HARTLAND TO BE INCORPORATED

There was a large and enthusiastic attendance at the meeting of the "Booster's Club" in Pythian hall on Thursday evening last. S. S. Miller was in the chair, and, on motion, A. D. Colwell was appointed permanent secretary.

The advertising committee reported having seen Messrs. Stevens and Colwell in reference to a write-up to be published in The Observer and afterwards in pamphlet form.

M. L. Hayward reported that The Observer had a scheme for a special edition with a proper boom article, which would be illustrated. Action on this was deferred until the article had been written and submitted to the advertising committee.

From the committee on incorporation M. L. Hayward reported that there was no data available for use at that meeting, and stated that it rested with the people whether, under incorporation, the taxes would be higher or lower.

A general discussion followed, the trend of opinion being that with the town's taxes in its own hands for disbursement we would have better roads, sidewalks, etc., and in a short time a system of sewerage and electric lights.

On motion of M. L. Hayward, seconded by W. D. Keith, it was the opinion of the meeting that incorporation was advisable and that its accomplishment be proceeded with.

On motion of M. L. Hayward, seconded by Frank Hagerman, the committee on incorporation was authorized to proceed on the basis of the present school district, and report at a later meeting, when also a membership fee will be fixed for the Booster's Club.

Messrs. Hayward, Keith and E. C. Morgan were appointed as an incorporation committee.

Passing to the disposal of the machine gun fund now in the bank M. L. Hayward read the financial statement, which showed the sum of \$1,221.89 to the credit of the committee having the picnic in hand.

On motion of Dr. Curtis it was resolved that the tables, etc., on the picnic grounds be removed to the school grounds, the picnic committee to look after the matter.

M. L. Hayward explained the situation as regard machine guns and stated that the government favored building up the patriotic fund, on which there was now a severe drain.

On motion of J. T. G. Carr, seconded by E. C. Morgan, the secretary was instructed to write Hon. H. B. Ames for advice as to the disposal of the funds in hand; also that the outside members of the picnic committee be again notified to attend on Thursday evening, when the fund will finally be disposed of.

Adjournment was made until Thursday, Nov. 11.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25-cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scourge robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

WAR CONTRACTS GRAFTING MEANS GOVERNMENT'S DEFEAT

"The Ottawa Government intends to permit no more graft investigation and will endeavor to put the lid on tight in this respect. The exposures of graft of one kind or another in the various provinces have placed Tories in a decidedly bad light, particularly in war times," said Mr. F. B. Carvell, M.P. for Carleton, who was responsible for the revelations of Premier Flemming of New Brunswick and the unearthing of war supplies graft before the public accounts committee last session, to a Vancouver Sun reporter a few days ago. A deeper probe into the war materials would have been made had the public accounts committee had longer time in which to work, Mr. Carvell said, but as it was, the instances of graft unearthed extended to almost every sort of supplies needed for the military forces. As he expressed it, "they rolled up their sleeves and started after the fifty million dollars voted for war supplies." In the ten days in which the public accounts committee could get going well, the information which had been made public to date was all brought out, even to the McBride submarine suspicions, and had the government not prorogued parliament when it did other revelations could have been expected.

The result of the unearthing of such graft, Mr. Carvell asserts, has been a body blow to the Conservative-Nationalist government and the graft brought to light, and other things, means the certain overthrow of the government next election, no matter when it is brought on. With the possible exception of Ontario, every province will go Liberal.

The New Brunswick member thinks the government will try to compel an election but he believes that the same forces which protested, and thus prevented, the other two attempts, will prove strong again and the government will not dare bring on a contest during the war.

"It has been suggested," said Mr. Carvell, "that the government will demand an extension of the parliament term for three years, and if it is refused, will make the refusal a pretext to go to the country and to prevent further investigations into their conduct. Personally, I do not believe they will dare go to the country during the war. They tried twice before. They had an election staged for November, 1914, and one for June, 1915. Public sentiment was so strong they did not dare do it. Protests came from all over Canada. I have no doubt the same people, headed by Bob Rogers, will try for an election again, but it is my judgment that the forces which held them back before are twenty times stronger than at that time."

"But, no matter whether an election comes in December, in January, or two years hence, nothing awaits them but defeat. I do not believe there is a province except Ontario, in which the governments can get a majority and in Ontario its strength will be greatly reduced."

"The Prince Edward Island government was in power four years and had no sins to answer for such as have the respective cabinets of New Brunswick, Manitoba and British Columbia, and notwithstanding the unlimited use of whiskey and money, twenty-four votes properly placed, would put the Tory government out of power in the island."

"In Nova Scotia there are not

more than two fairly safe Conservative seats. New Brunswick will give a Liberal majority and the Conservatives themselves only claim fifteen seats as their possible maximum in Quebec.

"The abolition of the machine in Manitoba, the provision of clean election lists there, honest magistrates and impartial provincial police, will make the election of a single Tory in that province very problematical. Saskatchewan and Alberta will continue to remain solidly Liberal."

Liberals cannot get less than twenty-five seats in Ontario and if they can remove the lid from the political pot in British Columbia, it would seem to the ordinary onlooker there can only be one result here.

"The day parliament prorogued Sir Robert Borden stated 'the doors of the penitentiary are yawning for these people who have been defrauding the government.' Since then Borden resigned and says he will be nominated again by the Tories of King's county, N. S. Garland confessed his guilt and resigned; Flemming has been driven from the premiership of New Brunswick and is the present Conservative-Nationalist candidate in Carleton. All these men are walking around as far away from the penitentiary as ever."

GinPills FOR THE KIDNEYS How They Help

ST. RAPHAEL, ONT.
Four years ago I had such pain in my back that I could not work. The pain extended to my arms, sides and shoulders. I used many kinds of medicine for over a year, none of which did me very much good. I read about Gin Pills and sent for a sample and used them, and found the pains were leaving me and that I was feeling better. So I bought one box and before I used them all, the pains were almost gone and I could keep at work. Now I feel as well and strong as I did at the age of 20. I am a farmer, now 61 years old.
