The Scofield Correspondence Course has been purchased by the Moody Bible Institute of Chicago by which it will be conducted hereafter. This Course was founded more than twenty years ago by Rev. C. I. Scofield, famous as a Bible teacher, and the author of the Scofield Bible. Thousands of students have been enrolled in the Course all over the world.

FOR SALE.—A quantity of Hard and Soft Wood. Apply to D. B. Shaw, Willow Vale Tannery.

Mr. Reuben F. Reid, the veteran fishery officer, has received the appointment of special advisory officer for this county. Mr. Reid has been a fishery officer for over thirty years and his experience well fits him for his new duties. He will have special authority over the square-nets and dip-nets on the Gasperau river. Under the new regulations a number of stands will be designated for the use of catching gasperau with dip-nets. These stands will be open to the public three days each week, and the use of them will be regulated to give each applicant turn and turn about. Owners of square-nets will not be privileged to use dip-nets. This new regulation will enable those who are not owners of square-nets to catch gasperau for home use.

TO RENT.—Premises next to drug store until recently used as Post Office. Apply to A. V. RAND.

Through the courtesy of Mr. A. J. Woodman, there is being shown in the window of his furniture store a series of photographs of the war-ships of the nations concerned in the present struggle. These photos are the property of Lieut. C. Bryant, R. N., and will be changed every third or fourth day, so that our people may become acquainted with the various types of warships, etc. involved in the present crisis. Also, through the courtesy of Mr. S. P. Heales, Lieut. Bryant has placed his naval war map in the window of the store adjacent to Mr. Heales' residence. Should any naval actions take place flags will be placed on the map denoting their positions. The Union Jack denoting a British victory and the German flag a German victory. Nothing but definite, authentic news will be noticed on this map.

The Outlook for Our Apples.

DEAR MR. EDITOR:—It is one thing to have an apple crop, but quite another to have a market for the apples. Many apple growers are fearing that this year's apple market will be very much restricted in area as well as in demand.

This anticipation, upon first thought, I admit, appears well grounded, and not a few are advancing what seem to be plausible arguments, but, upon second thought, what are our conclusions? The facts of the case are, at this date (middle of August) the only apple market that is absolutely closed to Nova Scotia apples is Germany. All the other markets for our apples, without a single exception, are still open, and new markets opening up every season—this year South America, for example.

My present conviction is that as long as the ocean trade-routes remain intact (and they will while Britannia rules the waves) and a sufficient number of suitable steamers are available, there is a reasonable certainty of our apples being in demand in all those countries where there were open doors last year with that one exception.

The prices offered might not be attractive under normal conditions, but conditions are abnormal, and we, in common with all concerned, must be prepared to meet all contingencies that might arise, philosophically.

Even if the fruit is some of the markets is sold for the lowest possible margin of profit, the fact remains that there will be active markets awaiting our shipments, unless something should happen of which, at the present time, there are no indications. This is my opinion and I pass it on for what it is worth.

Our early varieties will receive, as usual, a hearty reception in the local markets in our own West, in New Brunswick, and in the New England States, say nothing of the markets of lesser importance. And, unless I am making a miscalculation, our winter fruit will meet with a ready sale in Great Britain, Ireland, South Africa, South America and other countries.

I shall not be surprised to learn that the current demand measures up to the average of the past years. And even quotations may not be disappointing, under the circumstances.

Though we must be prepared for sudden fluctuations that will not be a new feature. With the price of foodstuffs soaring consumers may realize as never before that the apple has a distinct food value altogether apart from its popularity as a dessert, and this discovery will enhance this fruit in the estimation of the public for all time. So cheer up Mr. Apple grower, the outlook may not be as discouraging as it now seems to many.

Drive panic away. There are other and more vital issues before us, therefore let us preserve our moral and mental equilibrium.

GEO. T. BRYANT.

P. S. I note that, according to press reports, the B. C. Fruit Growers' Ass'n. will give 100,000 boxes of their apples to the British troops at the front. I suggest that N. S. F. G. A. make a similar gift to the British fleets.

Boy Scout Camp.

Black River Lake, Wednesday.—Everything is going along splendidly but the grub is disappearing with alarming rapidity.

Swimming parade is the event of the day and most of the novices are making gallant efforts to master the art. A baseball match in the water, between the Wolves and Otters proved exciting and resulted in a tie. Score two swins each.

All are hoping for a good attendance of visitors on Wednesday next, when a whale hunt will be the chief attraction.

Keep Children Well During Hot Weather.

Every mother knows how fatal the hot summer months are to small children. Cholera, infantum, diarrhoea, dysentery and stomach troubles are rife at this time and often a precious little life is lost after only a few hours of illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the tablets prevent stomach and bowel troubles or if the trouble comes suddenly—as it generally does—the tablets will bring baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Acadia Ladies' Seminary and Conservatory of Music.

Mrs. Fields and daughter, Miss Helen, of Somerville, Mass., are guests at Acadia Lodge. Mrs. Fields was formerly Miss Alberta Vaughn, of this town. This is her first visit to Wolfville for over twenty years and she sees a great many improvements in our town.

The Cost of War.

Dr. Charles Richet, statistician of the University of Paris, estimates the cost of war between Austria, Serbia, Germany, France, Russia, Italy and Roumania. He concludes that the daily expense of the actual campaign would be something like \$24,000,000. Dr. Richet bases his estimate on the assumption that roughly 80,000,000 men would be called to arms. If such a war lasted only as long as the brief Franco-Prussian conflict of 1870 the outlay on this basis would exceed \$5,000,000,000 irrespective of war indemnities.

Saint John Exhibition

WILL BE HELD SEPTEMBER 5TH TO 12TH.

Late advices from the management of the Saint John Exhibition are to the effect that everything is proceeding satisfactorily and that the show will be held from September 5th to the 12th as planned. The fact that the Nova Scotia Provincial Exhibition has been called off will make the Saint John Show more than ever the chief attraction of the season. While the conditions occasioned by the war have caused one or two exhibitors to withdraw, owing to the fact that it is impossible for them to get some special goods from Europe, their places have quickly been taken by firms anxious to avail themselves of this opportunity and others still remain on the 'waiting list.' Word has been received from the Amusement men in New York that everything in this department will be carried out according to contract; in fact every department of the exhibition will be complete and as far as known unaffected materially by the European situation. Various transportation companies will have their cheap rates ready for publication in a day or two, whereof information may be obtained from the Station Agent.
