Well Drilling Machinery

You can make big money making wells. This is one of the few lines of work that are not over crowded. The demand for wells is far greater than can be supplied by the machines now at work. Well Drillers command their own prices. We build the celebrated HOWELL line of Well Machinery, for making deep or shallow wells of all sizes, for all purposes and in all kinds of ground. Our machines are the most up-to-date on the market, contain all the latest improvements, are extremely strong and simple, do perfect work, are easily operated and are very FAST WORKERS. Write to-day for our free Catalog A.

R. R. HOWELL & CO., Minneapolis, Minn.

New Eclipse Plows

In claiming that the "New Eclipse" is easier on horses than any other, we simply make an assertion which we can back up.

The reasons for it are obvious. The plow is made absolutely true in every part. It is hung right. It has the advantages of either floating beams or rigid.

There is no side draft whatever.

Why not write us to-day. You can do that summer fallow easier by buying

Put a little "Sunshine" in your home

An old-fashioned, ill-working furnace is a non-producer.

It consumes the coal, but through leaks and cracks wastes the heat.

It is not economy to have such a furnace in your own home, or in your tenant's home.

If you are thinking of building you should be interested in Sunshine Furnace. It adds 100 per cent. to home comforts.

As soon as you let the contract for your house decide on your furnace. The "Sunshine" man will be pleased to tell you just how the rooms ought to be laid out with an eye to securing greatest heat from the smallest consumption of coal.

If you want to experiment with the question don't specify "Sunshine."

If you want to settle the question specify "Sunshine."
