SAVED BY A DOG. The steamship British King, from Liverpool, landed at Philadelphia a few days ago as immense English locomotive for experimental use on the Peunsylvania railroad. It was built at the shops of the London & Northwestern Railroad at Crewe, Eaghad, and is of the double expansion type, after the style of marine engines. This sort of engines has never been used with a locomotive in this country. It is claimed that the big machines can attain a speed of 70 miles a hour.—Exchange.

As two nuns belonging to the convent at St. Joseph, Beauce, Que., were walking down the road there a few days ago, with one of their little girl charges, a young man sugaged in coasting came down a slide at full speed, and would have run down and probably killed the little girl but for she heroic action of one of the nuns, who threw herself before the child to shield her with her own body. The nun was shockingly injured, one of her eyes being torn out of the socket, in addition to the other serious hurts which she received.—Exc.
