

TUBERCULOSIS IN CATTLE
IMPORTANT TO FARMERS.

The following letter is sent by the Department of Agriculture at Ottawa to persons desirous of having their cattle tested for Tuberculosis, and sets forth the conditions under which the Dominion Government undertake to apply the Tuberculin Test FREE OF CHARGE.

DOMINION OF CANADA.
DEPARTMENT OF AGRICULTURE.
OTTAWA.....

DEAR SIR,—
In response to your letter of the..... I beg to say that the following are the conditions upon which the Department applies the Tuberculin test to cattle.—
When a person makes application to the Department to have his cattle tested for the purpose of ascertaining whether any of them are affected with Tuberculosis, a Government Inspector is sent to test, and all expenses in connection with this are paid by the Department. The owner must accept all responsibility for food he will have to furnish. The Government does not order the slaughter of diseased animals. No compensation will be given in case of loss. The Government does not order the slaughter of animals who owners slaughter of their own free will. If any of the animals are found to be suffering from the disease, they will have to be isolated and the shed or corral in which they are kept will be quarantined. The owner will then be prohibited from selling any of them or their raw products. Should he desire of his own free will to slaughter them and dispose of their carcasses for food he will be allowed to sell them. The premises in which diseased animals have been must be cleaned and disinfected to the satisfaction of the Government Inspector, as recommended on page 11 of the Farmer's Bulletin on Tuberculosis, a copy of which I enclose you. The premises in which diseased cattle have been quarantined will also have to be disinfected and cleaned, as mentioned above, after the animals have been disposed of. When the Minister of Agriculture receives a certificate from the Inspector that the disinfection has been done to his satisfaction the premises will be released from quarantine. No application will be considered unless the owner agrees to submit all his cattle to the test.

If an applicant refuses to have his cattle tested after having made formal application, he will be charged with the cost of the test. If a farmer's expenses may have been incurred by the Department in connection with the sending of a Veterinarian to make the tests.
Upon your signing and returning to us the attached form of request a Government Inspector will be sent to test your cattle.
Yours truly,
W. SCARTH,
Deputy Minister of Agriculture.

To.....
To the Honorable the Minister of Agriculture for Canada, Ottawa, Ontario:

Dear Sir,—I hereby request that my entire herd of cattle, consisting of—
..... Bulls,
..... Cows,
..... Steers,
..... Heifers,
..... Calves,
.....

be tested for Tuberculosis with Tuberculin, and I hereby agree to conform to the Government conditions as expressed in their letter dated..... which I acknowledge having received.....
The nearest railway station to my premises is.....
..... on the line of the..... Railway Co.,
at the station I will meet him and drive him to my premises and, when the testing of my animals is completed, will drive him back to the station free of charge.
Signed.....
Date.....
on Address.....

IMPORTANT TRUTH

FOR STOCK RAISERS.
LUMP JAW
has been transformed from an incurable to an easily curable disease. The entire credit for this wonderful result is due to
Fleming's Lump Jaw Cure.

When this remedy was discovered no other real cure was known. No other positive cure is yet known. FLEMING'S CURE was first introduced in Saskatchewan, and from there its reputation has spread over the entire continent. It is the only remedy endorsed by leading ranchers, shippers, and stock journals. It is positively guaranteed; money is returned if it fails. One bottle usually cures one to five cases.
Like all other articles of exceptional merit, it is imitated in external respects, but these imitations wholly lack the distinctive qualities of the genuine.

"RAPID-EASY" GRINDERS.

WORK OF
Best Quality; Greatest Quantity
WITH LEAST POWER.

80 lbs. of steam on "Rapid-Easy" Grinders will do more work than 100 lbs. on any other. Four horses will do as much work as six horses on other Grinders.

Mr. Valentine Fisher, Ayrton P. O., Ont., December 16th, 1898: "I purchased one of your Rapid-Easy Grinders from Mr. Koenig. The machine gives the very best of satisfaction. I ground a bag of grain in three minutes with two teams. I have not seen a machine equal to it. It runs very light."

Mr. Guy Bell, Brampton, Ont., December 12th, 1898: "I have very much pleasure in adding my testimonial to the many you already have as to the efficiency of your No. 2 R.E. Grinders. I have tested it thoroughly with all kinds of grain. It is easy running, and I can confidently recommend it as a machine that grinds better and faster than any other I have ever seen."

The Razor Steel, Secret Temper, Cross-Cut Saw

WE take pleasure in offering to the public a Saw manufactured of the finest quality of steel and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than by any process known. A Saw to cut fast "must hold a keen cutting edge."

This secret process of temper is known and used only by ourselves. These Saws are elliptic ground thin back, requiring less set than any Saws now made, perfect taper from tooth to back.

Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other Saw is as good ask your merchant to let you take them both home, and try them and keep the one you like best.

Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand.

It does not pay to buy a Saw for one dollar less, and lose 25 cts. per day in labor. Your saw must hold a keen edge to do a large day's work. Thousands of these Saws are shipped to the United States and sold at a higher price than the best American Saws.
