HOW TO HELP MINING.

ditions for the mining industry.

time and again, to say what an un-tust burden this is upon this camp in

perticular. The tax, gentlemen, must

be repealed, and tonight I ask your as-

sistance in this direction.

(From Tuesday's Daily.) The aniversary of St. Andrew's day was right royally celebrated in Rossland. In some respects the banquet with which the local St. Andrew's society marked the day was among the most notable of the long list which the Golden City has witnessed from year to year. Rarely indeed has there been such a genuine outpouring of goodfellowship as was manifested last night, and in the memories of many of those arrives. Do not for a moment think in attendance the function will be chalked up as a veritable red letter

event. In all that goes to make for actual enjoyment the St. Andrew's dinner was replete; as an intellectual treat It was not behind the many banquets eding it in Rossland annals, while from the gastronomic viewpoint the affair had its desirable features.

In the past it has been the rule that After a gathering of this kind, when public banquets in Rossland have been the mine managers get thawed out by their congenial companionship, and re made the occasion for conveying to the iterate, as they do, their confidence in the resources of the hills surroundpublic important and interesting annuncements anent the great mining ing your camp, many men go away from these gatherings wildly enthusindustry of the commuity, and last night's function was no exception 'o the rule. Statements were made, and iastic and begin to indulge in dreams are reproduced below, that will gratcf a mushroom growth for their city ify every loyal Rosslander. that can hardly be expected. Failing

anquet eventuated at the Hotel Allan, and the interior of the spacious room was elaborately decorated with flags and flowers. The gallant ald Union Jack was much in evidence, himself. the Canadian ensign had its honored be fair. place, while the Scottish ensign was minently displayed in its glory of bright yellow field with lions ram-Palms and flowers contributed to a decorative ensemble that was de-ricedly striking, while the long array of tables in immaculate napery and pleaming silverware gave the finishing ouch to the charming effect. On the menu cards the officers of the

priety had expended much taste and chance to reach maturity The cards were bound lic ad lib in ribbon of the Ker tartan, and were religicusly preserved as mementos of the happy occasion.

During the courses telegrams were read from sister societies throughout the Dominion, conveying the felicita-tions of Scotchmen in Canada from ccean to ocean to their "Rosslan' Bri-"First, let us appeal to the provincial givernment to repeal the two per cent tax. It is unnecessary for me, since I have dealt with this subject before

Dr. D. E. Kerr. president of the so-iety, occupied the chair, with A. H. MacNeill, K. C., and Lorne A. Camp-bell in the vice-chairs. About the hospitable tables were the following mem-bers and guests of the society: F. W. Rolt. Hon. C. H. Mackintosh, Thomas S. Gilmour, Rev. Dr. Wright, George W. Urquhart, William B. Townsend, und B. Kirby, A. B. Barker, H Captain George Hayman Claudet. Chren, Harold Nelson (Toronto), J. K. Cram, Dr. Coulthard, Harry McIntosh, A. W. Dyer, R. W. Hinton, L. H. Robtrts, Donald Dewar, Paul H. Kauff-man, J. G. Wallace, Rowland Machin city will do the best he can to have the

satisfied with the progress ro far made manager of the Rossland-Kootenay and although our first mill on this con company, and his remarks were fraught with matters of wide importtinent, namely the Le Roi No. 2, has not been running long enough ance. In part Mr. Thompson said: "In reviewing the past year's work, it one is inclined to be pessimistic, diste be in a position to publish definite couraging deductions can be drawn. On the other, hand, a review of the rear's work made by anyone having anowledge of the true facts can only in this plant. At this point I lead to the encouragement of all who are sufficiently interested to draw their the little delays which have occurred cwn deductions. While advance may have had nothing to do with our part have appeared to many of you to have of the mill, which with one or two exceptions has run very smoothly right

teen slow, it has undoubtedly been sure and along lines that will guarantee from the com "Ihat the War Eagle and Centre permanency to this camp and pros-perity to those who have enterprise Star Mining companies, having a con-centrator of their own, should decide sufficient to hold their interests durto include our process is gratifying,

is a times of depression. and is a good instance of the applic Let us take as an example the probtion of our process to another nlant lem of recovering the values from the low grade ores in the mountains surto treat the slimes carrying copper valnes, which as far as I know are imrounding your beautiful city. A year +go the question of treating the low possible to be saved by any other proeilver cess. This also applies to grade silicious ores on Red mountain slimes, which do not concern this camp, slthough it will be of interest to many was talked of seriously. Today, nearly one year later, the results have passed the experimental stage and we see on: of you here, and it is our intention to Liant in successful operation, another co into the question of treating silver-of large capacity, after several months lead slimes at once.

"Up to now we might say that with of careful, conscientions, experimental very few exceptions we have devoted work, in course of erection, and a third cur time to gold-copper ores, but we hope during the next few months spoken of for immediate erection. Gentlemen, that alone is a magnificent reord for one year. It is advance of the through exhaustive experiments to show the owners of these right kind to bring permanency and erties that we can treat their ores as "Let me say tonight that the sucsuccessfully as the ores of this camp, and in the case of any existing water cess attained in the reduction of the low grade silicious ores during the past year will be attained with the low concentrating plants, that by adding, at a comparatively small cost, one of our plants, we can save the grade ferruginous ores of this camp before next St. Andrew's celebration which are at present indisputably run-

ning to waste in the tailings. "The White Bear has definitely pro-

that there has not been success at-trined at the present time. There hav mised an order, and I hope that other Rossland mines will soon follow suit. been most magnificent successes at-tained that promise gratifying results "A very important feature wil! the opening up of the many low grade properties around Rossland now ers alike, that will double the life and and this will be bound to come as soon at it is seen that there is a process to treat their ores at a profit.

ovtput of your camp within a very reasonable time. "Now let me utter a word of advice. "The success of our process depends argely on the price at which we can get oil delivered here, and the Rossland board of trade has been good enough to go into the question of getting a rebate on the duty on oils imperted into Canada for use in the Elmore process, and on this point I would like to remark that as long as a suitable oil can be got in Canada at a low price. we would certainly prefer to to realize this growth immediately, they shortly take the opposite view to take advantage of it, but our appeal for getting this duty taken off is on account of the probability of not be-ing able to do this, and even if a suitand say that the speaker was simply er.deavoring to make a good fellow of Seriously, now, gentlemen, A permanent, substantial able Canadian oil is found it is questionable if there is a large enough growth is most surely likely to be a supply.

slow growth. The English oak of his-With regard to costs of treatment torical renown does not grow in a sin-gle year. The last year has been one in the process I am sure that as time gces on they will be reduced, and we of most remarkably rapid growth in are determined to find an oil cheap this direction. The next year promises enough to enable us to treat all the low grade properties in the camp. even greater results than those attained during the past year. Go away from "Besides the oil question, it is more this meeting enthusiastic by all means, gentlemen, but give your sturdy oak a than likely that improvements in the

plants from time to time be made which will be the means of knocking off a cent or two in the working expenses, as we are all the time working both here and in England with a view "I am going to ask you, gentlemen, tonight, as residents of this the fourth to perfecting our plants wherever we can see any chance of making a sav city in the province, as residents of this preat province, to lend your assistance towards bringing about a betterment of ing.

THE RACE TO COME

Edmund B. Kirby was cordially received on rising to respond to the toas of the mining industry. Mr. Kirby opened with a witty digression on the Scottish race and its greatness, attributing the Scotch ascendency in many important quarters to the marked tendency of the race to stick togethe

"Then, again, it has been suggested through all vicissitudes. In concluding that the government should immediately undertake to build certain wagon roads to develop new properties in this Mr. Kirby drew the following word district. I am heartily in accord with picture of the future British Columbian people:

"And now another thought has pre

Germ Diseases.

These are the known germ diseases All that medicine can do for these troubles

is to help Nature overcome the germs and such results are indirect and un

wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

Fraternal News

Liquozone kills the germs

This company, after testing Liquozone for two years in the most difficult germ diseases, paid \$100,000 for the American rights. That is by far the highest price ever paid for similar rights on any scien-tific diseases, withing withing. Nothing also in Nature's greatest tonic-the very source of vitality. Its effects are exhilarating-purifying, vitalizing. Nothing else in the world is so good for you. But germs are vegetables; and this excess of oxygen -the very life of an animal-is deadly to vegetable matter. We spend 14 days in making each bottle of Liguages: but the result is We publish this fact to show you the value of Liquozone. The most worthless product may have great claims made about it; but men don't pay a price like that save for a discovery of remarkable month to hourseit.

bottle of Liquozone ; but the result is liquid oxygen—a product which will cure diseases which no medical skill can cure worth to humanity.

certain.

without it. It is now employed in every great hospital, and indorsed by every medical authority, the world over. Kills Inside Germs.

Liquozone alone kills germs in the body without killing the tissues, too. It is so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. Liquozone destroys at once and forever the cause of any germ

And there is no other way to do it. Any drug that kills germs is a poison to you, and it cannot be taken internally. Liquozone alone can attack a trouble that is caused by inside germs; and it cures diseases which medicine never cured.

Liquid Oxygen.

Asthms Abscess—Aner Bronchitis Blood Poison Bright's Diseas Bowel Trouble: Coughs—Coids Consumption Colic—Croup Constipation Liquozone is simply liquid oxygen—no drugs, no alcohol in it. It is the discovery of Pauli, the great German chemist, who spent 20 years on it. His object was to spent 20 years on it. His object was to Catsrh-Carcer get such an excess of oxygen in staple Dysen'erv-Diarrhoa

sion of the topic. "The Land We Live In," was hancled by Hon. Charles H. Mackintos. and Harold Nelson. Governor Mackintosh's address was a "ypically bright and felicitous effort, while Mr. Nelson, who stands at the very top of the list of actors produced in the Land of the Maple, spoke briefly but eloquently and regular meeting of Rossland Lodge amid marked applause.

"The Lassies" concluded the regular list, coupled with the names of Arch-ibald B. Mackenzie and J. Stephen Deschamps, who were exception happy in their allusions to the fair uary 1, 1904: W. H. Burken, chancel-Music was furnished during the ev-
