during the interval nonest and en-clent men in the department were at work under a shadow of suspicion. All the time two partisan lawyers ap-pointed to defend the government were going through the records and all time, some who might beguile, they had access to the documents. A remarkable wave of temperance is said to be passing over Ireland in connection with the Roman Catholic church. Nearly all the bishops refer-red to the subject in their Lental pas-torals, and several of them even directed the clergy under their juris-diction to refuse to attend funcerals at which drink was given. The pricest e diction to refuse to attend funerals at which drink was given. The priests have for years advocated an "anti-Treating League." The system of public treating is especially perilous to the Irishman whose overflowing sociability embraces every oppor-tunity to treat and be treated. Mr. Geo. McCosh, who has the contract for building Ald. Ferguson's floating boat house had a rather exciting time yesterday morning. When Mr. McCosh was in the act of anchoring the house it went down the harbor for an hoar with Mr. McCosh as captain, and Mr. George Kethro as mate.
