Horse Meat is Sold in Oshawa

Monday night, at a special meeting of the Oshawa town council a warm discussion took place over the appointment of a Sanitary Inspector for the town, Councillor Smythe strongly contending for a veterinary to fill the position. In the course of his remarks he said he knew that horse meat had been sold in Oshawa as beef and he knew that meat from animals which were not fit to eat were being palmed off on the public; only a veterinary was capable of passing judgement in such cases. He offered to produce evidence within a week to substantiate his statements.
