A Strong Letter Written With the Noble Purpose of Trying to Bene-fit Someone Else.

St. Hippolyte, Que., June 3.—(Special.)—Mr. L. A. Paquin, of this village, has written for publication the following letter. In it he speaks for both himself and his wife. The letter reads:

"After much suffering I had be-come unable to work. I had Kidney come unable to work. I had kidney Trouble, which gave me great pain.

"My wife had used a box of Dodd's Kidney Pills for a similar trouble some time before, and as they had completely restored her to good health I made up my mind to take a treatment myself.

"I was not disappointed, and I can now say that I have tried and proved Dodd's Kidney Pills to be the great-est medicine in the world.

We are both quite well now, and able to do our work as well as ever. "We have found Dodd's Kidney Pills to be a remedy which saves us the pains and trouble which we so often see in others, who are languishing and incapable of attending to their

work.
"We keep Dodd's Kidney Pills constantly on hand, and use them occasionally if we feel the slightest indisposition. We have used altogether between us six boxes.

"Perhaps I should explain why I write this letter. It is because I feel there may be many others who have not heard of Dodd's Kidney Pills or who, having heard, have not yet given them a trial, and to such T would say, Give Dodd's Kidney Pills a fair trial and you will agree with my wife and myself that there is not any other such medicine to be had."

THESE words give in a nutshell the purport of a long letter of thanks-giving which Mr. Samuel Stephens, of 169, Spon Lane, West Bromwich, near Birmingham, writes to us.

This gentlemen underwent an operation at a leading Hospital in Birmingham on the 15th day of May, 1887, and remained in the Hospital two months and four days, and was then discharged with a stiff leg, and told his trouble was incurable. He then went to the Blackwell Sanitarium for three weeks, but left in worse pain than before the operation. He was attended while at home by four different doctors, who unfortunately failed to even relieve him of his terrible sufferings, the exact cause of which they were unable to diagnose: but a friend who had watched pityingly during his terrible sufferings, suggested one day, as a last resource, that he should ruh on St. Jacobs Oil. Hesitatingly, and without confidence, he allowed the Oil to be applied, and after the first application felt—so much releved from his p in that he was quite willing to try a course of

He refers us to many of his friends and his chemist

as witnesses of his wonderful recovery, and if anyone doubts this state-ment we only desire them to write to this gentleman above-named, and

The ends of the long veil fall straight at the back.

Umbrella Collars.

Umbrella Collars.

For the numerous black silk cloaks in vogue there's a whole crop of collars in lace and batiste and linen, and in shade running from deep twine to white. In some cases the lace is applied to the material, in others the linen or batiste is applied to the lace. It amounts to the same thing, the deep, circular collar being so voluminous as to win the name of umbrella for itself. Many are merely pretty, and some are so odd of mesh and figure as to be positively weird. White on white.

Speaking of laces, and especially of their colors, there's a distinction. White lace is not often used, save for or on a white dress. That is, an all-white dress or cloak of lace or something trimmed with lace is de rigeur, but for trimming a co or one shade or other, ranging from cream to brown, are the two most modish of the intermediate tints.

Two Sorts of Skirts. There's really no saying which skirt enjoys the greatest popularity, the circular or the many-gored variety. Both are greatly in evidence. When one uses tramming in the shape When one uses tramning in the shape of straps or insertion the ored variety best exploits the scheme. One particularly lovely batiste is finely tucked as to each and every ore, and the gores are set together with Val. lace, which goes around the Van-Dyked ends. A tucked flounce is set on at this point.

As to Net. Nets are used in any number of ways. Whole net dresses over sik are classics, and these nets are of any classics, and these nets are of any number of sorts, though the square mesh, or one with even more sides to it, is just now in demand. It serves well for yokes and panels too and in some instances boasts bits of applied silk or velvet. The great French dressmakers use it a great deal on elaborate dresses, in intricate appliques and also as a foundation for tiny lace appliques and chiffon emtiny lace appliques and chiffon em-

A Joke on Lord Kelvin. It is said that in one department of his life Lord Kelvin, the eminent British scientist who was recently in America, did not materially shine. Don't Pity Yourself.

In his new book "Works and Days," Hamilton W. Mable warns his friends against self-pity. He his friends against self-pity. He says: "We begin to pity ourselves, to look upon others as ungenerous and unsympathetic, to lay responsibility for our failures on some person or circumstance. We soon come to think of ourselves as marting and triality tyrs and victims; we build up a fictitious character for ourselves; we create unreal sorrows and bear unreal wrongs. We end by corrupting and debilitating ourselves to and a degree that we cease to have a clear vision, a truthful tongue or a loyal heart. To put the result of a course of self-pity in plain speech, we deceive ourselves so long and so persistently that we become chronic liars to ourselves and chronic slanderers of others; and it is an awful thing to become an incarnate lie in a universe which is carnate lie in a universe which is relentlessly truthful."
