My New Importation of **Clydesdales & Hackneys**

Have just arrived in their own stables. I want to point out to the breeders of Ontario, Manitoba, British Columbia, that without doubt I have the best consignment of Clydesdales and Hackneys that I have ever handled. Combining size, action and quality, I think I am quite safe in saying that they are the best lot ever brought by one importer to Canada. My Clydesdales consist of stallions aged 2, 3, 4 and 5 years. Fillies aged 1, 2 and 3 years. Hackneys are 2, 4 and 5 years old. Many of them were prizewinners this year and last in some of the leading shows in Scotland and England. Parties wishing anything in my line will save money by seeing my stock and getting prices before buying elsewhere.

3 Choice Hackney Stallions for Sale.

A number of imported and home-bred mares and fillies for sale. We are booking orders for March and April pigs from our English imported Berkshire boar, Danesfield Donovan. A few Shropshire ewes for sale. We are booking orders for puppies from our Scotch Collies sire Craigmare Conqueror, dams Hollywood Rose and Ravenswood Bonnie Bell, bred by Galt & Tait, Scotland.

CLYDESDALES AND FRENCH COACHERS, IMP.

Scottish and Canadian winners, stallions, mares and fillies. The Clydes represent the blood of such noted sires as Baron's Pride, Up-to-Time, Royal Favorite, Ethiopia and Acme. They combine size, quality and action. The French Coaches are a big, flashy, high-stepping lot, and are winners in both France and Canada. Our prices are right, and our horses as good as the best. Long-distance telephone.

QUESTIONS AND ANSWERS.

1st.—Questions asked by bona-fide subscribers to the "Farmer's Advocate" are answered in this department free.

2nd.—Questions should be clearly stated and plainly written, on one side of the paper only, and must be accompanied by the full name and address of the writer.

3rd.—In veterinary questions the symptoms especially must be fully and clearly stated, otherwise satisfactory replies cannot be given.

4th.—When a reply by mail is required to urgent veterinary or legal enquiries, \$1 must be enclosed.

Miscellaneous.

BAG-HOLDER—MANURE JUMPER WANTED.

1. Give a plan for a bag-holder.
2. Also for a manure jumper, with dumping arrangement. A. B.

Ans.—1. The accompanying cut of a bag-holder was printed in "The Farmer's Advocate" about a year ago.

2. Perhaps some reader will describe a contrivance he has tried that will meet A. B.'s needs.

BLOODY MILK—LUMP JAW—OATS FOR RICH LAND.

1. Cow has given bloody milk for three days since freshening. She is in good condition, and a high-grade milker.

2. Cow has a small lump on lower jaw; seems to be quite firm, and sticks straight out from the bone.

3. What kind of oats would suit us, who have had trouble for years with oats lying down? Land is high and rolling, but mostly pretty rich. We get too much straw. SUBSCRIBER.

Ans.—1. This may be due to accidental injury, or to congenital weakness. If the latter, its recurrence cannot be prevented. Bathe the affected quarters long and often with cold water, and give one ounce tincture of iron in a pint of cold water as a drench three times daily, until blood ceases to flow. If she becomes constipated, give a pint of raw linseed oil.

2. The cow has lump jaw. The best treatment is the administration of iodide of potassium—one dram, three times daily, in bran, or in a pint of water. Gradually increase the dose till some one of the following symptoms of iodism appear, viz., failing appetite for food or water, saliva running from the mouth, or tears from the eyes. Then cease giving the drug; but repeat in three or four weeks, if necessary. A good many reports success with Fleming's lump-jaw cure, advertised in these columns.

3. Joannette oats have been highly recommended by Prof. Zavitz, O. A. C., Guelph, for land which grows too much straw. This variety is a good yielder on rich land.

GOSSIP.

Mr. L. B. Powell, Wallenstein, Waterloo, Ont., too late for this issue, orders a change in his advertisement of Shorthorns. He writes: "My head numbers over twenty, at the head of which is Lord Mysie—59627—, by Lord Mistletoe (imp.), dam Beauty 20th (imp.), by Golden Gift, bred by W. S. Marr. He is low-set and smooth to a turn. Some of the females are: Lovely of Pine Grove 2nd, by Marquis of Zenda (imp.), dam Lovely Maid (imp.); Amaranth C 4th, sire Golden Drop Victor (imp.), dam Sittytan Amaranth 4th (imp.); Choice Lady, sire Choice Koral (imp.), dam Pretty Lady (imp.). I have an exceptionally good lot of cows and heifers in calf to Lord Mysie to dis-ose of, also some choice young bulls from heavy milking dams, and prizewinning heifers, bred from Captain Mayfly 2nd, by Captain Mayfly (imp.), dam by Captain Watt, by Royal Sailor (imp.). Sales have been very satisfactory. Wallenstein Station is on the Guelph to Goderich branch of the C. P. R., and the farm one-half mile west of station."

Ideal Fence is Made to Last

Any farmer who knows fence knows Ideal is his kind as soon as he sees it. He sees the big, strong wires and how they are put together and that pretty nearly settles it.

When he wants particulars, he gets them straight. He finds Ideal wires are all No. 9 wires, the heaviest that are used for fencing in Canada. ALL No. 9, mind you; not big at top and bottom with some flimsy light ones in between.

He finds they are all of hard steel. Just about twice the strength that you get in soft wire fences. He sees that the upright stays are substantial (they are No. 9, too) and he knows they help do the work of the posts. When he examines into the way the big, strong horizontals and uprights are locked together at every crossing, he knows that when he puts up Ideal fence it's there to stay.

Take a look at the lock shown below.

There's no getting away from it, it's the best thing of the kind used on any fence—grips the wires at five bearing points. It makes every part strengthen every other part. There are no weak places. The fence is one complete whole. Extremes of heat and cold don't make it sag. Climbing nor anything else won't loosen it.

Don't you want that kind of a fence? It is the Standard railroad fence of Canada. More of it sold for farm use than any other. Just write and let us mail you our book on fencing, giving particulars.
