Grand Meeting

At Spaniard's Bay.

Branch of the F.P.U. Formed—

Orange Hall Crowded, and

Coaker Repeatedly Applauded

Special to Evening Telegram.

SPANIARD'S BAY.

Last Evening.
By far the best public meeting ever held here was that held last night by Mr. Coaker. He delivered a brilliant and elegant speech of two hours and forty minutes, and held the crowded audience spell-bound from start to finish. There is no question about the F.P.U. being the coming power in the Colony. No man that ever spoke here from a public platform could have accomplished the results of last night's meeting. Mr. Coaker, he delighted almost every man present. He asked the audience if they wished him to come back when almost every person present raised their hands. He covered the ground he intended to explain, but didn't he surprise the audience. He did not desire to form a branch of the Union here but the men surrounded him and begged him to do so. A large number handed in their names to join and to-night the Chairman of Bay Roberts will come here and establish a Local Council. The Orange Hall where the meeting was held, was crowded, the speaker continually applauded and cheered while delivering his address. At the close the enthusiasm was wonderful and the people cheered him as they never cheered before at Spaniard's Bay. Someone asked for a cheer for Morris, but not a single voice responded. Reid's Section man asked for a cheer for Piccott, and the most astonishing thing of all happened, for not a half

dozen voices responded. Talk about the Union, why there can be no doubt of it sweeping the country, for to hear Mr. Coaker speak is to realize what this movement really is, and to say that every toiler is delighted, is to put it very mildly. The people here today glory in Mr. Coaker and "Union For Ever" is their motto. Many men from Coley's Point and Bay Roberts attended and the audience was a large one, but not a single interruption occurred, and none could be offended at a word uttered by the speaker. Mr. Coaker appeals to the fishermen as no other man ever did and has a grasp of their condition that no other man ever possessed. The speaker was very clear, plain and fluent; no notes were used and his utterances not only enthused the audience, but they could hardly realize that he came from the Backwoods of Green Bay only four years ago unknown and without any means, and to-day controls the future of the Colony. Sounds like a fairy tale, but it is nevertheless true and no place realizes that fact more today than this settlement. Mr. Coaker will hold a meeting at Bryant's Cove this afternoon and at Island Cove to-night. Our prayer is that God would bless his efforts to uplift the country and people. Long may he live.

Nascopie's Rough Run

MEN WASHED ABOUT THE DECKS.

Though the Nascopie-made a quick run across the 'herring pond' she was not without her share of stormy weather. As the vessel began to near the Banks she had very severe weather and sea after sea came on board. A. Whiteway, a deck hand, and son of Mr. Eli Whiteway, was forward endeavoring to cover a ventilator, when one very heavy sea boarded her and swept the man aft. He was driven with force against the fore rigging, was rendered unconscious for a while and one of his legs were so seriously injured that it was thought it was broken. The man was treated by Dr. Anderson on arrival here and is lame from the effects of the injury received. The seas which swept the ship broke in the fore-castle door and flooded that compartment with water which for some time was over 4 feet deep there. The men had to leave the place and sleep in other parts of the ship. Another of the crew was thrown down by the sea and cut about the head.

Sealing Notes.

Over 600 men have arrived in the city within the past couple of days to go to the ice in the Gulf ships.

The s.s. Labrador sails to-morrow for Channell from which port she will clear for the Gulf sealabery.

The Ranger, which made the biggest bill of Bowring's fleet the past two springs, is now being outfitted at the north side premises. She sails for Wexleyville Thursday next.

The s.s. Neptune, Capt. Bob Bartlett, sails for Louisbourg to-morrow to get a supply of coal and from there will proceed to Channell.

The Viking and Labrador leaves port to-morrow morning early for Channell.

Special to The Evening Telegram.

OTTAWA, To-day.

The second reading was given the Naval Bill early this morning, the final vote giving the Borden Government a majority of 30.

SYDNEY, To-day.

The Bruce got into Sydney last evening after being off Cranberry Head for a week.

OTTAWA, To-day.

At the opening of Commons, Sir Wilfrid Laurier asked what truth there was in the statements that Stefansson is to be dispatched on an Arctic expedition. Borden said the statements were correct. The expedition has been projected to explore the lands over which Canada claims sovereignty. This expedition had been planned by certain American scientific institutions, which had asked the Canadian Government for assistance. It seemed desirable that the expedition should be sent, but also desirable it should be wholly under the Canadian Government. American institutions had renounced claim to Stefansson's services but might send some scientists with the party.

LONDON, To-day.

Mrs. Pankhurst, militant suffragette is to be tried at the Old Bailey in April, instead of the Surrey Assizes in June or July, as would have been the case in ordinary course. The authorities made this concession on her promising good behaviour. Nearly 800 delegates assembled in London, representing all parts of the country on behalf of National Union Women's Suffrage Societies. The Conference annual report says the membership has increased 12,000 during the year. The Suffragette Journal states that Sylvia Pankhurst is seriously ill in Holloway jail as a result of a hunger strike necessitating forcible feeding.

OTTAWA, To-day.

Col. Hughes at the annual meeting of the Canadian Artillery Association, in the presence of His Royal Highness the Duke of Connaught, said the people of Canada should be ready to defend their country if necessary. They have a right to do so. I am glad they are waking up to their duty, he said. "We have" applications from 50,000 young men who want to enroll in the Militia, but we haven't money to accommodate them; every man should be ready to defend his country. If not then he ought to pay a tax of \$5 a year towards the upkeep of those who will. This system was followed in Switzerland and was advocated by Premier Louis Botha in South Africa." Col. Hughes maintained too much money could not be spent to improve militia.

ILL OF APPENDICITIS.—One of the firemen of the Nascopie, named Patrick Gosse, was yesterday taken to the hospital. He is very ill of appendicitis and will undergo an operation.

ANOTHER SHIEBEN CASE.—Messrs. R. A. Squires and W. J. Higgins, Barristers, arrived here by the shore train last night. Both were engaged in the hearing of a shiebeen case before Judge Oke, at Harbor Grace. Mr. Higgins appeared for the Crown and Mr. Squires defended. The case was adjourned for the procuring of more witnesses.

DIED.
