement during the last few weeks, due largely to the stimulus of reports of good crops in the Canadian West. Money, however, is still tight. Perhaps agricultural implement men are feeling the effects of tight money more than any one else.

### WHEAT

Heavy wheat crops will be harvested in both the United States and Canada. Prices, however, are not taking the usual dip that precedes a great crop. This is probably largely due to the firmness of the corn. The weather is hot and dry over the entire corn belt of the United States, and it is estimated that the crops will be as much as 400,000 bushels short of what was predicted in earlier reports. Corn is receiving more attention from speculators than is wheat. There is little Ontario wheat offered at present, but Ontario wheat offers are set. Quotations are as follows: No. 1 Northern, \$1.01; No. 2 90c; No. 3 86c; wheat, 65c; Ontario No. 2, 90c to 95c, ranging down to 76c; new wheat 50c to 55c.

### COARSE GRAINS

There is some demand for Western oats and a little has changed hands. Otherwise the market is very quiet. American corn shows the stiffest advance in the last week, but there is little of either sold. We quote as follows: Oats, C. W. No. 2, 39c; No. 3 and No. 4, 36c; 39c; Ontario No. 2, 36c to 36c outside; corn, 70c; barley, 55c to 55c; buckwheat, 55c to 55c; rye, 60c to 62c; peas, 90c to 90c. Montreal dealers quote: Oats, C. W. No. 2, 40c to 40c; extra No. 1, 40c; No. 3, 36c; corn, 70c to 80c; malting barley, 65c to 65c; feed, 50c to 55c; feed wheat, No. 2, 75c; buckwheat, 55c to 60c.

### MAY AND STRAW

The hay crop is about all gathered in the far eastern provinces, and a fair to average crop is reported. Taking Eastern Canada as a whole, hay dealers estimate the crop at two-thirds of an average. A few are pessimistic enough to place the figure at one-half of an average. It is strange that with such a short crop speculators have not already been on hand to boost prices. If anything, however, hay is weaker to-day than it was a week ago. There is little demand, either from local dealers or from the Old Country. Quotations here are: No. 1 old hay, \$15.50 to \$14.50; No. 2, \$11 to \$13; No. 3, 88c to 89c; new hay, \$12 to \$13; baled straw, 40c to 46c. Montreal there is an improved tone in the market, as little hay has been coming in from the country. It is fairly quoted \$13.50 to \$14; No. 2, \$11 to \$13.50; No. 3, \$9.50 to \$10.

### EGGS AND POULTRY

There has been somewhat of a slackening in the demand for eggs recently. Extreme warm weather is having its effect on quality and fruit can be had so cheap that people prefer to buy them fresh. Hens are still quoting at 24c to 25c; fresh,

100,000 APRONS

15 CENTS EACH

STANDARD GARMENT CO.

10 STANDARD BUILDING, LONDON, ONT.

20c to 21c; and seconds and apple, 16c to 18c. Similar reports are being received from Montreal. Dealers there are quoting 30c in the country.

Crossed with quotations are as follows: Fresh killed fowl, 15c to 16c; live fowl, 14c to 15c; dressed spring chickens, 35c to 36c; live, 15c to 16c; ducks, 15c to 16c; turkeys, 45c to 50c.

### POULTRY AND BEANS

New potatoes now have the monopoly of the market and are coming in in large quantities. Quotations are: whole sale, \$1.10 a bush; new Virginia potatoes, \$1.20 a bush.

Beans are quoted locally at \$17.50 to \$18 for primes and \$23.00 to \$23.50 for hard picked. Montreal quotes three-pot pickers at \$16.50 to \$17.00.

### DAIRY PRODUCE

Produce men are beginning to wonder when the decline in receipts will cease. Dry weather is having more and more shrinkage of the milk field, and wet milk that might otherwise be made into butter and cheese is necessary for the more insistent demand for cream. Some predict that if we do not have more soon there will be a butter famine this winter. Wholesale dealers quote as follows: Cream, 10c to 11c; butter, 15c to 16c; solids, 54c to 55c; inferior, 15c to 16c. These quotations are for a new milk. Live stock, 14c to 15c; old time, 15c to 15c; large, 15c to 16c.

### LIVE STOCK

The live stock situation is unchanged. Every market of the week has been characterized by light receipts, good quality, animals meeting with fair demand and nothing more. It is still expected that in the near future there will be a shipment to the market, due to pressure from manufacturers. For the moment the demand for stockers is slow, farmers not being anxious to buy stockers since their grazing capacity is still being taxed.

An average of quotations is about as follows: Choice export cattle, \$14.80 to \$16; medium, \$12.50 to \$13.50; choice beefers, cattle, \$12.50 to \$14.00; milk cows to pair, \$5 to \$6.25; common, \$4 to \$5; choice cows, \$4.25 to \$5.00; common, \$3.50 to \$4.50; calves, \$2.50 to \$3.50; heifers, \$2.50 to \$3.50; pigs, \$3.50 to \$4.50. Few milk cows are changing hands in this market. Choice cows bring \$8 to \$12; downy and inferior, \$4 to \$6; calves are \$3.50 to \$9.25.

The week's trading in sheep, lambs, and when all stock had been bought several dealers were not supplied their lambs brought \$10 to \$12; calves \$4 to \$5.25; bucks and ewes, \$2 to \$4.

Hogs continue steady at the old low level, market quotations being \$7.75 to \$8.10 for primes; \$9.70 for heavy and \$12.50 to \$13.

The week at Montreal closed more lively and a brisk trade was done at steady prices. Good grades were in demand, choice steers selling at \$13.00 to \$14.00; quotations are: Good steers, \$10 to \$13; fair, \$8.50 to \$10; poor, \$7.50 to \$8.50; calves, \$2.50 to \$3.50; piglets, \$2.50 to \$3.50. Trade in lambs was active, but prices were not Quebec stock going at \$5.50 to \$6 and Western stock, \$6.50, ranging, \$4 to \$6. Calves ranged from \$3 to \$12.

Cowanville, DAILY MARKETS. Cows, 10c to 12c. Aug. 9.—Dewie butcheries offered 66 packages of butter, sold at 26c.

Belleville, Aug. 9.—1,654 white and colored were offered, 234 sold at 15c; 1,420 at 12c to 12 1/2c; 120 at 10c.
