

THE NEWS OF THE WEEK BY CABLE FROM LONDON AND BERLIN

SEEKING HOME FOR U. S. AMBASSADOR

Hotel Esplanade Annex or a Prussian Palace in Berlin May Be Selected.

FEUD STORY BELIEVED

Grave Breach Between German Emperor and His Son-in-Law Over Brunswick Succession.

(Special Dispatch.) BERLIN, November 1. MRS. JAMES W. GERARD, who, travelling by the Emperor, joined the American Ambassador at the Hotel Esplanade early this week, has left again for Paris, where she will meet her sister, Countess Anton Skary.

Emersonian sport has received a great impetus of late because of the brilliant autumn weather. Every one is anxious to be seen in the Hippodrome of the Tiergarten presents a scene of the greatest animation. The Crown Prince, who, with the Crown Princess, is residing at his Berlin palace temporarily, was among the riders this week, giving demonstrations of splendid horsemanship by the reins with which he handles the horses.

Her absence for the first time from a family gathering lends color to the opinion generally entertained here that the question of the Brunswick succession is not only a matter of political agitation on the part of the Guelph party, but has led to a grave breach between the Kaiser and his son-in-law.

Despite the stormy interview which is reported to have taken place on the same subject between the Kaiser and the Crown Prince the latter was among those to congratulate the Empress.

Mountain-Fighting: Swiss Manoeuvring in Their Natural Defences

1. Swiss Troops Descending the Jungfrauoch, on the Aletsch Glacier—A Detachment of Sappers and Six Guides in the distance. 2. Practising Mountain Fighting; a Swiss Soldier Climbing.

This year the manoeuvres of the Swiss army took a particularly interesting form in that they were planned according to a new scheme, never previously adopted, involving a supposed attack by an enemy on the St. Gothard fortifications and a daring counter-attack. It was arranged that the Red troops, representing the invading forces of the enemy, should be imagined to have burst into Switzerland by way of the Ticino and the Valley of Fiesch, should make their way up the Rhone Valley, master the forts of the Gothard, and penetrate into the heart of the country by the Furka and Grimsel passes.

Wait for Tango at County Balls

Hostesses Likely to Have Difficulty in Barring New Style of Dancing.

(Special Dispatch.) LONDON, November 1. A great many county balls are now being arranged, and every one is interested in the new style of dancing is waiting to see what the hostesses will take with regard to it. A year ago any one who attempted the tango or Boston at a county ball was immediately asked to depart on pain of being "chucked," while even the comparatively tame one-step was looked at askance by the County.

Great preparations are being made for the picture ball which is to be held on December 3 at the Albert Hall, the price of which for a ball has been raised from 25.00 to 42.00 since the summer. A great many ladies have promised to arrange groups from various pictures. The Duchess of Somerset is one and Lady Gladstone is another. Baroness Bellingham will undertake a Venetian subject, and Mrs. Walter Reuben an Egyptian.

Country About Nairobi, Becoming Almost as Fashionable Winter Resort as Egypt.

(Special Dispatch.) LONDON, November 1. MANY well known persons, including Lord and Lady Arthur Fitz, Lord Gerard, Lord Dunsany, Lord and Lady Worsley, Sir Thomas Dwyer, and Mr. Michael Wemyss, are going to British East Africa, for a winter holiday.

Some idea of the fascination of the country may be gathered from a talk which a correspondent had with an extensive traveller. "Nairobi," he said, "is twenty-four hours' journey by the Uganda Railway from Mombasa. Here the traveller, who has had the novelty of seeing from the carriage windows for a greater part of the line, suddenly makes a halt."

ART SEASON IN LONDON BEGINS

Spanish Old Masters at West End Gallery Include Works of Many Famous Artists.

OIL PAINTERS EXHIBIT

Promising Young British Artists at Prince's Show Very Attractive Figure Pictures.

(Special Dispatch.) LONDON, November 1. EXHIBITIONS of pictures are opening again in the West End, just to remind one that the picture buying and picture loving public is returning to London and that the autumn season is beginning.

The exhibition of pictures by Spanish old masters which has just been opened at the Grafton Galleries is one of the most curiously mixed shows that have been seen in London in a long time. Historically, it is, of course, of the greatest possible interest, but artistically it excites very mixed sensations. One thing which it proves is that Velasquez was the greatest artist to whom Spain has given birth, and that he had not only no equal among his artistic fellow countrymen, but not even a competitor who approached him in power.
